

OPERATING DIRECTIVE

Hillsborough County
Aviation Authority

Number: D342.00.01

Effective: 12/01/81

Revised: 06/25/03

Page: 1 of 2

Subject: Public Address and Paging System

PURPOSE: To establish procedures for the public address and paging system at the passenger terminal complex at Tampa International Airport.

GENERAL: The public address system is operated by the Authority. The Communications Center broadcasts the general public address system to the three terminal landside levels and to all airsides. The airlines have public address broadcast capability for local announcements in the bag claim level and at the gate area in their respective airside. These local announcements take precedence over all other announcements. Localized paging will be at the discretion of the airlines.

CRITERIA:

A. Announcements:

1. Users must meet a minimum standard of voice quality, tone and diction.
2. Non-airline tenants are not authorized to make any announcements over the public address system.
3. All pre-recorded announcements must be approved by Operations.
4. The Communications Center may make operational announcements for the airlines when a flight is cancelled or delayed due to mechanical, weather, or air traffic control. These announcements are limited to one status and departure announcement for each 15 minutes of delay.
5. Non-routine announcements may be requested by authorized personnel, as appropriate for emergency or unusual situations.

B. Paging:

1. Paging will be directed through the Communications Center. Tenants will direct persons requesting pages to the page phones located throughout the terminal complex.

Subject: Public Address and Paging System

2. Paging for an individual is normally limited to one page for each person paged within any ten-minute period
 3. Persons paged by the Communications Center will be requested to please pick up the nearest page telephone. The message will be relayed to that person when they contact the Communications Center.
- C. The following types of announcements or pages are not authorized on the general public address system.
1. Announcements for the loading of buses in the name of a tour company or group.
 2. Requests by transportation companies to page a passenger or fare.
 3. Paging of employees.
 4. Same page over a short period of time to page a person or persons.
 5. Airline flight arrival announcements.
 6. Paging the description of a lost and found item.
 7. Paging an individual to meet their party at a particular location or announcing a message from one individual to another.
