

Notice of Intent to Award a Sole Source Procurement

The Authority intends to negotiate and award a sole-source contract with LNRS Data Services, Inc. for the purchase of online domestic and international airfare data services which is being utilized on the Diio Mi platform. Diio Mi is a proprietary online subscription service that collects flight and market performance data, such as carrier-reported traffic, fare, and operating costs, from the U.S. Department of Transportation and other global sources. Diio Mi also offers future airline bookings data, global airline fleet data, and QSI-based route forecasting. The entire Diio Mi dataset is then consolidated into a single database. Firms that believe they can meet or exceed these requirements must provide, in writing, convincing technical data sufficient to support their position.

Detailed requirements will be available on the Tampa International Airport website at www.TampaAirport.com > Business & Careers > Business Opportunities > Supplier Resources > Public Notices, on September 2, 2025
