

## **ON AIRPORT INSTRUCTIONS**

A proponent must submit an application to the Hillsborough County Aviation Authority (HCAA) to initiate the review process for proposed development or use of construction equipment on airport property. The information obtained from this form allows the Airport to determine height violations or Airport Layout Plan modifications.

The Aviation Authority's form is entitled "Aviation Authority Permit Application". This form and the FAA Form 7460-1 should be sent to the attention of Tony Mantegna, Hillsborough County Aviation Authority.

Based on information obtained, the Airport will initiate a review process with the FAA.

The Aviation Authority requires the elevation of each corner of the building and its highest point. It is also requested that you submit an AutoCAD drawing file of the proposed site plan in a State Plane Coordinate System.

Tony Mantegna
