

STANDARDIZATION PROGRAM LIST

The Hillsborough County Aviation Authority (Authority) has identified the following products, specifications or services eligible for this Standardization Program List. Each product, specification or service has met applicable requirements of the Authority; however, the listing of a product, specification or service on the Standardization Program List is not an endorsement by the Authority and does not release the supplier or service provider from compliance with specification or service requirements. The Authority may revise or amend this Standardization Program List as necessary, from time to time, to reflect actions by the Authority, or based on the manufacturer or service provider requiring modification or discontinuance of any of the products, specifications or services.
