**Date:** Currently on display through January 2004

### **Who: "An Exhibition of Works by Gunni Nilsson Price"**

One of Florida's most recognizable sights has come to Tampa International Airport through the work of Gunni Nilsson Price. Her original paintings define the beauty and intricacy of the many Florida palms that exist right here in our backyards. From the grandeur of the Washingtonian Palm to the sleekness of the Lady Palms, "An Exhibition of Works by Gunni Nilsson Price" presents a three-dimensional view of these pristine trees. It has been said about the sunlight in her paintings that people can see it, feel it and touch it. Her one-of-a-kind paintings are often described as clean, bold and three dimensional.

**Medium:** Oil on canvas

**Where:** Transfer Level 3, Landside Terminal Building, Arcade

**Date:** Currently on display through January 2004
