The decision to grant reasonable accommodation requests will be made case-by-case.

TRAFFIC OPERATIONS MANAGER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Traffic, the Traffic Operations Manager is responsible for overseeing scheduling and evaluating the performance of Traffic Supervisors and the Traffic Training Coordinator. This role includes managing the Curbside Management Program and the Traffic Operations Training Program, ensuring efficient day-to-day traffic operations at the terminal, remote curbsides, and Air Operations Area checkpoints. This position will provide strong leadership, promote positive employee relations, and work closely with the Senior Manager to meet operational needs and ensure adherence to safety protocols.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Provides strong leadership to Traffic Supervisors while promoting and maintaining positive employee relations.
- Identifies and develops effective leaders capable of engaging employees, building trust, and holding themselves and direct reports accountable for results.
- Creates, maintains, and revises the schedules for the Traffic Supervisors and Traffic Training Coordinator.
- Provides direction and oversight and is responsibility for the Authority Curbside Management Program operation (24-hour, seven-days a week operation).
- Meets daily with the Senior Manager of Traffic to provide updates on the Traffic Division's operations and future needs.
- Provides input to the Senior Manager of Traffic on the development and management of the division's budget, schedule and equipment.
- Receives and resolves customer inquiries.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.

- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree in Management, Business Administration, Public Administration, or related field.
- Four (4) years experience in traffic control or related field.
- Two (2) years supervisory experience.
- Or equivalent combination of education, training, and experience.
- Ability to pass the Police Department background investigation including a polygraph assessment and pre-employment drug screening.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of traffic management principles and airport operations, including parking laws and regulations relevant to aviation environments.
- Knowledge of federal, state, and local laws and regulations pertaining to transportation and public safety, particularly those enforced by the Transportation Security Administration (TSA).
- Skill in supervising and mentoring staff, including providing training, performance evaluations, and professional development opportunities.
- Ability to assess and monitor changing traffic conditions, ensuring the safety and efficiency of vehicular and pedestrian flow within the airport.
- Ability to develop and implement operational plans and strategies that align with the objectives of the Police Traffic Division.
- Ability to handle operational and administrative problems effectively, proposing innovative solutions to improve traffic management processes.
- Knowledge of safety procedures and best practices, ensuring compliance with established standards to reduce accidents and enhance public safety.
- Skill in leadership, team-building, employee engagement, and consensus-building.
- Ability to effectively and simultaneously balance multiple high priority tasks.
- Ability to be results-driven, decisive and to execute plans that are operationally sound.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

TRAFFIC SPECIALIST

GENERAL DESCRIPTION

Under the general direction of the Traffic Supervisor, the Traffic Specialist is responsible for managing a wide range of traffic-related duties at the airport. This role encompasses directing and controlling vehicular traffic on terminal curbside drives, enforcing parking regulations, and ensuring the safety and security of the Authority property, facilities, staff, and the general public. The Traffic Specialist maintains efficient traffic flow while providing excellent customer service to airport users.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Directs and controls vehicular traffic on airport terminal curbside drives and at checkpoint areas crossing taxiways to ensure safe and efficient traffic flow.
- Provides customer service and curbside assistance to airport users, offering information and guidance as needed to enhance the passenger experience.
- Performs security duties to protect airport property, facilities, personnel, and the general public, ensuring compliance with safety protocols.
- Enforces parking regulations by issuing citations as necessary, maintaining order and compliance within the airport's parking facilities.
- Monitors and assesses changing traffic conditions, making real-time decisions to optimize traffic flow and safety.
- Conducts inspections of traffic areas to identify safety hazards and ensure compliance with established standards.
- Assists with traffic control during special events or emergencies, collaborating with other departments to ensure effective coordination.
- Participates in training and development programs to enhance skills related to traffic management and public safety.
- Conducts regular inspections of traffic areas to ensure compliance with established safety standards and identify potential hazards.

- Engages in community outreach efforts to educate the public about traffic regulations and safety initiatives at the airport.
- Maintain accurate records of traffic incidents, citations issued, and other relevant data for reporting and analysis purposes.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Job Knowledge:** Has adequate knowledge of the fundamentals of the job.
- **Work Quality:** Adequate completion of work that is neat and accurate; rarely needs correction.
- **Customer Focus:** Give high priority to customer satisfaction and customer service; Anticipate member/business needs and act accordingly.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS

- High School diploma or valid equivalent.
- One (1) year verified work experience.
- Must be able to pass the Police Department background investigation including a polygraph assessment and pre-employment drug screening.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Associate's degree in criminal justice, business administration, management, public administration or a related field.
- Previous experience in traffic control.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of airport traffic rules and regulations to ensure compliance and safety in managing vehicular movement within the airport.
- Knowledge of airport security protocols and procedures, enabling effective enforcement of safety measures and regulations.
- Skill in directing and controlling vehicular traffic to maintain safe and efficient flow on airport terminal curbside drives and taxiways.
- Ability to operate a tow truck and other airport vehicles safely and efficiently while performing traffic management duties.
- Ability to remain calm and composed under stressful conditions, effectively managing traffic situations and public interactions.
- Knowledge of the functions, services, procedures, and regulations of the unit to which assigned.
- Skill in the use of Word, and Outlook.
- Ability to engage with the community through outreach efforts, educating the public on traffic regulations and promoting safety initiatives at the airport.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

TRAFFIC SUPERVISOR

GENERAL DESCRIPTION

Under the general direction of the Traffic Operations Manager, the Traffic Supervisor is responsible for leading a team of non-sworn Traffic Specialists and Senior Traffic Specialists at the airport. This position focuses on providing public assistance and guidance while enforcing parking laws and ensuring the safety and control of vehicular and pedestrian traffic on airport arrival and departure drives, as well as other airport areas. The Traffic Supervisor enforces airport parking regulations and assisting with Transportation Security Administration (TSA) compliance requirements, while also mentoring and managing the performance of subordinate staff to achieve the objectives of the Police Traffic Division.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Plans, coordinates and supervises assigned functions and activities to help achieve Police Traffic Division objectives.
- Prepares daily and monthly work schedules, payroll, memorandums, correspondence, interoffice communications, etc.
- Verifies and approves timecards for assigned employees.
- Completes written reports and required forms in accordance with standard operating procedures and directives.
- Oversees traffic operations; observes personnel in the performance of their traffic management duties.
- Observes and assesses changing traffic conditions.
- Reassigns personnel to maintain efficient public access to the airport.
- Assists with traffic control duties.
- Recommends new systems and procedures to improve traffic operations.
- Resolves operational and administrative problems.
- Monitors the status of allocated funds and provide input to management concerning the annual budget process.

- Assists in the recruitment, interview process, and training of new personnel.
- Coordinates with other departments/agencies both internally and externally.
- Oversees the maintenance, safety and cleanliness of the Traffic Division vehicle fleet to ensure operational readiness.
- Provides information and assistance to the public.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Providing Direction:** Motivating others and rallying people around a common vision, goal, or team outcome; inspiring commitment to contributing to the organization and achieving organizational outcomes; demonstrating flexibility in times of change and empathy; and reestablishing focus and order when appropriate.
- **Coaching:** Providing guidance and clear, candid, and constructive feedback that focuses on specific behaviors and outcomes to help an individual expand knowledge, skill, or ability to accomplish a task or fulfill their role, supporting career growth and development.
- **Emotional Intelligence:** The ability to understand and manage your own emotions and recognize and acknowledge the emotions of those around you.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

TRAFFIC TRAINING COORDINATOR

GENERAL DESCRIPTION

Under the general direction of the Traffic Operations Manager, the Traffic Training Coordinator supports operations, public safety, and security activities at Tampa International Airport. This position is responsible for the development and facilitation of both classroom and hands-on training for all Traffic personnel, including newly hired traffic specialists. The coordinator will also oversee annual and remedial training requirements as mandated by the Florida Department of Law Enforcement (FDLE), ensuring that all training programs meet organizational standards and enhance the effectiveness of the Traffic Division's operations. Additionally, the Traffic Training Coordinator will evaluate employee performance, develop instructional materials, and maintain comprehensive training records to support continuous improvement and compliance within the department.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Evaluates employee performance, analyze, and identify opportunities for performance improvement and translates needs into lessons and remedial training modules.
- Develops, updates, and reviews reference guides and instructional materials associated with Traffic Training.
- Performs as a Lead Trainer for newly hired Traffic Specialists and conducts classroom and on-the-job training.
- Performs training related administrative tasks; develops and maintain databases of training records.
- Attends meetings, serves on committees, and makes presentations as needed.
- Performs administrative tasks, including answering telephone calls, making copies, sending/receiving faxes, filing documentation, or processing incoming/outgoing mail.
- Conducts monthly quality assurance reviews of traffic personnel performance and delivers analysis to supervision for follow-up coaching.
- Participates in the recruitment, review, interview, and selection process of traffic applicants.

- Maintains a comprehensive knowledge of training principles, procedures, and presentation techniques; research and assess new training techniques and programs; coordinate training resources and provide updates to web-based materials and printed guides when applicable.
- Demonstrates scheduling flexibility to accommodate training needs for all shifts.
- Maintains training records and reports.
- Testifies in court to provide an accurate account of information related to training records and emergency/non-emergency calls for assistance, as required.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Adaptability:** Maintaining effectiveness in reaching set goals by adapting to changed circumstances, tasks, responsibilities, and people; adjusting one's own behavior in light of changing conditions.
- **Communication:** Shaping communication to the needs of the audience; conveying ideas and opinions clearly to others; listening attentively to others; using appropriate grammar and vocabulary.
- **Task Management:** Listens and checks before acting; tries to understand the people and data before making a judgment; follows established processes.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations.

REQUIRED FOR ALL HCAA JOBS

- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- High School diploma or valid equivalent.
- Three (3) years experience as a Trainer.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Associate's degree in business administration, organization development, public administration, management, or a closely related field.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of training principles, procedures, and presentation techniques, ensuring the effectiveness of instructional programs for Traffic personnel.
- Skill in developing and facilitating both classroom and hands-on training sessions, tailored to meet the needs of newly hired traffic specialists and existing staff.
- Knowledge of regulatory requirements established by the Florida Department of Law Enforcement regarding training standards for traffic personnel.
- Skill in utilizing MS Office programs (Outlook, Word, PowerPoint, Excel) to create training materials, maintain records, and perform administrative tasks efficiently.
- Ability to maintain comprehensive training records and databases, ensuring compliance and supporting continuous improvement within the Traffic Division.
- Knowledge of quality assurance practices, including conducting monthly reviews of personnel performance and delivering actionable analysis to management.
- Knowledge of emergency procedures and protocols, allowing for effective engagement in traffic duties during staffing shortages or emergencies.
- Skill in making presentations and representing the Traffic Training Program in meetings and committees, effectively communicating training goals and updates.
- Ability to demonstrate scheduling flexibility to accommodate training needs across all shifts, ensuring comprehensive coverage for training sessions.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

VICE PRESIDENT OF CONCESSIONS & COMMERCIAL PARKING

GENERAL DESCRIPTION

Under the general direction of the Chief Commercial Officer, the Vice President of Concessions and Commercial Parking is responsible for managing revenue-producing leases and contracts related to non-aeronautical lines of business for the Authority. This role provides strategic leadership and oversees the planning, organization, and integration of all concession operations, including food and beverage, retail, advertising, sponsorships, on-airport and off-airport rental cars, as well as ground transportation services and all public parking. This position will develop and implement strategic plans aimed at enhancing revenue generation while evaluating and managing all lines of business. Additionally, the Vice President will monitor financial and customer service performance to ensure compliance with high standards, fostering strong relationships with internal and external stakeholders to drive operational success.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Develops and implements a strategic plan for non-aeronautical revenue development that aligns with the Authority's overall strategic goals and objectives, ensuring effective execution and tracking of progress.
- Oversees the management of the Airport’s public and employee parking, rental car, and ground transportation operations, including all associated revenues, contracts, programs, and products.
- Oversees all aspects of the Airport’s Concessions program including food and beverage, retail, advertising, sponsorships, vending, hotel and passenger services to meet revenue goals alongside exceptional service.
- Oversees the procurement and/or negotiation of all airport concession agreements in coordination with the Procurement and Legal departments to ensure compliance and effectiveness.
- Works closely with internal stakeholders on key projects, including the Master Plan, construction initiatives, and contract audits to align efforts and resources
- Oversee the development of revenue forecasts and budgets for the department, ensuring alignment with annual targets for concessions, parking, rental car, and ground transportation services.
- Develop and maintain ongoing revenue performance metrics for all revenue-generating assets, providing regular updates to executive staff and stakeholders.

- Establish and maintain strong working relationships with current and prospective business partners, fostering a collaborative culture with the Concessions and Commercial Parking Department.
- Collaborates with Executive Staff, Senior Staff, and other departments, tenants, and consultants to achieve Authority objectives and streamline operations.
- Directs the preparation and administration of the Concessions and Commercial Parking Department's operating budgets, ensuring financial accountability and strategic alignment.
- Markets business opportunities to identify and generate additional revenue sources for the Authority.
- Ensures that procurement processes are well-planned, with a focus on supporting Airport Concessions Disadvantaged Business Enterprises (ACDBEs) and Small Business Enterprises (SBEs).
- Reviews legislation and contract agreements to assess fiscal impact and ensure compliance with federal, state, and local regulations affecting commercial operations.
- Leads, motivates, and develops a team of personnel within the Airport Concessions and Commercial Parking Department, fostering professional growth and high performance.
- Conduct thorough analyses of business and financial plans for existing concessions to assess their short- and long-term viability, implementing necessary changes in collaboration with concessionaire partners.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

VICE PRESIDENT OF GENERAL AVIATION

GENERAL DESCRIPTION

Under the general direction of the Chief Operating Officer, the Vice President of General Aviation is responsible for directing the operations, maintenance, business, and marketing initiatives across the Authority's operations at General Aviation airports, including Tampa International Airport (TPA). This role involves coordinating the activities of each Fixed Base Operator (FBO) and fostering strong relationships with tenants to ensure seamless operations and service delivery. The Vice President oversees the maintenance of airfields, buildings, equipment, and utilities at these airports while engaging with key stakeholders to drive development and innovation in the general aviation sector.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Oversees and manages the Authority's General Aviation system of airports, ensuring operational efficiency and strategic alignment.
- Provides strategic direction for future growth opportunities within the general aviation industry, including insights into Advanced Air Mobility.
- Develops and implements business development goals, business plan objectives, and policies for general aviation operations.
- Prepares and analyzes statistical reports to track performance and inform decision-making processes.
- Collaborates with the Real Estate department to provide strategic input on leases and agreements for general aviation facilities, ensuring airport interests are upheld.
- Manages the department's budgets for personnel, operations, maintenance, equipment, and capital projects to ensure financial accountability.
- Collaborates with the Communications department to develop and implement marketing strategies for public and community outreach programs related to General Aviation.
- Makes presentations to government, civic, neighborhood, and other groups regarding general aviation issues, as directed by the Chief Operations Officer.
- Provides key insights and recommendations to the Planning and Development department regarding master planning and land use at General Aviation airports.

- Monitors industry trends and innovations to adapt strategies and enhance the Authority's competitive position in the general aviation market.
- Identifies and assesses risks associated with general aviation operations and develops mitigation strategies as needed.
- Engages with stakeholders to gather feedback and improve services and facilities at general aviation airports.
- Adheres to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.

VICE PRESIDENT OF HUMAN RESOURCES AND ENTERPRISE RISK MANAGEMENT

GENERAL DESCRIPTION

Under the general direction of the Chief Operating Officer, the Vice President of Human Resources and Enterprise Risk Management is a senior executive leadership role responsible for overseeing strategic human capital programs and enterprise risk initiatives. This leader will guide a high-performing Human Resources team and a centralized Enterprise Risk Management function to ensure organizational alignment, accountability, and operational excellence.

The Vice President is accountable for the continued modernization of Human Resources systems and practices, overseeing workforce development, succession planning, labor relations, and employee engagement initiatives across the Authority. In addition, this role leads the Enterprise Risk Management function, including risk identification, insurance, and the integration of Authority-wide safety efforts to enhance risk visibility and mitigation strategies.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Lead and modernize HR programs across talent acquisition, employee relations, performance, benefits, total rewards, and training.
- Oversee workforce planning, succession development, and organizational design.
- Manage labor relations and collective bargaining agreements (currently one union representing police).
- Develop policies and programs that foster accountability, engagement, and compliance with employment laws.
- Partner with the Legal team on sensitive matters, including investigations, terminations, and litigation support.
- Optimize the Authority's HRIS platform (Oracle), partnering with IT to enhance system performance and employee self-service.
- Drive efficiency through process improvements and digital transformation of HR workflows and data reporting.
- Oversee the Enterprise Risk Management (ERM) function, including the identification, evaluation, and mitigation of organizational risks.
- Guide integration of Authority-wide safety programs under ERM, collaborating with operations on safety protocols, reporting, and compliance.

- Oversee Authority insurance coverage and claims, including property damage, liability, and workers' compensation.
- Promote a high-performance, inclusive culture built on total ownership and accountability.
- Lead by example with transparency, decisiveness, and strong cross-functional collaboration.
- Provide strategic counsel to executive leadership on talent and risk matters.
- Lead department personnel management, performance evaluations, and structural realignment as needed.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Strategic Execution:** Identifying plans and processes required to implement long-term visions for the organization; Committing his/her area of the organization to meet the goals of the vision.
- **Organizational Agility:** Monitoring the shifting business, market, and customer landscape; Making adjustments and changes to plans and priorities based on shifting trends in the market on the business.
- **Financial Acumen:** Maintains and applies a broad understanding of financial management principles to ensure decisions are fiscally sound and responsible; identifies cost-effective approaches; and demonstrates a broad understanding of financial management principles to direct organizational actions.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). VICE PRESIDENT OF INTERNAL AUDIT

GENERAL DESCRIPTION

Under the general direction functionally to the Audit Committee and administratively to the Chief Executive Officer, this role directs the Internal Audit function for the Authority and leads the Internal Audit Team to complete a wide range of professional assurance and consulting engagements, strategic initiatives, and advisory services. The Vice President (VP) collaborates and communicates often with Senior Leadership and influences positive change within the Authority by being a trusted advisor. This position is responsible for completion of the annual risk assessment and annual audit plan. The VP ensures completion of required internal and external assessments and overall compliance with professional auditing standards.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Oversees the Internal Audit function, managing a team of auditors to ensure compliance with established auditing procedures and standards.
- Plans, develops, and implements the annual audit plan, determining audit focus and objectives that align with the organization's strategic goals.
- Maintains staffing to ensure audit resources are available to execute the audit plan and oversees outsourced and co-sourced audit activities.
- Communicates and interacts directly with Executive Management and the Audit Committee regarding departmental activities and results of engagements.
- Collaborates and coordinates with stakeholders to ensure adequacy and timeliness of corrective action resulting from audit recommendations.
- Investigates and documents allegations of misappropriation to determine wrongdoing, identify parties involved, quantify loss, provide recommendations for criminal or civil prosecution, and testify on the Authority's behalf at court proceedings. Or determine if outsourcing the investigation is warranted.
- Provides guidance on documentation techniques and data analysis methods to support audit findings and ensure quality audit documentation.
- Monitors the progress of audit assignments, ensuring that audits are conducted efficiently and within established timelines.
- Conducts periodic status meetings with audit staff to discuss project progress, challenges, and resource needs related to audit activities.

- Develops and maintains the departmental budget.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Strategic Execution:** Identifying plans and processes required to implement long-term visions for the organization; Committing his/her area of the organization to meet the goals of the vision.
- **Organizational Agility:** Monitoring the shifting business, market, and customer landscape; Making adjustments and changes to plans and priorities based on shifting trends in the market on the business.
- **Financial Acumen:** Maintains and applies a broad understanding of financial management principles to ensure decisions are fiscally sound and responsible; identifies cost-effective approaches; and demonstrates a broad understanding of financial management principles to direct organizational actions.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). VICE PRESIDENT OF MAINTENANCE

GENERAL DESCRIPTION

Under the general direction of the Chief Development Officer, the Vice President of Maintenance is responsible for ensuring the safe, efficient, and reliable operation of all airport-related facilities and systems. This role encompasses oversight of various maintenance functions, including mechanical, electrical, plumbing, and specialized systems such as baggage handling and HVAC, while managing both in-house personnel and outsourced contracts. Additionally, the Vice President will administer the tenant work permit program to ensure compliance with codes and standards, as well as oversee key control functions. As a key member of the senior management team, this position involves strategic planning, budget management, and the development of policies and procedures that support operational excellence and customer service.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

Strategic Vision Setting and Leadership:

- **Develop and communicate a clear strategic vision for the Maintenance Department that aligns with the airport's overall mission and long-term objectives. Ensure that this vision is understood and embraced by all staff members.**
- **Foster a culture of innovation and adaptability by promoting new ideas and practices that enhance operational efficiency and service delivery while responding proactively to industry trends and technological advancements.**

Cultural Development:

- **Lead efforts to establish and maintain a strong, inclusive, and equitable culture within the Maintenance Department. Promote a workplace environment that values diversity and encourages collaboration, respect, and open communication among team members.**
- **Implement programs and initiatives that enhance employee engagement, morale, and job satisfaction, ensuring that staff members feel valued and empowered to contribute to the department's success.**

Performance Management and Accountability:

- **Establish and communicate clear performance expectations and metrics for all direct reports. Regularly assess team performance against these standards and provide constructive feedback to drive continuous improvement.**
- **Develop and implement a comprehensive performance management framework that includes ongoing coaching, mentoring, and professional development opportunities to maximize individual and team effectiveness.**

Operational and Resource Oversight:

- **Oversee the efficient operation and maintenance of all equipment and systems within the department, ensuring that resources are utilized effectively and responsibly. Promote best practices and continuous improvement initiatives to enhance operational performance.**
- **Ensure that all necessary specialty maintenance service contracts are established and managed effectively, aligning with budgetary constraints and operational needs.**

Financial Stewardship:

- **Develop, manage, and strategically allocate the department's budget, ensuring financial accountability and transparency. Regularly review financial performance against budgetary goals, identifying opportunities for cost savings and resource optimization.**
- **Advocate for necessary funding and resources to support capital projects, equipment replacement, and facility upgrades that align with the airport's strategic priorities.**

Safety and Compliance Leadership:

- **Champion a culture of safety within the Maintenance Department by ensuring that all team members are trained in safety protocols and procedures. Promote proactive reporting of potential hazards and enforce compliance with all safety regulations and standards.**
- **Regularly assess safety performance and implement improvements to foster a safe working environment for all employees.**

Change Management and Innovation:

- **Encourage a mindset of change and innovation within the Maintenance Department by promoting diverse thinking and styles across all levels of staff. Actively seek input from team members on process improvements and operational enhancements.**
- **Identify and implement initiatives that drive operational excellence and enhance the overall performance and reputation of the Maintenance Department.**

Organizational Structure and Talent Development:

- **Ensure that a robust organizational structure is in place to support the department's mission and facilitate maximum opportunities for employee development and advancement.**
- **Identify and nurture high-potential talent through targeted development programs, succession planning, and career pathway initiatives, ensuring a strong pipeline of skilled professionals ready to meet future organizational needs.**

Regular and Reliable Attendance:

- **Maintain regular and reliable attendance as a fundamental requirement of the position, demonstrating commitment and accountability to the team and the organization.**

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Strategic Execution:** Identifying plans and processes required to implement long-term visions for the organization; Committing his/her area of the organization to meet the goals of the vision.
- **Organizational Agility:** Monitoring the shifting business, market, and customer landscape; Making adjustments and changes to plans and priorities based on shifting trends in the market on the business.
- **Financial Acumen:** Maintains and applies a broad understanding of financial management principles to ensure decisions are fiscally sound and responsible; identifies cost-effective approaches; and demonstrates a broad understanding of financial management principles to direct organizational actions.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate**.**

VICE PRESIDENT OF MARKETING, COMMUNICATIONS AND STRATEGY

GENERAL DESCRIPTION

Under the general direction of the Chief Commercial Officer, the Vice President of Marketing, Communications, and Strategy is a key executive leader, partnering closely with the CEO to shape and execute high-impact Aviation Authority initiatives. This role combines strategic foresight with operational expertise to elevate Tampa International Airport's position as a globally recognized hub. By integrating corporate communications, marketing, and strategic planning, this position drives transformative initiatives that enhance the Authority's brand, reputation, and stakeholder engagement. As the Authority's chief storyteller and brand architect, this leader develops cohesive communication strategies that align with the Authority's business objectives and amplify HCAA's mission and vision across diverse audiences.

This position is responsible for providing direct oversight to Communication, Marketing and Brand Strategy staff and will work closely with other program leaders and staff in shaping and implementing strategic initiatives. This position continually develops and improves Authority approaches to advance the Authority's programs and initiatives.

This position aligns external stakeholders and directs 3rd party resources to leverage the Authority's visibility and brand to advance its policy and program initiatives. The position serves as a key member supporting the CEO and Executive Team and is responsible for the overall planning, budgeting, staffing, and evaluation of all communications, marketing and brand activities consistent with policies established by the CEO and the Board.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

Communications Oversight

- Oversee all corporate communications, including internal and external messaging, media relations, and crisis communications.
- Craft compelling storytelling to help articulate the Authority's vision, values, and performance to stakeholders, including employees, business partners, the community, and the public.
- Foster a culture of transparency and collaboration by developing effective internal communication strategies.

- Anticipate and manage potential risks, responding proactively to crises with clear and confident communication.

Marketing Excellence

- Develop and execute tailored brand narratives to strengthen airport awareness, customer engagement, and industry positioning.
- Analyze market data to inform decision-making and optimize marketing efforts.
- Oversee digital marketing, public relations, and advertising campaigns.

Executive Collaboration

- Act as a trusted advisor and partner to the CEO, providing insights and recommendations to support executive decision-making.
- Monitor industry trends, public sentiment, and emerging issues to inform strategic decisions.
- The Vice President of Communications, Marketing and Strategy serves as a key advisor and facilitator for the CEO and Executive Team, translating vision into action and fostering a culture of excellence and innovation across the organization.

Strategic Planning & Counsel

- Provide strategic counsel to the CEO and Executive Team in the development and execution of enterprise-wide plans. Monitor and analyze industry, regional, and local market trends to generate insights that inform strategic decision-making and keep the Airport ahead of emerging developments.

Communications & Marketing Leadership

- Oversee all aspects of the Airport's communications and marketing functions, including management of staff and budget, across external and internal communications, public relations, media relations, branding, advertising, and digital media. Ensure all campaigns and communication initiatives consistently promote the Airport's brand and convey key messages supporting the CEO and Executive Team's strategic initiatives and the Authority's mission with measurable results.

Passenger Experience Strategy

- Develop and champion strategies to enhance the passenger and guest experience, collaborating with operational and customer service teams to implement innovative solutions aligned with the CEO and Executive Team's vision for excellence. Drive initiatives aimed at improving customer satisfaction and service excellence.

Stakeholder Engagement, Consensus-Building, and Informed Consent

- Lead broad-based stakeholder engagement efforts to build consensus around the CEO and Executive Team's key initiatives. Work closely with internal stakeholders, airlines, tenants, industry partners, community leaders, and government agencies to align support and informed consent for major projects and ensure stakeholder needs are addressed in strategic plans.

Community & Business Outreach

- Spearhead strategic community engagement and outreach on behalf of the Airport. Identify high-impact community events, industry conferences, and civic forums for CEO and Executive Team participation to increase the Airport's visibility and influence. Cultivate strong relationships with business and civic organizations at local, regional, and state levels to promote the Airport's strategic initiatives and drive regional economic development.

Board and Executive Support

- Coordinate planning for Board of Directors workshops in conjunction with the General Counsel/Chief Legal Officer and the Executive Team. Develop workshop topics and strategically frame discussions to engage the Board on key issues and long-term strategy. Provide support in

preparing briefing materials and presentations for Board meetings, ensuring alignment with the CEO and Executive Team's strategic priorities and effectively communicating the Airport's vision.

Innovation Leadership

- Develop and lead the Airport's internal innovation lab program focused on agile innovation and strategic experimentation. Oversee a dedicated team piloting new ideas and technologies that improve internal processes, enhance customer experience, or generate new business opportunities. Foster a culture of creativity and continuous improvement, positioning the Airport as a leading-edge innovator in the aviation industry.

Cross-Departmental Collaboration

- Facilitate collaboration across all Airport departments to drive the execution of strategic initiatives, operating through influence rather than direct authority. Break down silos and encourage teamwork, ensuring departmental efforts align with enterprise priorities and that communications and marketing strategies integrate across the organization to maximize impact.

Executive Communications & Alignment

- Serve as a high-level advisor and coordinator for executive communications. Work with the CEO and Executive Team to align messaging on key organizational initiatives, ensuring internal and external communications strategically support these objectives. Provide targeted support to the CEO specifically for CEO-focused engagements such as speeches, public appearances, and individual leadership branding.
- Synthesize information and themes from multiple projects and initiatives into clear, actionable insights for the CEO and Executive Team. Prepare talking points, speeches, and presentation materials specifically for the CEO's meetings and events, ensuring consistent messaging aligned with Executive Team priorities, and help drive alignment among senior leadership around top priorities and directives.
- Support organizational change initiatives and ensure clear and consistent messaging throughout the organization.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Strategic Execution:** Identifying plans and processes required to implement long -term visions for the organization; Committing his/her area of the organization to meeting the goals of the vision.
- **Organizational Agility:** Monitoring the shifting business, market and customer landscape; Making adjustments and changes to plans and priorities based on shifting trends in the market on the business.
- **Financial Acumen:** Maintains and applies a broad understanding of financial management principles to ensure decisions are fiscally sound and responsible; Identifies cost effective approaches; Demonstrates broad understanding of financial management principles to direct organizational actions.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's degree in Communication, Marketing or related field.
- Ten (10) years experience in corporate communications, public relations, journalism or related field of which at least five years in advising C-suite executives.
- Five (5) years supervisory experience.
- Or equivalent combination of education, training and experience.
- Must possess a valid, Florida Driver License.

PREFERRED QUALIFICATIONS

- Master's degree in Communication, Marketing or related field.
- Demonstrated success in a C-suite or senior executive role, preferably in a fast-paced solutions-oriented environment.
- Proven track record of managing high-profile communications and navigating complex messaging challenges to develop and execute enterprise-wide strategies.
- Bilingual language proficiency.

KNOWLEDGE, SKILLS, AND ABILITIES

KEY ATTRIBUTES:

- Executive Presence – has proven capacity to communicate with, and successfully reach, diverse target audiences. Leads the development and execution of exceptionally persuasive and clear verbal, graphic, and written communications. Outstanding interpersonal skills; demonstrates the highest level of credibility, judgment, honesty, and integrity.
- Results Orientation - identifies and implements initiatives that fulfill HCAA's Vision; embodies commitment to the organizational Mission and Guiding Principles; inspires mission alignment and trust. Solves problems with energy and a positive attitude.
- Collaboration and Influence – actively listens and processes complex information quickly. Persuades leaders both inside and outside of the organization with fact and elegance. Helps Potentially Affected Interests provide informed consent even when Authority initiatives may cause operational, financial or other significant challenges.
- Adaptability and Resilience - Manages and leads change with flexibility and grace.
- Effective Under Pressure - navigates complex situations with clear direction. Responds to evolving circumstances thoughtfully and in a timely manner, delivering high-quality communications while managing competing priorities and tight deadlines.

- Leads organizational response to all crisis communications.

LEADERSHIP DIMENSIONS:

- Verbal, Written and Technology-Based Actions – Seeks and listens for critical thoughts, ideas, and feelings, and technical information in an accurate and concise manner. Tailors delivery method and tone of communication to meet the needs and preferences of the other person and/or audience. Is adept at accessing and appropriately utilizing the Authority's communication, marketing and brand channels.
- Builds Effective Relationships – Establishes enduring and inclusive relationships within the Authority and with all key stakeholders. Commands the respect of employees, his/her peers, customers, and stakeholders. Manages beneficial partnerships in ways that take full advantage of internal and external synergies. Understands the impact of personal behavior on the perceptions of others. Places a high priority on the values of honesty, accountability and integrity.
- Gold Level Customer Service – Communicates a genuine willingness to work positively with all customers and visitors to the airport. Actively listens to their questions and/or concerns. Accurately identifies the service that will meet the customer's needs and wants. Proactively utilizes his/her comprehensive knowledge of the Authority's systems and services to explore options that go beyond the customer's immediate questions or concerns to create an expanded solution to the opportunity.
- Leadership and Engagement – Creates a positive environment and inspires others to buy into the Authority's mission and vision. Recognizes strategic possibilities and aligns the Authority's vision with those options. Clearly articulates the organization's direction by utilizing a variety of communication and marketing channels. Fosters a diverse culture where individual respect and enterprise-wide teamwork thrive. Passionately and convincingly articulates the steps and changes necessary to achieve the Authority's goals. Holds self and all employees accountable for achieving the performance goals.
- Leading and Managing Performance – Establishes clear direction and articulates the vision, priorities, and annual performance objectives. Communicates messages that motivate and inspire others to action. Fosters a work culture where mutual respect and enterprise-wide teamwork thrive. Builds ongoing learning into the Authority that enables the team to realize their full potential. Ensures that the team has accurate and timely feedback and the required resources to ensure successful performance.
- Professionalism- Delivering the Results – Demonstrates a commitment to personal excellence, ethical behavior, and integrity. Seeks out and acts on feedback. Addresses problems and makes appropriate decisions. Exhibits a personal commitment to overcoming obstacles. Demonstrates a commitment to continuous learning. Holds self-accountable for behavior and results.

PHYSICAL ABILITIES

- Occasional standing & walking
- Frequent sitting up to 6 hours per day
- Occasional lifting up to 20 lbs
- Frequent typing up to 6 hours per day

VICE PRESIDENT OF PLANNING & DEVELOPMENT

GENERAL DESCRIPTION

Under the general direction of the Chief Development Officer, the Vice President of Planning & Development oversees all aspects of the Authority's airport facilities' planning, programming, design, and construction activities. This role advises the Chief Executive Officer on strategic plans for the airport's long-term growth. The position ensures consistency in implementation across all planning and development initiatives, coordinates inter-departmental efforts, and fosters strong customer relations. Additionally, the incumbent maintains regular communication with external consultants to safeguard the Authority's interests.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Develop comprehensive forecasts for airport activity and facility requirements, utilizing data analytics and trend analysis to anticipate future needs and ensure sustainable growth.
- Strategically define and prioritize airport development projects, conducting thorough system planning to align with long-term goals while effectively managing budgets and resource allocations.
- Lead environmental assessments and special studies to evaluate the impact of proposed airport developments, ensuring that sustainability and compliance with regulatory standards are central to decision-making processes.
- Prepare, review, and enforce planning, architectural, engineering, and construction contracts, ensuring alignment with the Authority's long-term vision and adherence to quality standards and regulations.
- Implement robust project management practices to monitor development schedules, ensuring timely execution of plans while adapting to evolving operational and regulatory requirements.
- Facilitate coordination with tenants, external stakeholders, and community partners to align development plans with broader regional goals and stakeholder interests, fostering collaboration and support for projects.
- Provides strategic leadership and oversight to Authority staff and consultants in the execution of Master Plan updates, while driving initiatives in sustainability, resilience, and environmental stewardship to align with organizational goals and vision.
- Ensure that all planning, design, and construction activities are compliant with approved plans, specifications, and regulatory frameworks, mitigating risks and enhancing project viability.

- Effectively implement the Authority's Height Zoning Ordinance, ensuring that airport development aligns with safety standards and community planning objectives while accommodating future expansions.
- Strategically manage federal and state grant and loan assistance programs, leveraging funding opportunities to support innovative airport development initiatives that align with long-term objectives.
- Adheres to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Strategic Execution:** Identifying plans and processes required to implement long-term visions for the organization; Committing his/her area of the organization to meet the goals of the vision.
- **Organizational Agility:** Monitoring the shifting business, market, and customer landscape; Making adjustments and changes to plans and priorities based on shifting trends in the market on the business.
- **Financial Acumen:** Maintains and applies a broad understanding of financial management principles to ensure decisions are fiscally sound and responsible; identifies cost-effective approaches; and demonstrates a broad understanding of financial management principles to direct organizational actions.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate.

REQUIRED FOR ALL HCAA JOBS

VICE PRESIDENT OF PUBLIC SAFETY & SECURITY

GENERAL DESCRIPTION

Under the general direction of the Chief Operating Officer, the Vice President of Public Safety and Security serves as the chief law enforcement officer for the Authority, ensuring the safety and security of all individuals and property at Tampa International Airport. This role encompasses the enforcement of laws and regulations, as well as the overall leadership and administration of the Airport Public Safety and Security Department. The incumbent coordinates law enforcement and security activities with tenants, external agencies, and the Federal Transportation Security Administration (TSA) to maintain a secure environment. Additionally, they prepare and update the Master Airport Security Plan and remain informed on evolving federal and state regulations to ensure proper enforcement. As a key member of the Authority's leadership group, the Vice President actively engages with various stakeholders to promote effective safety and security measures throughout the airport.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Enforces Authority regulations, federal, state and local laws.
- Fulfills all requirements of a Law Enforcement Officer including Pursuit, apprehension, and arrest of law violators or suspected law violators to ensure public safety.
- Enforces traffic laws and arrests or issues summons to traffic law violators; reports unsafe road conditions; and investigates traffic accidents on Authority premises.
- Plans, coordinates, directs, and supervise the activities of Authority personnel engaged in Airport Operations Center, Security Administration, police and traffic programs to ensure that laws and regulations are enforced for the protection of people and property at the airport.
- Creates and maintains a strong sense of public service and customer relations to ensure that the public's needs for information, assistance, and counseling are met in a prompt and courteous manner.
- Implements and monitors the Federal Transportation Security Administration's procedures to ensure airport compliance with TSA requirements associated with law enforcement activities and to participate in the Joint Terrorism Task Force.
- Prepares annual budget for the Public Safety and Security Department.

- Reviews and updates Public Safety and Security Department policies and procedures to ensure that they remain current.
- Prepares and preserves evidence in accordance with directives to maintain chain of custody.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Participates in regular training and professional development to stay current with law enforcement practices and safety protocols.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Strategic Execution:** Identifying plans and processes required to implement long-term visions for the organization; Committing his/her area of the organization to meet the goals of the vision.
- **Organizational Agility:** Monitoring the shifting business, market, and customer landscape; Making adjustments and changes to plans and priorities based on shifting trends in the market on the business.
- **Financial Acumen:** Maintains and applies a broad understanding of financial management principles to ensure decisions are fiscally sound and responsible; identifies cost-effective approaches; and demonstrates a broad understanding of financial management principles to direct organizational actions.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate.

VICE PRESIDENT OF REAL ESTATE

GENERAL DESCRIPTION

Under the general direction of the Chief Commercial Officer, the Vice President of Real Estate is responsible for developing and executing a strategic vision for the leadership, management, and development of the Authority's real estate portfolio, and oversees all passenger and cargo, airline-related leases, contracts and agreements. The Vice President of Real Estate builds and proactively maintains the Authority's relationships with key external partners, including airlines, aeronautical lessees, and commercial tenants. This position oversees the administration and maintenance of the Authority's comprehensive real estate database and works closely with the Authority's Finance and Legal Affairs departments to ensure appropriate billing and contract compliance for airline and associated leases and agreements. This position also assists in the preparation of airline revenue forecasts for incorporation into annual budgets and amendments.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Serves as the primary liaison and relationship manager for all airlines' corporate Airport Affairs departments, ensuring long-term airline partnerships that foster growth.
- Develops and executes the Authority's real estate strategy including land acquisition and disposition, commercial development, property management, and asset activation, with focus on optimizing revenue generation and long-term revenue stabilization.
- Leads cross-functional teams to plan, negotiate, and execute complex real estate transactions, public-private partnerships, and infrastructure projects aligned with strategic Authority objectives
- Actively engages in the development and implementation of the Authority's Capital Development Program through active engagement in the design, review, and development process.
- Oversees coordination of the contracts and processes involved in introducing new entrant air carriers into the Authority's market, including identifying appropriate gates and other facilities; and coordinating with the airlines and internal and external stakeholders to ensure that startup operations are organized, well-managed and efficient.
- Manages compliance by airport tenants in accordance with their leases and agreements, and routine monitoring of tenant operations to ensure quality and level of service, and for the timely and accurate updates to the department's lease management and billing system.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.

- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Strategic Execution:** Identifying plans and processes required to implement long-term visions for the organization; Committing his/her area of the organization to meet the goals of the vision.
- **Organizational Agility:** Monitoring the shifting business, market, and customer landscape; Making adjustments and changes to plans and priorities based on shifting trends in the market on the business.
- **Financial Acumen:** Maintains and applies a broad understanding of financial management principles to ensure decisions are fiscally sound and responsible; identifies cost-effective approaches; and demonstrates a broad understanding of financial management principles to direct organizational actions.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate.

FINANCE REVENUE & CONTRACT ADMINISTRATOR

GENERAL DESCRIPTION

Under the general direction of the Director of Financial Planning & Reporting, the Finance Revenue & Contract Administrator manages the billing rule function for the Authority, which entails translating terms/conditions of revenue contracts into the framework for an invoice. This position performs duties analyzing and developing improved managerial policies, practices, methods, procedures, and organizational structures. The Finance Revenue & Contract Administrator provides technical and professional assistance to departments and agencies by reviewing and independently analyzing complex organizational structures, procedures, and existing programs to identify areas where corrective action should be implemented.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Manages the authority's billing rule function, which entails translating the terms/conditions of revenue contracts into invoice framework.
- Supports the revenue contract managers in ensuring that all contractual obligations are met and that all billing information is up-to-date with the latest drawings/space usage.
- Independently tracks contract expiration, renewals, and amendments to ensure that the contract managers are appropriately adhering to board-approved contract terms.
- Analyzes sales performance and investigates any variance between expected performance and actual performance. Ensures that revenue recognition is in line with the reported sales activities.
- Tracks surety/payment security requirements for Concessions departments.
- Records and reconciles public parking-book parking, ground transportation per-trip fee, and badging office activities.
- Provides support for all credit card processing revenue streams (online payments, badging, pre-book parking, ground transportation), including management of customer disputes, chargebacks, refunds.
- Manages all state sales tax and communication-related tax reporting and compliance.
- Manages contract-related GASB87 compliance, including contract oversight and tracking in support of the Authority’s annual external audit.
- Manages retiree billing administration and oversight supporting the Authority’s Human Resources department, including working with retirees on payment issues, questions, and various support.

- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Providing Direction:** Motivating others and rallying people around a common vision, goal, or team outcome; inspiring commitment to contributing to the organization and achieving organizational outcomes; demonstrating flexibility in times of change and empathy; and reestablishing focus and order when appropriate.
- **Coaching:** Providing guidance and clear, candid, and constructive feedback that focuses on specific behaviors and outcomes to help an individual expand knowledge, skill, or ability to accomplish a task or fulfill their role, supporting career growth and development.
- **Emotional Intelligence:** The ability to understand and manage your own emotions and recognize and acknowledge the emotions of those around you.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's degree in Accounting, Finance, or related field.
- Four (4) years of experience in accounting, bookkeeping or financial record keeping.
- Two (2) years supervisory experience.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of governmental accounting principles, practices, procedures, financial recordkeeping, and budgeting.
- Knowledge of accounting principles and Generally Accepted Accounting Principles (GAAP) to guide financial reporting and practices.
- Knowledge in managing and working within large-scale financial ERP systems
- Ability to analyze accounting and fiscal data.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Occasional walking & standing
- Frequent sitting up to 6 hours per day
- Occasional lifting up to 20 lbs
- Frequent typing

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

FINANCIAL ANALYSIS AND REPORTING MANAGER

GENERAL DESCRIPTION

Under the general direction of the Director of Financial Planning & Reporting, the Finance Analysis and Reporting Manager is responsible for managing, planning, organizing, and directing aspects of the financial planning and budgeting activities for the Authority. Includes the oversight and management of the calculation of airline rates and charges and assistance with the completion of the annual operating budget, budget amendments and business plans. This position develops and provides input and recommendations to management regarding components of the budgeting and financial planning activities. The Finance Analysis and Reporting Manager provides expertise, leadership, and guidance to the Authority's staff, overseeing the development and implementation of interpreting, enforcing, and explaining the budget process, budget policies, and procedures, reviewing, analyzing, and developing recommendations regarding budget requests and other issues. The Finance Analysis and Reporting Manager will need to exercise considerable independent judgment in interpreting technical aspects of the budget process and strategic planning processes.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Performs budgeted, business plan and actual calculations of rates and charges to the signatory airlines, determines and establishes airline agreement rates and charges for all airlines.
- Recommends adjustment to current rates and charges during the fiscal year based on operating results and levels of airline activities.
- Provide recommendations to management regarding the methodology of calculating rates and charges based on the interpretation of the airline lease agreement.
- Manages budgeting scenarios regarding all elements of the budgeting process.
- Researches and prepares data for the budgeted business plan and actual rates and charges to the signatory airlines, including space, activity, and expense and revenue summaries.
- Coordinates the presentation of budgets and other information to the airlines and prepares budget-related documents for presentation to the Authority's Board.
- Oversees the monthly reporting management reporting process, including oversight of proper revenue & expense accounting to ensure accurate annual rates and charges calculations.
- Oversees compliance with ongoing reporting and continuing disclosure requirements.
- Manages preparation of the financial section of the 20-year business plan.
- Review, monitor, and prepare reports for the ASIP and CFC programs.

- Supports Authority's Business Intelligence and Analytics development and roll-out.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions, admitting mistakes and learning from them, and assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's degree in Accounting, Finance, or related field.
- Three (3) years of experience in accounting, bookkeeping or financial record keeping in a centralized accounting office with a direct impact on the general ledger or sub-ledgers.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERED QUALIFICATIONS

- Master's Degree in Accounting, Finance, or related field.
- Certified Public Accountant (CPA).

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of budget development processes.

- Skilled in conducting financial calculations for budgeted, business plans, and actual rates and charges, with the ability to analyze operating performance and airline activity to recommend rate adjustments.
- Ability to direct the preparation of multi-year cash flow projections and manage financial aspects of long-term business plans, ensuring informed investment timing and maturity decisions.
- Skills to provide guidance on budget procedures, airline agreement modifications, labor allocation, and financing arrangements in response to changing business conditions.
- Knowledge of regulatory requirements, including the filing of IRS Form 8038 and compliance with bond issuance protocols.
- Ability to address financial issues and develop feasible solutions, particularly in capital development cash flow needs and investment strategies.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Occasional walking & standing
- Frequent sitting up to 6 hours per day
- Occasional lifting up to 20 lbs
- Frequent typing

Information Security Architect I

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of the Information Security Office, the Information Security Architect I is responsible for leading key vulnerability management and security information event management functions. This role involves identifying, analyzing, and remediating potential environmental threats, requiring a deep understanding of current and emerging vulnerabilities and threats in the security industry, as well as critical business and technological processes. The Information Security Architect I performs essential client-facing managed security services activities. Additionally, this position entails conducting thorough investigations and analyzing events to thwart internal and external threats to the organization's environment while mentoring junior analysts and contributing to the development of security policies and procedures.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- **Strategic Planning:** Developing and implementing the organization's information security strategy, policies, and procedures to align with business objectives and regulatory requirements.
- **Risk Management:** Conducting comprehensive risk assessments and threat modeling to identify vulnerabilities, assess risks, and recommend appropriate mitigation strategies.
- **Incident Response Leadership:** Leading and coordinating incident response efforts, including managing security breaches, conducting forensic investigations, and reporting findings to senior management.
- **Security Architecture Design:** Designing and implementing security architecture for systems, networks, and applications, ensuring that security best practices are integrated into the technology infrastructure.
- **Compliance Management:** Ensuring compliance with relevant regulations, industry standards, and best practices (e.g., GDPR, HIPAA, PCI-DSS) through audits, assessments, and continuous monitoring.
- **Security Awareness and Training Programs:** Developing and overseeing security awareness training programs for employees to foster a culture of security within the organization.
- **Vendor Management:** Evaluating and managing third-party vendors and service providers to ensure they meet the organization's security requirements and standards.

- **Advanced Threat Analysis:** Analyzing and responding to advanced persistent threats (APTs) and other sophisticated cyber threats, leveraging threat intelligence to inform security practices.
- **Collaboration with Stakeholders:** Working closely with other IT and business units to ensure security measures are effectively integrated and aligned with organizational goals.
- **Security Tool Implementation and Management:** Selecting, implementing, and managing security tools and technologies, such as firewalls, intrusion detection systems, and endpoint protection solutions.
- **Reporting and Documentation:** Preparing detailed reports on security incidents, risk assessments, and compliance status for executive leadership and regulatory bodies.
- **Contract Language Review:** Review Authority contracts (per requests from Procurement) for specific language dealing with cyber issues, and provide input as needed to ensure cyber risks are addressed in contracts. Consideration should also be given to related compliance standards or requirements.
- **Software and Hardware Review:** per requests received, review proposed software and hardware additions to identify and assess any cyber risks, and provide feedback on those products and related vendors to the requesting department. Consideration should also be given to related compliance standards or requirements.
- **Continuous Improvement:** Staying current with the latest security trends, vulnerabilities, and technologies, and continuously improving security practices and policies based on evolving threats.
- **Mentorship and Training:** Providing guidance, mentorship, and training to junior security staff and analysts, helping to develop their skills and knowledge in information security.
- Must be able to participate in an on-call rotation or be on-call.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Resilience:** Maintains performance and self-control under pressure or adversity. Views challenges as learning opportunities. Maintains confidence and clarity despite unforeseen circumstances.
- **Organizational Ownership:** Being accountable for the results of your actions. Effectively leading a team of collaborators. Proactively solving problems, improving processes without being asked, taking on challenging projects, and creating and implementing innovative solutions.
- **Decisiveness:** Thinking outside the box, taking appropriate risks when getting things done with available resources, and developing new ways to solve problems and achieve results.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Procedures, and Standards.
- Performs other duties as assigned.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

Associate's Degree, or equivalent experience. Five (5) years of experience identifying and analyzing information security threats.

- More than one technical certification obtained in the last three years from the following organizations: Cisco, Microsoft, EC-Council, (ISC)2, ISACA, CSA, SANS or CompTIA.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.
- Must pass a background check.

PREFERRED QUALIFICATIONS

- A Certified Information Systems Security Professional (CISSP) certification.
- CompTIA Cybersecurity Analyst (CySA+)
- Bachelor's degreee

KNOWLEDGE, SKILLS, AND ABILITIES

- **Advanced Information Security Concepts**: In-depth understanding of security principles, frameworks, and best practices (e.g., CIS, NIST, ISO 27001).
- **Risk Management**: Extensive knowledge of risk assessment methodologies, threat modeling, and risk mitigation strategies.
- **Network Security**: Proficient in the design and implementation of secure network architectures, including firewalls, VPNs, and IDS/IPS.
- **Incident Response and Management**: Familiarity with incident response frameworks and procedures, including preparation, detection, containment, eradication, and recovery.
- **Compliance and Regulatory Requirements**: Comprehensive understanding of laws, regulations, and standards affecting information security (e.g., PCI DSS, CJIS, TSA Amendments specific to airports, Data Privacy regulations, GDPR, HIPAA, PCI DSS).
- **Security Technologies**: Knowledge of security tools and technologies, including SIEM, endpoint protection, vulnerability management, and encryption methods.
- **Threat Intelligence**: Understanding of threat intelligence concepts, including sources, analysis, and application in security operations.
- **Technical Proficiency**: Strong skills in security tools, programming/scripting (e.g., Python, PowerShell), and security testing methodologies.

- **Analytical Skills**: Ability to analyze complex security issues, identify vulnerabilities, and recommend solutions.
- **Project Management**: Skills in managing security projects, including planning, execution, and monitoring of security initiatives.
- **Communication Skills**: Excellent verbal and written communication skills for reporting findings, presenting to stakeholders, and educating staff on security practices.
- **Problem-Solving**: Strong troubleshooting skills to address security incidents and technical challenges effectively.
- **Team Leadership**: Ability to lead and mentor junior analysts and collaborate with cross-functional teams.
- **Strategic Thinking**: Ability to develop and implement long-term security strategies aligned with organizational goals.
- **Continuous Learning**: Commitment to staying updated on emerging threats, technologies, and industry trends through ongoing education and professional development.
- **Adaptability**: Ability to adapt to rapidly changing security landscapes and organizational needs.
- **Ethical Judgment**: Strong sense of ethics and integrity in handling sensitive information and security matters.
- **Attention to Detail**: Meticulousness in analyzing data, logs, and reports to identify potential security threats and ensure compliance.

PHYSICAL ABILITIES

- Occasional standing & walking
- Sitting up to 6 hours per day
- Continuous typing

LEAD CLIENT AND FIELD SERVICES

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Client and Field Services, the Lead Client and Field Services is responsible for providing advanced technical support for hardware and software services to the Authority. This role requires the ability to independently resolve complex work problems across various areas, including service desk support, printer support, desktop and peripheral support, mobile device support, application support, and network support; actively engaging in hands-on tasks when required. The Lead Client and Field Services will guide the other team members daily, fostering a collaborative environment while encouraging creative and original thinking.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Provides tactical day-to-day leadership as well as mentors and guides junior staff members, providing support and knowledge to enhance their technical skills and performance.
- Assists in the development and implementation of best practices and standard operating procedures for technical support.
- Responsible for assisting in designing and configuring technology endpoints to adhere to industry security best practices and regulatory requirements, ensuring the protection of organizational data and systems against potential threats
- Creates and updates comprehensive documentation for endpoint architecture, configurations, and procedures to ensure clarity, consistency, and effective knowledge transfer within the team.
- Works closely with other ITS teams and departments to align endpoint solutions with organizational goals, ensuring seamless integration of products and services with existing systems and applications.
- Oversees relationships with endpoint equipment vendors and service providers, ensuring that contractual obligations are met and that the organization benefits from optimal support and service delivery.
- Responsible for assisting in the development and management of the budget for team projects and operational expenses, ensuring effective allocation of resources while continuously evaluating expenditures to identify cost-saving opportunities and maintain financial accountability.

- Supports organizational change that fosters a quality of service essential to high performance. Supports a shared vision and is able to work with others to translate vision into actions and meaningful contributions that drive performance to higher levels of effectiveness and productivity.
- Shows initiative; manages and performs personal daily activities under the discipline of defined departmental business processes.
- Takes ownership of assignments and works as part of a team with an appropriate sense of urgency.
- Conduct user training and orientation sessions to promote IT best practices and enhance end-user productivity.
- Collaborate with IT colleagues to identify recurring issues and implement proactive solutions to prevent future incidents.
- Supports organizational change that fosters a quality of service essential to high performance.
- Supports a shared vision and is able to work with others to translate vision into actions and meaningful contributions that drive performance to higher levels of effectiveness and productivity.
- Takes ownership of assignments and works as part of a team with an appropriate sense of urgency.
- Serves as the point of contact for internal users seeking technical assistance via phone, email, or in person.
- Performs remote troubleshooting through diagnostic techniques and pertinent questions.
- Determines the best course of action to resolve the user's issue.
- Escalates complex or unresolved issues to the appropriate IT teams for further investigation and resolution to ensure user satisfaction.
- Follows up and updates the user on the status of issues.
- Documents all support interactions and resolutions in the IT ticketing system, ensuring thorough and accurate record-keeping for future reference.
- Provide support for devices, including desktops, laptops, peripherals, smartphones, and tablets, by configuring, troubleshooting, and resolving issues related to operating systems and applications.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

- Complies with all HCAA Policies, Procedures, and Standards.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree in Computer Science, Computer Information Systems, Business Administration, Mathematics, or a related field.
- Four (4) years of information technology experience in user support of desktops, applications, mobile devices, printers, peripherals, and cabling.
- Four (4) or more of the following: CompTIA A+, CompTIA Network+, CompTIA Security+, CompTIA Server+, ITIL Foundation, Apple Certified Mac Technician (ACMT), HDI Desktop Support Technician, Cisco Certified Entry Networking Technician (CCENT), Microsoft Certified Solutions Associate (MCSA), or Microsoft Certified Professional.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Advanced knowledge of standard office practices, procedures, policies, personal computers, operating systems, and related software applications. Proficiency in diagnosing and resolving issues related to desktops, laptops, printers, mobile devices, and other peripherals, ensuring efficient operation and minimal downtime.
- Experience with remote support tools and software (e.g., Dameware, Remote Desktop) to assist users effectively and troubleshoot issues without requiring on-site visits.
- Knowledge of ITIL principles and best practices to effectively manage incidents, service requests, and changes within the IT environment, enhancing service delivery.
- Capability to train and mentor junior support staff, fostering a culture of continuous learning and improvement within the Service Desk and Desktop support teams.
- Demonstrates advanced ability to guide and mentor peers toward professional success.
- Demonstrates advanced skills in applying new technologies, soft skills and procedures.
- Demonstrates advanced ability to guide and mentor peers and teammates toward professional success; work within teams to achieve success with others
- Demonstrates intermediate ability to prepare and deliver effective section-level presentations at various levels.
- Demonstrates advanced intermediate ability to stay up-to-date on emerging technologies and industry best practices to continuously improve service delivery and support effectiveness.

- Demonstrates advanced intermediate knowledge in at least one of the departmental section disciplines: network management, desktop management, mobile device management, server management, security management, incident management, audio visual systems support, project management, document management, service management, asset management, storage area network.
- Demonstrates advanced intermediate technical support that fosters commitment, team spirit, pride, and trust. Facilitates and fosters open communication and cooperation within the organization and with customer groups in a team environment.
- Demonstrates advanced intermediate skills in managing personal daily activities and tasks for self.
- Demonstrates advanced intermediate skills in the use and application of reference materials to support the resolution of basic and intermediate desktop issues.
- Demonstrates advanced intermediate ability to mentor teammates; work within teams to achieve success with others
- Demonstrates advanced intermediate ability to use diplomacy in dealing with difficult customers and delivery of services.
- Demonstrates advanced intermediate ability to communicate effectively, both verbally and in writing, with tact, patience, and courtesy with peers and others at all levels of the organization.
- Demonstrates advanced intermediate ability to develop relevant job-related skill(s) for current role.
- Demonstrates advanced intermediate ability to understand and follow specific instructions, priorities, policies, and procedures.
- Demonstrates advanced intermediate ability to collect, organize, and evaluate data and make logical decisions.
- Demonstrates advanced intermediate ability to understand and troubleshoot the currently supported Microsoft Office products and Windows operating systems.
- Demonstrates advanced ability to communicate effectively orally and in writing.
- Demonstrates advanced ability to establish and maintain effective working relationships with others within and outside the Authority.
- Demonstrates advanced ability to handle restricted, sensitive, and confidential information.
- Demonstrates advanced ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Standing, walking & sitting up to 8 hours
- Occasional lifting up to 50 lbs
- Occasional bending, stooping, pushing, pulling, dragging, climbing, reaching over-head, kneeling & crawling
- Work in confined or restricted areas, such as server rooms or under desks, for installation and troubleshooting tasks
- Adequate vision to read technical manuals, schematics, and monitor displays, as well as to identify physical network components and cabling.
- Continuous typing
- Occasional use of car/light truck
- Occasional use of power tools

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

MAINTENANCE DUTY MANAGER

GENERAL DESCRIPTION

Under the general direction of the Director of Plant Operations and Facilities, the Maintenance Duty Manager (MDM) ensures optimal maintenance and upkeep of airport facilities, systems, and equipment in accordance with industry standards. This role focuses on exceeding customer expectations in terms of safety, security, aesthetics, and reliability across various airport infrastructures, including terminal buildings, roadways, airfield pavements, and parking facilities. The Maintenance Duty Manager leads Maintenance Department activities and serves the primary point of contact for emergency situations and managing maintenance contracts.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Acts as a resource for employees and construction subcontractors, providing guidance to minimize incidents and exposures.
- Represents the Maintenance Department during off-hours, weekends, and holidays to coordinate with relevant airport departments.
- Provides consistent leadership and decision-making support for shift personnel to ensure smooth operations.
- Serves as the departmental liaison during Automated People Mover (APM) outages, coordinating response and recovery efforts.
- Conducts inspections for Quality Control/Quality Assurance of facilities and equipment to ensure compliance with standards.
- Determines service needs and assess personnel/vendor requirements for maintenance tasks and projects.
- Manages, coordinates, and monitors contractor performance for assigned contracts to ensure quality and compliance.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.

- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others**.**

SENIOR MANAGER OF SAFETY

GENERAL DESCRIPTION

Under the general direction of the Director of Enterprise Risk Management and Records Compliance, the Senior Manager of Safety manages multiple disciplines within the safety realm and will ultimately be responsible for wholistic Airport Safety. This role is a combination of balancing Part 139 regulations and occupational health and safety standards campus wide.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Provide oversight and strategic direction for incident and exposure management programs, ensuring timely and effective response and resolution.
- Lead the development, review, and implementation of comprehensive safety training programs across the organization, ensuring alignment with best practices and regulatory standards.
- Oversee maintenance of accurate and auditable safety records IAW Part 139 regulations.
- Partner with enterprise risk management to assist in the incident/accident cycle as it pertains to the Return- to-Work program.
- Evaluate and advise on gaps, risks, and enhancement opportunities within the Airport Safety Program, driving program evolution to meet emerging challenges and regulatory changes.
- Build a team of experts who specialize in SMS, OSHA, and construction safety regulations applicable to contractors.
- Direct and approve comprehensive onsite compliance audits, ensuring regulatory adherence and mitigating risk.
- Operate with broad autonomy, independently developing innovative solutions to complex safety challenges while aligning with organizational goals and risk management strategies.
- Lead comprehensive hazard assessments to establish and enforce robust workplace safety standards that proactively prevent occupational illnesses/injuries and asset damage.
- Direct identification, prioritization, and remediation of hazardous conditions, ensuring corrective actions are implemented effectively and verified for sustained safety improvements.
- Lead thorough investigations of work-related incidents and accidents, coordinating data collection, analysis, and reporting in accordance with company policies and federal, state, and local regulations.

- Approve and oversee training for high-risk operations (e.g., confined space, working at heights), ensuring adherence to safety protocols and industry best practices.
- Oversee industrial hygiene programs and implement control measures to safeguard employee health.
- Serve as the organization's primary liaison during Part 139 inspections, facilitating walkthroughs and ensuring timely resolution of identified issues.
- Lead investigations into incidents causing property damage or injury, determining root causes and recommending strategic interventions—including procedural changes or specialized equipment procurement—to prevent recurrence.
- Advise senior leadership in applicable departments on emerging risks or unique safety challenges that could result in significant operational or financial impacts, proactively shaping risk mitigation strategies.
- Schedule, lead, and facilitate safety committee meetings spanning all internal departments and external tenants.
- Direct evaluation of safety program effectiveness, including cost-benefit analyses, to inform strategic resource allocation and program enhancements.
- Establish specifications and lead the procurement process for new or upgraded safety equipment, ensuring alignment with evolving operational needs and industry standards.
- Maintain strategic relationships with local, state, and national safety organizations, leveraging insights and innovations to continuously advance the company's safety initiatives.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Empowerment:** Shares and instills in others a sense of responsibility to enhance their commitment and ownership; Encourages ownership and responsibility through team building and development, which results in individuals solving problems on their own through creativity and innovation.
- **Decisiveness:** Thinking outside the box; taking appropriate risks when getting things done with resources available, resulting in actionable output.
- **Driving Innovation:** Develops fresh ideas and new approaches that provide solutions to all types of workplace challenges. Develops new ways to solve problems and achieve results. Reward unique ideas and solutions that result in success.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate.

SOFTWARE ENGINEERING MANAGER

GENERAL DESCRIPTION

Under the general direction of the Director of Enterprise Application Services, the Software Engineering Manager leads and oversees a team of software developers responsible for designing, developing, implementing, and supporting high-quality software solutions that drive business value for the Authority. This dynamic leadership role combines technical expertise with strategic vision to manage the full software development lifecycle across multiple domains, including ERP, Databases, Integrations and Application development data analytics, APIs, and cloud services.

The Software Engineering Manager establishes technical standards and best practices, guides architecture decisions, and fosters a culture of innovation and continuous improvement within the development team. They translate business requirements into technical solutions, prioritize development initiatives, and ensure deliverables meet quality standards on time and within budget. This position serves as a critical bridge between technical teams and business stakeholders, effectively communicating complex technical concepts while understanding business objectives to deliver solutions that address organizational needs.

Additionally, this role includes overseeing data migrations, third-party integrations, and cloud application configurations while ensuring all development follows established security, compliance, and change management protocols. The Software Engineering Manager mentors and develops technical talent, promotes collaboration across teams, and stays current with emerging technologies to position the Authority for future growth and digital transformation.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.

- Manages the full lifecycle of system implementation projects, including planning, scheduling, budgeting, and monitoring progress while coordinating activities across cross-functional teams.
- Organizes and leads workshops, seminars, and hackathons to promote knowledge sharing and encourage the adoption of new technologies and techniques within the development team.
- Monitors the performance of applications post-implementation to identify areas for enhancement and ensure ongoing system efficiency.
- Collaborates with technical teams and architects to design and architect systems that meet identified business requirements, defining system architecture, data models, integrations, and user interfaces.
- Oversees the selection, evaluation, and management of external vendors, including defining requirements, evaluating proposals, negotiating contracts, and ensuring vendor deliverables meet organizational needs.
- Ensures that business systems initiatives align with the organization's strategic objectives by understanding business strategies and prioritizing initiatives accordingly.
- Identifies and manages risks associated with application development projects, implementing mitigation strategies to minimize impact on project timelines and outcomes.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee’s department or the HCAA Emergency Operations Center (EOC). ACCOUNTING SPECIALIST

GENERAL DESCRIPTION

Under the general direction of the Accounts Payable Supervisor, the Accounting Technician is responsible for performing accounting tasks that involve reviewing, processing, and maintaining complex financial records within the General Ledger and associated sub-ledgers. This role requires independent judgment to research and reconcile discrepancies while ensuring compliance with established accounting standards and policies. The Accounting Specialist may also engage in significant customer or client interactions and is expected to work collaboratively with a professional accountant, potentially training or providing procedural guidance to colleagues.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Processes accounts payable transactions, including invoice verification, data entry, and payment processing, in a timely manner.
- Assists in the preparation of financial statements and reports, providing necessary documentation and analysis.
- Prepares and maintains detailed documentation of accounting processes and procedures to support audits and compliance.
- Supports month-end and year-end closing activities by ensuring all transactions are recorded accurately and in a timely manner.
- Monitors and evaluates financial data for accuracy, identifying trends and areas for improvement.
- Assists in the evaluation and implementation of new accounting software and tools to enhance operational efficiency.
- Participates in internal and external audits by providing necessary documentation and support to auditors.
- Maintains organized financial records to ensure easy access and retrieval for reporting and auditing purposes.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Adaptability:** Maintaining effectiveness in reaching set goals by adapting to changed circumstances, tasks, responsibilities, and people; adjusting one's own behavior in light of changing conditions.
- **Communication:** Shaping communication to the needs of the audience; conveying ideas and opinions clearly to others; listening attentively to others; using appropriate grammar and vocabulary.
- **Task Management:** Listens and checks before acting; tries to understand the people and data before making a judgment; follows established processes.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Associate's Degree in Accounting, Finance, or related field.
- Two (2) years related experience.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of accounting principles and Generally Accepted Accounting Principles (GAAP) to guide financial reporting and practices.
- Knowledge of local, state, and federal laws, ordinances, and regulations related to the fiscal management of government agencies, ensuring compliance in all accounting practices.
- Knowledge of financial forecasting and budgeting processes to support effective financial planning.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Occasional walking & standing
- Frequent sitting up to 6 hours per day
- Occasional lifting up to 20 Ibs
- Frequent typing

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

ACCOUNTS PAYABLE SUPERVISOR

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Accounting, the Accounts Payable Supervisor serves as the leader for the accounts payable team, providing essential guidance and support in the efficient processing of invoices and payments, while also overseeing the management of expense accounts and expense reports. This role entails supervising and operating the accounts payable module within the ERP System, ensuring its optimal functionality. The supervisor maintains the computerized processing and research's and reconciles discrepancies, and conducts reporting, and analysis of complex financial records related to accounts payable.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Reconciles accounts payable total to the general ledger and other applicable records (e.g., subsidiary AP ledger).
- Prepare and provide training to users of Oracle applications related to areas of responsibility.
- Acts as the point person regarding payment strategy, PCard processes, and reports as well as producing the monthly invoice for credit card expenditures.
- Monitors outstanding purchasing card activities, runs related reports, and contacts internal card holders who have unrecorded transactions.
- Enforces Authority standard procedures on travel, purchasing card usage, and invoice compliance
- Manages the Authority's compliance with the State of Florida's Prompt Payment Act.
- Assists in developing and presenting policies, procedures, and training programs to all levels of staff.
- Supports month-end and year-end closing activities by ensuring all transactions are recorded accurately and in a timely manner.
- Analyzes expense reports and other invoices for accuracy and eligibility for payment.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.

- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency and acts as accounts payable subject matter expert.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Providing Direction:** Motivating others and rallying people around a common vision, goal, or team outcome; inspiring commitment to contributing to the organization and achieving organizational outcomes; demonstrating flexibility in times of change and empathy; and reestablishing focus and order when appropriate.
- **Coaching:** Providing guidance and clear, candid, and constructive feedback that focuses on specific behaviors and outcomes to help an individual expand knowledge, skill, or ability to accomplish a task or fulfill their role, supporting career growth and development.
- **Emotional Intelligence:** The ability to understand and manage your own emotions and recognize and acknowledge the emotions of those around you.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's degree in Accounting, Finance, or related field.
- Two (2) years related experience.
- Two (2) years supervisory or lead experience.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of governmental accounting principles, practices, procedures, financial recordkeeping, and budgeting.
- Knowledge of accounting principles and Generally Accepted Accounting Principles (GAAP) to guide financial reporting and practices.

- Knowledge in managing and working within large-scale financial ERP systems
- Ability to analyze accounting and fiscal data.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.

ACCOUNTS RECEIVABLE AND REVENUE CONTROL FINANCE MANAGER

GENERAL DESCRIPTION

Under the general direction of the Vice President of Finance, the Accounts Receivable and Revenue Control Finance Manager is responsible for overseeing accounts receivable billing. This role handles the collections process for Authority tenants and revenue collection beyond public parking operations. As a super-user, the manager provides expertise and leadership to staff, ensuring the effective implementation and compliance of the billing system while reviewing tenant agreements for accuracy and compliance to maximize revenue. The position leverages independent decision-making to address billing issues and the ability to interpret contracts while integrating new financial technologies to improve billing processes.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Manages and oversees the annual accounts receivable billing for the Authority.
- Oversees accurate billing of all invoices created by the Authority.
- Ensures accuracy of monthly activity reports submitted by a variety of tenant partners.
- Manages monthly collections process from start to finish, requiring continuous communication with internal and external partners regarding past due invoices and what is needed to remedy the issues and collect the revenue.
- Oversees proper collection of annual Passenger Facility Charges to ensure compliance with Federal guidelines.
- Ensures proper application of all invoice payments coming to the Authority and communicates with tenant partners to resolve incorrect/unapplied payments as necessary.
- Oversees the annual audit process for all billable tenants, ensuring that required external audits are submitted in compliance with their agreements, and that all credit calculations and billing amounts are accurate and finalized..
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.

- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

AIR SERVICE DEVELOPMENT MANAGER

GENERAL DESCRIPTION

Under the general direction of the Director of Air Service Development, the Air Service Development Manager is responsible for leading initiatives to attract airlines to Tampa Bay and enhance flight capacity in both domestic and international markets. This role entails cultivating and managing relationships with air carrier network planning executives, ensuring prompt responses to inquiries, and conducting analytical assessments to bolster the Authority's air service initiatives. The manager is responsible for the creation and presentation of reports for network planning conferences and meetings, as well as overseeing consultant partnerships and project specifications. Additionally, the position includes managing the Air Service Incentive Program (ASIP), which involves maintaining documentation and communication with airlines and community stakeholders.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Represents the Authority at events and meetings with airlines and community stakeholders to support the Airport's air service and economic development strategies.
- Develops and executes strategies to attract airlines to the Authority and increase flight offerings in domestic and international markets.
- Collaborates with the Marketing department and other Authority divisions to provide information and data analysis as needed.
- Develops and delivers high-quality multi-media presentations and written reports that summarize research results, findings, and recommendations.
- Monitors the performance of and provides guidance to air service consultants to ensure project schedules are met and services are delivered with high quality and value.
- Assists in preparing budget requests and manage the administration of the approved budget for air service initiatives.
- Collaborates with IT to ensure that data and software requirements are effectively planned and executed.
- Maintains relationships with air carrier network planning personnel, ensuring timely responses to inquiries and requests.
- Prepares analytical assessments to support air service efforts and inform decision-making processes.
- Coordinates the delivery of time-sensitive reports to airline representatives and stakeholders.
- Engages in outreach efforts to promote the benefits of operating to potential airline partners.

- Evaluates and reports on the effectiveness of air service initiatives and recommend improvements as necessary.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions, admitting mistakes and learning from them, and assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree in Statistics, Data Science, Economics, Aviation Management, Business Administration, or related field.
- Four (4) years experience in airline network planning, air service development or another industry heavily dependent upon data analytics/insights.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

The decision to grant reasonable accommodation requests will be made case-by-case.

AIRFIELD AND GROUNDS MANAGER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Airfield, Fleet & Grounds, the Airfield and Grounds Manager performs managerial, leadership, and technical duties, planning and directing the maintenance and repair of the Airfield and Airport Grounds for the Authority. The Airfield and Grounds Manager is primarily responsible for the management of the activities and personnel of the Airfield and Grounds Sections of the department. This role oversees and evaluates work activities for compliance with regulations and safety standards while ensuring the Airport successfully passes the annual FAA FAR Part 139 inspection without significant airfield issues.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Manages, prioritizes, participates in, and inspects work activities to ensure compliance with plans, specifications, codes, standards, regulations, operating instructions, and safety standards and to ensure operational efficiency and a safe working environment.
- Ensures the Authority completes and passes the annual FAA FAR Part 139 inspection with no major airfield discrepancies.
- Drafts technical reports, including but not limited to staffing analysis and equipment life cycles.
- Creates requisitions and maintains replacement parts and materials to complete assignments promptly.
- Develops contractor specifications and oversees the performance of contractors in assigned areas to ensure construction and maintenance requirements are satisfied and services are completed per specifications.

- Responsible for creating and maintaining the budgets for both the Airfield and Grounds Sections and ensuring expenses are kept within budget allowance.
- Prepares technical specifications for equipment acquisition.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

GENERAL DESCRIPTION

Under the general direction of an Airfield Supervisor, the Airfield Technician III performs advanced technical work related to the operations and duties of leading and assigning tasks in safety, maintenance, and security within the airport environment. The Airfield Technician III is responsible for planning job layouts, estimating materials, and coordinating tasks to enhance and maintain airport assets effectively. This role also involves maintaining accurate work records, overseeing, and training employees, and promoting a collaborative work environment while upholding high standards of safety and operational efficiency.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Leads a team in performing airfield maintenance duties, ensuring high standards of safety, efficiency, and compliance with FAA regulations.
- Plans job layouts for maintenance activities, estimating materials and determining necessary equipment and tools for effective execution.
- Monitors, prioritizes, and inspects work activities to ensure compliance with FAA Part 139 regulations, specifications, codes, and safety standards.
- Oversees preventive maintenance activities to improve operational effectiveness and extend the lifecycle of airport assets.
- Responds to inquiries and provide information related to work assignments, resolving problems, and handling complaints effectively.
- Conducts pavement condition indexing and ensure proper maintenance of airfield paint markings and signage.
- Performs inspections and assessments of airfield grounds, roadways, and facilities to identify maintenance needs and ensure compliance.
- Assists in the development of maintenance schedules and work orders to optimize the use of resources and personnel.

- Participates in emergency response efforts as needed, providing support during incidents and ensuring the safety of airport operations.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Collaboration:** Able to bring people together to leverage their skills, talents, and knowledge to achieve a common purpose; Creates synergy, resulting in a combined effort with greater results than those achieved by individuals.
- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Goal Orientation:** Being persistent and showing perseverance in achieving concrete and tangible results out of personal responsibility; getting optimum results from situations; being ready to take action and showing tenacity in case of obstacles or resistance.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations**.**

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Procedures, and Standards.

- Occasional climbing.
- Continuous exposure to extreme weather, chemicals, insects & excessive noise.
- Continuous use of car/light truck.
- Continuous use of heavy equipment and power tools.

The Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made on a case-by-case basis.

AIRPORT CONCESSIONS MANAGER

GENERAL DESCRIPTION

Under the general direction of the Director of Airport Concessions, the Airport Concessions Manager is responsible for assisting with the administration of leases and contracts to ensure compliance with terms and conditions; monitoring business partner operations, and supporting the development of business and operational recommendations. The role involves maintaining positive relationships with business partners and conducting regular site visits. Additionally, the manager will assist with contract management, procurement activities, business partner compliance, and conflict management, while supporting the daily management of relationships between the Authority and its business partners.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Builds and maintains internal and external relationships to help achieve operational goals.
- Assists Concessionaire partners in promoting success by tracking and reviewing short-term and long-term performance metrics.
- Ensures compliance with leases and contracts by enforcing provisions related to insurance, surety, security, pricing, and collections.
- Prepares and provides input on a variety of financial reports, including the development of pro forma statements, break-even analyses, and cost-benefit evaluations.
- Prepares presentations to further the Authority's strategic business plan and supports new initiatives.
- Supports the financial performance of business lines by assisting with the preparation of the departmental budget.
- Assists with the development and management of procurements.
- Prepares and assists with the drafting of documents for Authority Board meetings.
- Manages daily interactions between the Authority and concession tenants; help resolve tenant and customer complaints or conflicts to ensure high-quality customer service.
- Supports events for Airport tenants including training seminars, meetings and special events and assistance with security clearance and badging.
- Ensures business partners submit required reports and payments on time and assists with collection of past due fees.
- Coordinates with other Authority departments and outside agencies as needed.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; admitting mistakes and learning from them; and assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). AIRPORT DUTY MANAGER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Terminal Operations, the Airport Duty Manager oversees and proactively leads the day-to-day safety, security, and efficiency of operations at the Authority. The Airport Duty Manager evaluates any incidents and escalates through Executive Management if required, initiating the Emergency Response Plans with little to no guidance. The Airport Duty Manager is responsible for all forward-planning operations for the Authority and ensuring the successful proactive management of the operation focused on safety, security, customer service, and efficiency.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Ensures compliance with FAA and TSA and all other applicable regulations.
- Monitors airport operations and directs operations staff to ensure safe and efficient service to airport users.
- Provides leadership in emergencies, taking such action as needed to move equipment, settle public unrest, and make decisions in disputes - all to ensure the smooth functioning of the airport.
- Develops changes and additions to procedures to continuously improve airport operations' safety, security, and efficiency.
- Monitors all key performance indicators and proactively leads to address and/or mitigate any issues that may arise.
- Monitors customer feedback on social media and ensures immediate action on issues/opportunities where appropriate.
- Manages, maintains, and ensures the proper equipping of the Emergency Operations Center.
- Leads applicable training courses as directed.
- Coordinates and documents drills and addresses any issues or shortcomings identified with little to no guidance.

- Completes after-action reviews and proactively implements enhancements to better responses to events or situations.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.

AIRPORT EMERGENCY OPERATIONS MANAGER

GENERAL DESCRIPTION

Under the general direction of the Director of Airport Operations and Emergency Management, the Airport Emergency Operations Manager is responsible for leading, developing, and implementing the emergency and contingency planning programs for the Authority. This position coordinates and directs emergency management, disaster operations, contingency planning, and support business continuity planning. The Airport Emergency Operations Manager supports the Incident Commander during activations, conducts operational drills and exercises, and ensures compliance with FAA and other state and federal requirements. Additionally, the Airport Emergency Operations Manager collaborates with various departments, agencies, and stakeholders to maintain current emergency plans and serves as the liaison to local, state, and federal emergency management agencies.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Develops and maintains the Authority's Airport Emergency Plan (AEP) per FAA requirements, including training, audits, drills, exercises, and coordination.
- Develops and maintains various emergency plan checklists, response, and airport recovery during natural or man-made disasters, major incidents, and accidents.
- Supports the Enterprise Risk Management Team to develop and update an effective business continuity plan.
- Serves as the primary coordinator for emergency preparedness and management, designing, communicating, and evaluating emergency response and contingency plans specific to Authority's operations.
- Analyzes and evaluates emergency plans across departments, ensuring they meet the Authority's current needs.
- Designs, coordinates, executes, documents, and facilitates exercise scenarios including table-top exercises, partial and full-scale drills, and multi-agency training to ensure that all employees understand entirely their roles and responsibilities as part of the AEP or other emergency response plans or operating procedures.
- Coordinates and reviews updates to tenants' and airline emergency response plans, ensuring alignment with the AEP and comprehensive emergency management.

- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee’s department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Associate's Degree in Airport Operations, Business Administration, or a related field.
- Five (5) years of progressive experience in emergency management at a medium to large airport, or similar experience.
- Two (2) years of supervisory experience.
- Or equivalent combination of education, training, and experience.
- Must possess or obtain, within 6 months of hire, a certificate from FEMA in National Incident Management System (NIMS) training.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Bachelor's Degree in Airport Operations, Business Administration, or a related field.
- Certified Emergency Manager (CEM) with the International Association of Emergency Managers.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of and ability to interpret and apply Federal Aviation Regulations.
- Knowledge of airport operations, maintenance and other airport-related activities.
- Knowledge of the NIMS and the Incident Command System (ICS) emergency response and recovery techniques.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

AIRPORT OPERATIONS MANAGER-AOC

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Airport Operations Center, the Airport Operations Manager-AOC is responsible for overseeing the management of the Authority's 24/7 dispatch center, which serves as the central point of contact for all emergency and operational calls at Tampa International Airport. The role leads the team of shift supervisors responsible for calls relating to all airport operations and systems, including elevators, escalators, and shuttles. The Airport Operations Manager is also responsible for planning, training, budgeting supplies, coordinating schedules, and controlling personnel, material, and physical resources to achieve operational and organizational objectives.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- **Accountable for the well-being and support of direct reports, providing individualized training for job responsibilities and mentorship to foster professional growth.**
- **Responsible for room staffing, supervision, and maintaining an effective and efficient overall operation within the Airport Operations Center (AOC).**
- **Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective actions or disciplinary measures when required.**
- **Ensures compliance with authority standards regarding personal appearance among direct reports, promoting a professional work environment.**
- **Oversee the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.**
- **Manages all training and qualifications associated with the operational functions of the Airport Operations Center (AOC), including Simplex Alarms protocols, shuttle management, security access, and terminal/airfield communications.**
- **Manages the emergency evacuation plan and transfers responsibilities for the Airport Operations Center.**
- **Manages emergency incidents by acting as the liaison between the Authority and all responding mutual aid resources. This includes activating the Incident Command Center and fulfilling the role of the ESF2 (NIMS) function until the Senior Manager arrives.**

- **Analyzes team performance, identifying and implementing changes to improve teamwork, efficiency, and effectiveness.**
- **Assists in developing and implementing a unique Integrated Operations Center (IOC) founded on trust and a shared common purpose.**
- **Champions innovation by overseeing the IOC capability and mission, ensuring alignment with operational goals.**
- **Assists in leading the development of integrated, efficient, and effective processes to execute the IOC mission.**
- **Regular and reliable attendance is required as an essential function of the position.**

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Providing Direction:** Motivating others and rallying people around a common vision, goal, or team outcome; inspiring commitment to contributing to the organization and achieving organizational outcomes; demonstrating flexibility in times of change and empathy; and reestablishing focus and order when appropriate.
- **Coaching:** Providing guidance and clear, candid, and constructive feedback that focuses on specific behaviors and outcomes to help an individual expand knowledge, skill, or ability to accomplish a task or fulfill their role, supporting career growth and development.
- **Emotional Intelligence:** The ability to understand and manage your own emotions and recognize and acknowledge the emotions of those around you.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

AIRPORT OPERATIONS SUPERVISOR-AIRFIELD

GENERAL DESCRIPTION

Under the general direction of the Airport Operations Manager-Airfield the Airport Operations Supervisor-Airfield is responsible for overseeing airport operations, aviation administration, and facilities management. This role includes monitoring airport facilities, safety programs, security functions, and various operations to ensure effective passenger and public services. The primary focus is to ensure compliance with Federal Aviation Administration (FAA) regulations, including FAA 14 CFR Part 139, as well as other federal, state, and city regulations.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Monitors and ensures adherence to all applicable federal, state, and local regulations, including FAA FAR Part 139 and TSA 49 CFR Part 1542 requirements. Implements critical airport documents and regulatory manuals, including the Airport Certification Manual (ACM), Wildlife Hazard Management Plan (WHMP), Airport Emergency Plan (AEP), and the Airport Security Plan (ASP). Works closely with management to ensure these documents remain accurate, relevant, and aligned with current airport operations and regulatory mandates. Assists in developing procedures for responding to aircraft accidents, fires, or other emergencies to ensure safety and preparedness.
- Inspects airport facilities, including runways and lighting, to identify necessary repairs, replacements, or improvements.
- Assists in enforcing aircraft parking regulations, monitoring compliance with applicable ordinances, and initiating corrective actions as needed.
- Issues NOTAMs (Notice to Airmen) when required by airport conditions, ensuring timely communication of important information to stakeholders.
- Performs daily, nightly, periodic, and special airfield inspections to maintain safety and operational efficiency.
- Responds to airfield operational concerns promptly, addressing issues to ensure smooth airport operations.

- Execute and support the implementation of the Wildlife Hazard Management Plan, including the use of both lethal and non-lethal firearms, trapping, dispersal techniques, and accurate documentation of wildlife observations and activities.
- Addresses and resolves issues raised by airport tenants and the public, maintaining a focus on customer service and satisfaction.
- Manages and supports ongoing operational and compliance-related projects. Collaborates with internal departments, consultants, contractors, and regulatory agencies to support project goals, timelines, and compliance requirements.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Collaboration:** Able to bring people together to leverage their skills, talents, and knowledge to achieve a common purpose; Creates synergy, resulting in a combined effort with greater results than those achieved by individuals.
- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Goal Orientation:** Being persistent and showing perseverance in achieving concrete and tangible results out of personal responsibility; getting optimum results from situations; being ready to take action and showing tenacity in case of obstacles or resistance.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations

AOC DISPATCHER I

GENERAL DESCRIPTION

Under the general direction of the Airport Operations Manager, the AOC Dispatcher I is part of the Airport Operations Center team that supports Authority's operations, public safety and security activity within the airport and surrounding area 24 hours a day. The entry-level position is responsible for answering emergency phone calls, processing sensitive information, and dispatching first responders by radio when required.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Monitors airport audio and video communication systems.
- Receives incoming 911 emergency and non-emergency calls for assistance, makes inquiries to solicit relevant information, and assesses information to determine the nature and urgency of calls for assistance.
- Determines the location of the incoming emergency and non-emergency calls initiated from landlines or cellular phones using a Global Positioning System (GPS).
- Enters public safety-related information into the Computer Aided Dispatch (CAD) system and redirects calls to specific or alternate emergency responding agencies or departments.
- Dispatches emergency response personnel using digital and analog voice communications equipment and an emergency computer dispatch system.
- Initiates emergency and non-emergency callbacks to obtain or provide additional information or to follow up on disconnected calls.
- Operates various computer systems and programs, including aviation-specific systems, airport facility systems and equipment, security alarm systems, and closed-circuit television (CCTV) systems.
- Accesses and enters sensitive law enforcement data in local, state, and federal databases for investigative purposes, including the Florida Crime Information Center (FCIC) and the National Crime Information Center (NCIC) databases.

- Activates the Authority emergency communication notification system to notify tenants and authorities of emergencies, impending severe weather, and other critical airport operations impacts.
- Researches local, state, and federal databases when requested or when circumstances dictate to review criminal justice records, search for outstanding warrants, locate other relevant data, and provide information to emergency response personnel before arriving at the emergency location.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Job Knowledge:** Has adequate knowledge of the fundamentals of the job.
- **Work Quality:** Adequate completion of work that is neat and accurate; rarely needs correction.
- **Customer Focus:** Give high priority to customer satisfaction and customer service; Anticipate member/business needs and act accordingly.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS

- High School Diploma or equivalent.
- One (1) year experience in dispatching calls for assistance or performing customer service duties.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of CJNET, FCIC, and NCIC law enforcement databases.
- Knowledge of CJIS Security Clearance Expectations within the Airport Operations Center.
- Knowledge of the Airport Communication Center regulations and standard operating procedures and airport operations and public safety dispatching systems related to the area of assignment.
- Knowledge of airport operations, law enforcement, emergency medical, and fire terminology based on the area of assignment.

- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Continuous typing
- Occasional use car/light truck

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

AOC PUBLIC SAFETY MANAGER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Airport Operations Center, the AOC Public Safety Manager oversees the management of the Authority's 24/7 dispatch center, which serves as the central point of contact for all emergency and operational calls at Tampa International Airport. This role involves leading a team of dispatchers, developing training programs, and ensuring compliance with Criminal Justice Information Systems (CJIS) standards and regulations. The AOC Public Safety Manager is also tasked with planning, budgeting, and coordinating resources to achieve operational objectives while enhancing the efficiency and effectiveness of public safety communications within the airport environment.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Ensures effective communication and response protocols for all emergency and operational calls.
- Manages the receipt of emergency 9-1-1 calls for police, fire, and medical services, ensuring swift and appropriate responses within the Tampa International Airport property.
- Establishes and implements administrative policies, procedures, and guidelines to enhance operational efficiency.
- Develops and manages the AOC Training Program to ensure compliance with Criminal Justice Information Systems (CJIS) standards and industry regulations.
- Prepares and monitors the Airport Operations Center's annual budget, controlling expenses and ensuring optimal resource allocation.
- Acts as the primary liaison with the FBI and FDLE for all CJIS-related items, ensuring compliance and facilitating necessary audits and inspections.
- Monitors workflow and data accuracy within the dispatch center, ensuring high-quality service delivery and adherence to established guidelines.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.

- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS

- Bachelor's Degree in Public or Business Administration, Airport Management, or related field.
- Five (5) years experience in law enforcement, emergency operations, or similar experience.
- Two (2) years supervisory experience.
- Or equivalent combination of education, training, and experience.
- Florida Department of Health 9-1-1 PST Certification.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of Federal Aviation Administration (FAA) and Transportation Security Administration (TSA) regulations governing airport operations.
- Knowledge of emergency response procedures and ability to develop and implement emergency plans.
- Knowledge of airport operations, maintenance, and other airport-related activities

- Knowledge of federal, state, and local rules and regulations pertaining to airport operations and security.
- Knowledge of public safety best practices and procedures.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

.

BOARD SERVICES ADMINISTRATOR

GENERAL DESCRIPTION

Under the general direction of the Chief Legal Officer or an Assistant General Counsel, the Board Services Administrator is responsible for performing complex and highly independent administrative support duties for the Board Members of the Authority. This role requires direct knowledge of confidential interactions involving Board Members with both internal projects and external stakeholders. The Administrator engages with the Chief Executive Officer, senior staff, private sector representatives, and state and local governmental officials, ensuring that all communications uphold a positive image for the Authority.

The Administrator may also provide administrative support to the Chief Legal Office, ensuring the smooth operation of the Office. As part of this role, the Administrator manages the Chief Legal Officer's calendar and effectively prioritizes meetings and requests while exercising sound judgment to navigate conflicts and lower-priority activities. The Administrator interacts regularly with the Leadership Team, Board members, staff, volunteers, and various stakeholders, facilitating communication and collaboration.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Prepares and coordinates all functions related to the monthly meetings of the Authority's Board, including the agenda, minutes, resolutions, and PowerPoint presentations.
- Maintain adherence to the Board Calendar by tracking key dates and ensuring staff meet all Board-related deadlines and deliverables.
- Coordinates and prepares correspondence for Board Members, drafting appropriate responses to public inquiries as needed.
- Reviews and prepares PowerPoint presentations and other informational materials for presentations to or by Board Members.
- Maintains the Authority Policy and Procedure Manual, ensuring it is up-to-date and accessible while tracking historical changes and archived versions for reference.
- Ensures the confidentiality of sensitive information related to Board Members and their interactions with various stakeholders.
- Facilitates effective communication between Board Members and the Chief Executive Officer, senior staff, and external representatives.
- Supports the Board in achieving its strategic objectives by providing timely administrative assistance and coordination of activities.

- Post Board Agenda, Board Minutes and Agreements on the Authority website in a timely and accurate manner, ensuring public accessibility and compliance with transparency requirements.
- Responsible for preparing Verbatim Transcripts and official Minutes of Board Meetings, ensuring accuracy, completeness, and timely distribution.
- Manages the Chief Legal Officer's schedule for internal and external activities, organizing materials, and coordinating logistics for meetings.
- Manages the flow of information and communication from the Chief Legal Officer to staff and other leadership team members.
- Prepares and reconciles expense reports, including travel expenses, in the electronic filing system.
- Serves as a liaison to the Leadership Team, facilitating communication between the Chief Legal Officer and their direct reports.
- Creates and maintains systems and procedures to ensure effective implementation of directives and initiatives.
- Arranges travel plans as needed, ensuring all details are handled efficiently.
- Assists in the preparation of materials for meetings, including presentations and reports.
- Coordinates and schedules events, workshops, and other activities that align with the priorities and goals of the department.
- Monitors and responds to incoming communications, prioritizing messages and delegating as necessary.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Technical Focus:** Maintaining up-to-date knowledge within one's field of expertise; Applying technical skills and knowledge.
- **Problem Solving:** Having the ability to identify problems and issues of varying complexities and to find effective solutions with few guidelines.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

BUDGET MANAGER

GENERAL DESCRIPTION

Under the general direction of the Director of Financial Planning & Reporting, the Budget Manager is responsible for overseeing the budgeting and financial planning for the Authority. This includes managing the annual operating budget process, from setting guidelines and timelines for the executive team to producing the budget book and supporting analysis for the Board. The role also involves managing budget amendments and the capital equipment budget and reallocating funds as needed throughout the fiscal year. Additionally, the Budget Manager reviews and updates budget-related policies and procedures, manages the Authority's long-term financial model, and oversees the Authority's annual rates & charges process.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Manages the annual and monthly operating budgets. Researches, analyzes and prepares data on operating expenses.
- Develops and implements the calendar for the annual budget process.
- Develops budget guidelines for consideration and implementation by the executive team.
- Provides guidance to staff in the analysis of budget variances and monitor the accuracy of departmental expenses.
- Manages budgeting scenarios regarding the elements of the budgeting and cash projection processes.
- Researches and prepares data for the budgeted business plan and actual rates and charges to the signatory airlines recognized net investment and return on Authority Investment summaries.
- Reviews, updates and implements budget policies and procedures, providing guidance to Authority management and staff regarding budget issues.
- Prepares budget-related documents for presentation to the airlines and the Authority's Board.
- Oversees the equipment budget and develops, distributes, and summarizes departmental operating and equipment budget submission forms while providing training and guidance to Authority staff.
- Directs debt service transfer amounts with the master trustee on all revenue and PFC-backed bond issues and produces data reports for the sinking fund and debt reserve funds.

- Prepares detailed multi-year monthly cash projections for the Authority's cash accounts, covering cash needs and funding sources for its capital program, including grants, fees, and bank notes, while recommending timing and magnitude for bond issuances.
- Prepares annual enplanement and passenger facility charge collection projections for Federal Aviation Administration reporting requirements.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). The Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made on a case-by-case basis.

BUILDING MAINTENANCE TECHNICIAN II

GENERAL DESCRIPTION

Under the general direction of a Building Maintenance Supervisor, the Building Maintenance Technician II plays a vital role in ensuring the efficient operation of facilities through skilled maintenance in areas such as plumbing, carpentry, and painting. This position involves leading repairs on plumbing systems, drywall, locks, roofs, and various equipment, as well as painting both interior and exterior surfaces to maintain the aesthetic appeal and functionality of buildings. The Building Maintenance Technician II operates a variety of power equipment and may drive to different work sites as needed. Additionally, the Technician will manage and train a workgroup's daily activities, contributing to the overall effectiveness and efficiency of maintenance operations.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Performs skilled repairs and adjustments to plumbing systems, including water lines, fixtures, and related equipment to ensure functionality.
- Participates in the erection of small structures and conduct complex alterations and repairs in plumbing, brick, cement, and carpentry.
- Paints both interior and exterior surfaces of buildings to maintain aesthetic appeal and protect against wear and tear.
- Operates power equipment such as drain machines, jetters, lifts, drill presses, threading machines, air compressors, and gas-operated saws.
- Manages and train workgroup personnel in safe operational practices and maintenance procedures.
- Assists in inventory management of tools, equipment, and materials necessary for maintenance tasks.
- Reports any maintenance issues or safety hazards to the Building Supervisor for resolution.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.

- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities, as necessary.

COMPETENCIES

- **Adaptability:** Maintaining effectiveness in reaching set goals by adapting to changed circumstances, tasks, responsibilities, and people; adjusting one's own behavior in light of changing conditions.
- **Communication:** Shaping communication to the needs of the audience; conveying ideas and opinions clearly to others; listening attentively to others; using appropriate grammar and vocabulary.
- **Task Management:** Listens and checks before acting; tries to understand the people and data before making a judgment; follows established processes.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations**.**

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Procedures, and Standards.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- High School Diploma or equivalent.
- Three (3) years experience in multiple trades such as plumbing, carpentry, painting, and general maintenance or related vocational training.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of building maintenance principles, techniques, and best practices to ensure efficient operations.
- Knowledge of plumbing systems, carpentry, painting, and general repair methods necessary for facility upkeep.
- Extensive knowledge of safety procedures and the proper use of safety equipment in building maintenance.
- Skill in the use of hand and power tools, including electrical and gas-operated equipment used in construction and maintenance tasks.
- Ability to read and interpret blueprints, drawings, and technical specifications accurately.

- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Standing and sitting up to 6 hours per day.
- Frequent sitting.
- Frequent lifting up to 50 lbs or more.
- Very frequent bending & stooping.
- Frequent pushing, pulling, dragging, reaching overhead, kneeling, crawling & climbing.
- Frequent typing.
- Occasional exposure to extreme weather and excessive noise.
- Frequent use of car/light truck.

- Frequent sitting
- Frequent typing

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

BUSINESS SYSTEMS ANALYST

GENERAL DESCRIPTION

Under the general direction of the Business Systems Analysis Manager, the Business Systems Analyst provides both functional and technical support to end users concerning enhancements, issues, and projects related to the Authority's applications. This position involves responding to, documenting, and resolving service tickets in a timely manner in accordance with service level agreements (SLA). The Business Systems Analyst conducts root cause analysis, develop checklists for common enhancements and issues, and recommend procedures and controls to optimize application performance. Supporting multiple applications and domain areas, including ERP, GIS, interfaces, and Cloud Services, this role works independently as well as under the guidance of more experienced team members, collaborates with consulting resources, and assists with work orders.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Develops an understanding of relevant business areas to recommend effective solutions and build high-quality requirements.
- Assists in conducting interviews, workshops, surveys, site visits, and storyboards, to gather business requirements.
- Contributes to business requirements by making recommendations and suggesting alternatives to proposed solutions.
- Assists in translating conceptual user requirements into clear, detailed functional requirements for implementation.
- Contributes to requirements scoping throughout the delivery process to ensure alignment with business goals.
- Assists in creating artifacts, including business case documentation, scope documentation, and process flows.
- Supports delivery teams during the development, testing, and deployment of solutions.
- Documents current processes and models to identify inefficiencies or gaps in operations.
- Identifies and assists in prioritizing opportunities to streamline business processes for improved efficiency.
- Troubleshoots software issues and identify root causes of problems for resolution.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Technical Focus:** Maintaining up-to-date knowledge within one's field of expertise; Applying technical skills and knowledge.
- **Problem Solving:** Having the ability to identify problems and issues of varying complexities and to find effective solutions with few guidelines.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree in Information Systems, Computer Science, Management Information Systems, Computer Engineering, or a related field.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- At least one certification in analytics/business analysis or product ownership such as: IIBA, PMI, CSPO, etc. Relevant certifications in areas such as Oracle ERP, GISP, etc.

KNOWLEDGE, SKILLS, AND ABILITIES

- Skill in problem resolution, negotiation, and influencing outcomes effectively.
- Ability to engage both developers and business partners to achieve target outcomes.
- Knowledge of Agile development methodologies and Agile planning tools.
- Knowledge data analytics and SQL to support decision-making processes.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.

- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Occasional standing & walking

CAD/BIM MANAGER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Planning, the CAD/BIM Manager is responsible for leading all CAD and BIM capabilities for the Authority, as well as directing, overseeing, and implementing the Authority's CAD and BIM standards and initiatives. This position is responsible for developing and executing a vision for BIM at Tampa International Airport (TPA) and the General Aviation airports including the use of new software and hardware technology in BIM such as Virtual Reality (VR), Augmented Reality (AR), Mixed Reality (MR) and others, which reflects the forefront of industry trends to leverage the BIM environment better. The CAD/BIM Manager will maintain and update the current CAD standards, develop and maintain BIM standards, define BIM business needs, improve business processes and asset management, and maintain accurate and up-to-date building documentation. The BIM/CAD Manager is expected to engage with both internal and external entities.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Develops, implements and maintains CAD/BIM standards, documentation and workflow processes.
- Maintains existing base files and background files (BIM/CAD) of Authority facilities and coordinate the acquisition and inclusion of new spatial data, utilities, drainage and/or properties or buildings.
- Expands and administers existing quality control/assurance programs for the adherence of BIM and CAD submissions from design and construction professionals to Authority standards.
- Communicates BIM initiatives and promote the BIM program.
- Proactively engages departmental leaders and project directors regarding the implementation of BIM within the Authority's Capital Improvement Program (CIP).
- Coordinates facility space identification systems including Propworks and addresses identification databases.
- Develops and maintains a wide range of drawing exhibits such as Project Management Plan (PMP) exhibits, lease exhibits, property maps, site plans, special use plans, security plans, facility floor plans, incident reports and signs.

- Collaborates with the Authority's Geographic Information System (GIS) database and Maintenance teams to support asset collection, management, and integration with the Authority's BIM models.
- Develops, implements, and maintains GIS content for the Planning and Development Department.
- Responsible for the use and maintenance of the Authority's large-format printer and Real-Time Kinematic (RTK) GPS data collector.
- Manages all CAD and BIM software subscriptions and specialized software needs for architecture and engineering in the planning and development department.
- Manages, organizes, and distributes all construction documents for the Authority.
- Assists and supports the Height Zoning Permit process.
- Coordinates, receives, revises, and approves the final digital construction models and drawings from consultants in CAD, BIM, and other formats for all construction projects managed by the Authority.
- Maintains and updates the GIS utilities atlas for Tampa Airport.
- Updates and incorporates assets into the Asset Management System of the airport in Cityworks (GIS format)
- Implements BIM, CAD and GIS solutions applied to Planning and Development.
- Adheres to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

CAPITAL PLANNING SENIOR ANALYST

GENERAL DESCRIPTION

Under the general direction of the Projects and Grants Finance Manager, the Capital Planning Senior Analyst will be responsible for providing analytical and reconciliation of the Authority's Capital Improvement Program (CIP). Responsible for critical elements essential to the successful management of the Authority's long-range CIP construction projects and grant reimbursement. The role involves managing and updating Capital Improvement Program (CIP) data, collaborating with various departments for budget and timeline discussions, overseeing federal and state grant management processes, and generating detailed reports and analysis to support financial oversight and decision-making.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Updates and maintains CIP project data with actual costs.
- Works with the Planning and Development department to ensure the projected payments are accurate and the correct cash curve is used.
- Generates monthly cash forecasts prior to project payments to outline capital cash requirements, as requested by the Finance Department.
- Updates and maintains files containing Capital Improvement programs.
- Attends Development Committee meetings and consults with the Director of Capital Programs to discuss changes related to budget updates, funding sources, project timelines, and modifications to the Capital Improvement Plan.
- Generates ad hoc reporting and using the data for project summaries, variance analysis, and scenario comparison.
- Responsible for creating and managing files for both federally assigned grants from the Federal Aviation Administration (FAA) and state grants from the Florida Department of Transportation (FDOT). This includes reviewing grant agreements for eligible costs, preparing and submitting payment invoices and journal entries, generating necessary reports, maintaining records for audits, and preparing close-out documents for the FAA grants.
- Ensures thorough reconciliation of master plan project accounts between the Authority's accounting system and construction project management software, collaborating with the internal team to address discrepancies. This includes generating detailed monthly reports to monitor actual expenditures and commitments.

- Reviews and approves all project related requisitions which includes the creation and assignment of tasks numbers within the Oracle Project Module.
- Responsible for closing purchase orders as final payments are processed for design, construction, equipment, and miscellaneous invoices.
- Provides assistance for Book Transfers, CIP Status Review Reporting, Certified Payroll, Work Order Processing, Design Invoice Reviews, and Performance Measures Quarterly Report (PMQR).
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions, admitting mistakes and learning from them, and assuming responsibility for dealing with problems, crises, or issues.

- Provides leadership for the design, implementation, and management of issue-focused communication initiatives.
- Develops strategic communication plans, both proactively and responsively to breaking events.
- Ensures all staff has timely access to internal information about the Authority.
- Utilizes various communication channels, including social media, to ensure accurate and consistent information accessibility.
- Leads the development and execution of comprehensive strategies to attract airlines to the market, driving growth in both domestic and international flight operations.
- Works closely with program leaders to integrate communication strategies into broader plans.
- Champions the strategic negotiation of airport concession agreements across diverse sectors, including food and beverage, retail, rental cars, parking, ground transportation, advertising, and sponsorships, to maximize revenue potential.
- Provides regular strategic and tactical communication support to the CEO's office and senior management team.
- Offers communications oversight for critical information relayed to the Board of Directors.

- Directs the Authority's real estate strategy, encompassing land acquisition and disposition, commercial development, property management, and asset activation, with a primary focus on optimizing revenue generation and enhancing asset value.
- Collaborates with internal and external stakeholders to ensure profitability and optimal resource utilization leveraging the Authority's visibility and brand.
- Enhances the customer experience to attract and retain passengers and other airport users, which can positively impact revenue.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Stakeholder Engagement:** Ability to identify, understand, and involve members of the community who have a stake in the outcome of the strategic plan; Able to take a comprehensive approach that includes ongoing communication, listening, and collaboration.
- **Business Alignment:** Ability to link an organization's structure and resources with its strategy and business environment.
- **Strategic Forecasting**: Ability to analyze historical data, market trends, and other relevant factors to develop multiple potential future scenarios based on different assumptions and variables to assess potential impacts and prepare contingency plans.
- **Strategic Vision:** Creates a vision for the organization and ensures the vision is understood and supported; Driving a shared understanding of a long-term perspective and opportunities for the organizations.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Master's Degree in Business Administration, Public Relations or another related field.

- Ten (10) or more years proven experience in senior leadership roles within marketing, communications, or related field.
- Or equivalent combination of education, training, and experience
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of business and management principles involved in strategic planning, resource allocation, leadership techniques, production methods and coordination of people and resources.
- Knowledge of generally accepted accounting and auditing principles in the public sector.
- Ability to craft and execute revenue strategies, identifying growth opportunities, setting revenue targets, aligning sales and teams to achieve these goals.
- Skill in bargaining effectively with others to resolve conflict or achieve results.
- Ability to analyze sales data, customer behaviors and market trends to inform strategies.
- Ability to understand market trends and customer needs to adapt strategies to changing market conditions.
- Ability to align and optimize the efforts of sales, marketing, and customer success teams to drive growth and maximize revenue.
- Strong analytical skills with the ability to make data-driven decisions.
- Skill in leading and managing teams, fostering collaboration, and achieving collective goals.
- Commitment to the organizational mission and guiding principles, with a focus on continuous improvement.
- Exceptional verbal, graphic, and written communication skills to convey messages clearly and persuasively.
- Ability to process complex information quickly and distill it into compelling and actionable messages.
- Outstanding interpersonal skills characterized by credibility, good judgment, honesty, and integrity in all interactions.
- Ability to manage change with flexibility and grace, demonstrating initiative to solve problems as they arise.
- Skill in anticipating, prioritizing, and managing tasks while respecting diversity and fostering an inclusive environment.
- Demonstrated effectiveness in people management and employee development, promoting growth and performance.
- Capacity to command respect and manage partnerships effectively, valuing honesty, accountability, and integrity.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to take decisive action, address issues proactively, and hold oneself accountable for outcomes and behavior.
- Knowledge of metrics and evaluation techniques to assess the effectiveness of communication strategies and initiatives.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.

- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Continuous sitting
- Frequent standing and walking
- Very frequent typing and extended periods of focused work in front of computer monitor

CHIEF DEVELOPMENT OFFICER

GENERAL DESCRIPTION

Under the general direction of the Chief Executive Officer, the Chief Development Officer is responsible for overseeing and executing the airport's planning, engineering, and development projects, while also prioritizing safety, security, and passenger experience. This position plays a key role in projects aimed at expanding and enhancing the Airport's infrastructure to facilitate its growth and operations, while also making sure that these facilities operate safely and efficiently. This role provides strategic leadership and direction to the Planning & Development and Maintenance Departments, overseeing multi-billion-dollar valued capital improvement programs, leading projects from the planning stage through design, and construction, and the overall Asset Management Program for Tampa International Airport. This role contributes to the organization's mission and values and fosters a working environment that reflects teamwork, excellence, vision, hospitality, and community.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Develops and implements the Authority's long-term development vision and strategy, ensuring it aligns with the Authority's vision, mission and values.
- Oversees long-term plans for capital equipment and improvement projects and contributes innovative ideas for expansion and improvement initiatives.
- Collaborates with the CEO on essential growth strategies and works with the senior management team to plan, review, and revise the Authority's development programs.
- Ensures consistent implementation of planning and development activities and capital construction projects.
- Oversees the safe and efficient operation of airport facilities, ensuring a high level of customer service and passenger satisfaction.
- Monitors and manages facilities and physical assets to provide world-class customer service.
- Advises on efficient staffing plans, specialty outsource contracting, consulting services contracts, and management approaches to achieve organizational goals.

CHIEF EXECUTIVE OFFICER

GENERAL DESCRIPTION

Serves as the Chief Executive Officer (CEO) of the Hillsborough County Aviation Authority (HCAA or Aviation Authority). Under the general direction of the Board, the CEO is responsible and accountable for leading all departments and administrative functions of the Aviation Authority and its airports, Tampa International Airport, Peter O. Knight Airport, Tampa Executive Airport, and Plant City Airport.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Creates and implements long-term strategic initiatives, approved by the Board, to guide the development and direction of HCAA.
- Monitors and directs action on all local, state, and federal legislative and regulatory initiatives relating to the aviation, transportation, and tourism industries to protect and promote the interests of the HCAA.
- Directs the governmental affairs department and lobbyists to achieve the funding and regulatory goals of the Aviation Authority.
- Coordinates the activities and involvement of the Aviation Authority with industry groups such as Airports Council International, the American Association of Airport Executives, and other trade associations to influence the initiatives these organizations pursue to align their compatibility with the goals and objectives of HCAA.
- Coordinates and collaborates with regional and state agencies that have responsibility for economic development, travel, tourism, transportation, and convention activities to ensure that the Aviation Authority is positioned to help direct efforts and to satisfy the requirements for continued growth of travel for the overall benefit of the Tampa Bay Region.
- Fosters media, community, and governmental relations; develops strategies to effectively inform the community and other stakeholders about news and relevant developments; and maintains good relations with the public by being active in the Tampa Bay Region and directing the community engagement of HCAA and its employees as well.
- Develops and manages operating and capital budgets that result in competitive airline rates while ensuring that HCAA has the resources to achieve its goals and objectives.
- Maximizes revenues and minimizes expenditures to protect the financial strength of HCAA.
- Provides safe, secure, and convenient facilities and administers the safe operations, construction, maintenance, and protection of operational areas of HCAA airports.

- Responsible for the selection, training, and motivation of Aviation Authority staff to create a productive work environment. Implements programs to ensure staff career advancement opportunities and provides the resources to accomplish assigned tasks. Conducts leadership succession planning.
- Complies with all federal, state, and local procurement requirements in the selection of contractors, concessionaires, consultants, and individuals providing goods and services to HCAA. Develops programs to ensure equal opportunities for Disadvantaged Business Enterprises.
- Responsible for lease and contract negotiations and for the coordination with air carriers, concessionaires, and tenants of the aviation system to ensure that facilities are put to their highest and best use with the goal of driving revenues, increasing services, and driving customer loyalty.
- Explores growth strategies for all areas of the HCAA business portfolio.
- Analyzes and provides statistical and economic concepts to support recommendations and promote airport-oriented activities in the Tampa Bay Region.
- Develops staff and programs, subject to budget constraints, necessary to attract new passenger and cargo markets and airlines, both domestic and international, with the goal of increasing air service options and supporting the economic development goals of the Tampa Bay Region.
- Provides reports to the Board on various business development and air service efforts and opportunities.
- Communicates industry trends and developments to the Board.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

CHIEF FINANCIAL OFFICER

GENERAL DESCRIPTION

Under the general direction of the Chief Executive Officer, the Chief Financial Officer also serves as the Chief Information Officer, and Chief Purchasing Agent for the Authority, encompassing a wide range of critical responsibilities. As Chief Financial Officer, the role involves planning, implementing, managing, and overseeing all finance and accounting activities within the Authority. In the capacity of Chief Information Officer, this position manages all aspects of Information Technology (IT) to effectively support the Authority's operations, security, and strategic objectives. As the Chief Purchasing Agent, this role oversees the Authority's procurement processes, regulations, cost analysis, and financial reporting. Responsibilities include overseeing the development and compliance with departmental procedures, monitoring departmental performance, formulating long-range strategies, and guiding the preparation of both operating and capital budgets.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Provides financial guidance and expertise to the CEO and other stakeholders.
- Develops and implements the Authority's financial plans, budgets, and forecasts, ensuring the efficient and effective use of public funds.
- Ensures accurate and timely financial reporting, as well as compliance with all relevant regulations and accounting standards.
- Identifies and manages financial risks, including those related to debt, investments and insurance.
- Interacts with the Authority's trustees related to bond covenants and the administration of existing debt.
- Directs the establishment and management of Authority banking and investments.
- Provides high quality, cost effective, and timely procurement processes to meet the needs of internal and external customers.
- Ensures the timely availability of quality materials, supplies, equipment, design, construction, concessions, and professional services in support of the Authority's revenue generation, operations and administrative functions.

- Ensures compliance with all federal, state and local procurement requirements in the selection of contractors, concessionaires, consultants and individuals providing goods or services to the Authority.
- Maximizes revenues and minimizing expenditures to protect the financial strength of the Authority.
- Develop, in conjunction with a wide range of stakeholders, an effective and implementable Authority cyber security strategy.
- Monitor the Authority's ability to manage information resources in a manner consistent with existing cyber-related policies and procedures.
- Support the increased use of leading-edge technology to enable the Authority to carry out it's mission better.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Stakeholder Engagement:** Ability to identify, understand, and involve members of the community who have a stake in the outcome of the strategic plan; Able to take a comprehensive approach that includes ongoing communication, listening, and collaboration.
- **Business Alignment:** Ability to link an organization's structure and resources with its strategy and business environment.
- **Strategic Forecasting**: Ability to analyze historical data, market trends, and other relevant factors to develop multiple potential future scenarios based on different assumptions and variables to assess potential impacts and prepare contingency plans.
- **Strategic Vision:** Creates a vision for the organization and ensures the vision is understood and supported; Driving a shared understanding of a long-term perspective and opportunities for the organizations.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.

- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Master's degree in business administration or public administration.
- Ten (10) years of senior-level experience in managing the accounting, investment and financial functions of a similarly sized organization in a position with significant organizational and budget responsibility, preferably at a medium to large size airport or other governmental organization.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge and experience complying with federal, state, and local procurement laws and regulations governing the purchase of equipment, supplies and services.
- Ability to collaborate with key stakeholders to proactively define procurement needs and determine options that meet policy and law requirements.
- Knowledge and understanding of accounting principles, budgeting, forecasting, financial analysis, and financial reporting.
- Knowledge of capital budgeting, project financing, and large-scale capital improvement projects.
- Knowledge of IT operations, including incident management, service desk operations and IT asset management.
- Knowledge of data analytics techniques and tools to extract insights from airport data for better decision-making.
- Knowledge of relevant aviation regulations and IT standards, such as those related to data privacy and security.
- Ability to manage relationships and negotiate contracts effectively.
- Ability to analyze data to identify trends, patters, and insights to improve airport operations.
- Skill in leading and managing teams, fostering collaboration, and achieving collective goals.
- Commitment to the organizational mission and guiding principles, with a focus on continuous improvement.
- Exceptional verbal, graphic, and written communication skills to convey messages clearly and persuasively.
- Ability to process complex information quickly and distill it into compelling and actionable messages.
- Outstanding interpersonal skills characterized by credibility, good judgment, honesty, and integrity in all interactions.
- Ability to manage change with flexibility and grace, demonstrating initiative to solve problems as they arise.
- Skill in anticipating, prioritizing, and managing tasks while respecting diversity and fostering an inclusive environment.
- Demonstrated effectiveness in people management and employee development, promoting growth and performance.
- Capacity to command respect and manage partnerships effectively, valuing honesty, accountability, and integrity.

- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

CHIEF LEGAL OFFICER/GENERAL COUNSEL

GENERAL DESCRIPTION

Under the general direction of the Chief Executive Officer and Authority Board Members, The Chief Legal Officer/General Counsel is responsible for all legal matters. This role will represent the Authority as required under the Rules Regulating the Florida Bar, including but not limited to Rule 4-1.13 Organization as Client. It is the duty of the General Counsel to take charge, manage, and control the legal business of the Authority and serve as the legal advisor to Board members, the Chief Executive Officer, and all the Authority's departments on all legal matters related to airport operations, including contracts, leases, regulatory compliance, litigation, and risk management. The Chief Legal Officer/General Counsel will prosecute and defend all legal actions by and against the Authority with assistance as necessary from outside special legal services.

This position will manage all activities of Legal Affairs and the Government and Community Relations departments, including establishing departmental goals, supervising staff, managing legal budgets, and overseeing the preparation of all agreements relating to the Master Plan development program, airline agreements, concession/commercial development agreements, land acquisition and ground leases, construction and consultant agreements, and the lease of airport facilities at the Authority's four airports. This role will ensure compliance with all applicable federal, state, and local laws and regulations, including aviation regulations, labor laws, environmental regulations, and procurement rules.

The Chief Legal Officer/General Counsel is hired by the Chief Executive Officer and is subject to approval by at least a majority of the Authority Board.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Develops and implements a comprehensive legal strategy to support the airport's strategic goals and objectives, including risk mitigation, regulatory compliance, and legal support for business development initiatives.
- Identifies, assesses, and mitigates legal risks associated with airport operations, including operational risks, strategic initiatives, and potential litigation.
- Provides legal opinions and advice to the CEO and Board Members on a wide variety of legal matters related to all aspects of the Aviation Authority from its governance to the management and operation of Tampa International, Peter O Knight, Plant City, and Tampa Executive Airports.

- Oversight of any existing or proposed federal, state, or local legislation or governmental policies that would affect the governance, finances, operations, or management of the Authority.
- With the aid and assistance of the Director of Government and Community Relations, prepares, advocates or opposes such laws in a manner which will best represent the interests of the Authority, including the hiring of specialists and experts in connection therewith.
- Builds and maintains strong relationships with key stakeholders, including airport staff, government officials, industry partners, and other relevant parties.
- Stays informed about updates in aviation regulations, laws, and policies, and ensure the Authority's operations adhere to these changes.
- Reviews and approves all contracts, grant agreements, concession agreements, vendor agreements, labor agreements, user agreements, leases, easements, permits and similar documents.
- Coordinates all legal issues with the Authority's CEO.
- Drafts and final preparation of contracts or other legal documents.
- Representation in real estate transactions, including examination of land titles.
- Representation in actual or threatened litigation or in any adversarial proceedings before administrative agencies.
- Liaises with legislative and executive representatives of County, State or Federal government agencies.
- Oversees all outside legal service contracts.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Stakeholder Engagement:** Ability to identify, understand, and involve members of the community who have a stake in the outcome of the strategic plan; Able to take a comprehensive approach that includes ongoing communication, listening, and collaboration.
- **Business Alignment:** Ability to link an organization's structure and resources with its strategy and business environment.
- **Strategic Forecasting**: Ability to analyze historical data, market trends, and other relevant factors to develop multiple potential future scenarios based on different assumptions and variables to assess potential impacts and prepare contingency plans.
- **Strategic Vision:** Creates a vision for the organization and ensures the vision is understood and supported; Driving a shared understanding of a long-term perspective and opportunities for the organizations.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Juris Doctor Degree from an accredited school of law.
- A member in good standing of the Florida Bar.
- Ten (10) years experience as a practicing attorney including extensive professional legal experience involving some branch of local government, experience in the aviation or transportation industry.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Experience should reflect demonstrated knowledge and a thorough understanding of the laws as they relate to the sale and purchase of real property; rental and lease agreements; construction and contract administration; procurement; and compliance with policies and procedures. The General Counsel will perform a wide range of legal services for the Authority and a thorough understanding of the requirements relating to the Public Sector environment is critical.
- Skill in leading and managing teams, fostering collaboration, and achieving collective goals.
- Commitment to the organizational mission and guiding principles, with a focus on continuous improvement.
- Exceptional verbal, graphic, and written communication skills to convey messages clearly and persuasively.
- Ability to process complex information quickly and distill it into compelling and actionable messages.
- Outstanding interpersonal skills characterized by credibility, good judgment, honesty, and integrity in all interactions.
- Ability to manage change with flexibility and grace, demonstrating initiative to solve problems as they arise.
- Skill in anticipating, prioritizing, and managing tasks while respecting diversity and fostering an inclusive environment.
- Demonstrated effectiveness in people management and employee development, promoting growth and performance.
- Capacity to command respect and manage partnerships effectively, valuing honesty, accountability, and integrity.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.

- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Continuous sitting
- Frequent standing and walking
- Very frequent typing and extended periods of focused work in front of computer monitor

CHIEF OPERATING OFFICER

GENERAL DESCRIPTION

Under the general direction of the Chief Executive Officer, the Chief Operating Officer is responsible for overseeing the day-to-day operational functions at the Hillsborough County Aviation Authority airports, ensuring safe, efficient, customer-focused service delivery, operational excellence, stakeholder engagement, and regulatory compliance. This role requires strategic planning, strong leadership, deep operational expertise, adoption of best practices, and the ability to understand and manage complex airport systems and cross-functional teams. This position is responsible for various departments, including Airport Operations, Public Safety and Security, General Aviation, Human Resources, Enterprise Risk Management and Safety.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Direct all facets of airport operations including airfield management, terminal operations, ground transportation, guest experience, public safety, and emergency preparedness, Human Resources, Enterprise Risk Management and Safety.
- Ensure continuous 24/7 safe and efficient operations in compliance with all federal, state, and local regulations, including FAA, TSA, FDOT and environmental standards.
- Lead daily operations planning and implementation, supporting peak traffic demands and irregular operations (IROPS) management.
- Collaborate with the CEO and executive team to implement the airport's strategic vision, including capacity expansion, capital improvement programs, and sustainability initiatives.
- Drive performance metrics, KPIs, and benchmarking to optimize service delivery and operational efficiency.
- Lead initiatives to modernize airport technology, passenger experience, and operational resiliency.
- Lead a large, diverse team across multiple departments including Operations, Public Safety and Security, General Aviation, Guest Experience, Human Resources, Enterprise Risk Management and Safety
- Build a culture of accountability, inclusion, innovation, and continuous improvement.
- Mentor and develop leaders and staff.
- Serve as a key liaison with federal agencies (FAA, TSA, CBP, FDOT), airlines, concessionaires, contractors, local government, and other airport partners.

- Lead or participate in regular airline and tenant meetings to ensure operational alignment and address service issues.
- Oversee the airport's Emergency Operations Center (EOC) and ensure proper coordination of emergency response efforts during crises such as weather disruptions, accidents, or security events.
- Ensure preparedness plans, drills, and continuity of operations plans (COOP) are maintained and tested.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Stakeholder Engagement:** Ability to identify, understand, and involve members of the community who have a stake in the outcome of the strategic plan; Able to take a comprehensive approach that includes ongoing communication, listening, and collaboration.
- **Business Alignment:** Ability to link an organization's structure and resources with its strategy and business environment.
- **Strategic Forecasting**: Ability to analyze historical data, market trends, and other relevant factors to develop multiple potential future scenarios based on different assumptions and variables to assess potential impacts and prepare contingency plans.
- **Strategic Vision:** Creates a vision for the organization and ensures the vision is understood and supported; Driving a shared understanding of a long-term perspective and opportunities for the organizations.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Master's Degree in Aviation Management, Business Administration, or a related field.

- Ten (10) or more years of proven track record in senior leadership roles within the aviation industry, with a focus on airport operations and customer service.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Extensive knowledge of the aviation industry, including airport operations, regulations, safety standards, and emerging trends.
- Skill in budget planning, financial analysis, and identifying cost-saving opportunities to optimize operational efficiency.
- In-depth knowledge of customer service best practices and methods for measuring and improving customer satisfaction.
- Knowledge of local and international aviation regulations, with the ability to ensure compliance and navigate regulatory changes.
- Ability to think strategically, set clear goals, and develop effective strategies for achieving them.
- Knowledge of the latest technologies and innovative solutions in aviation operations and customer service.
- Knowledge of stakeholder dynamics, including relationships with airlines, government authorities, vendors, and industry partners.
- Ability to think strategically, set clear goals, and develop and implement effective strategies to achieve them.
- Exceptional problem-solving skills to identify issues, analyze data, and develop innovative solutions to challenges.
- Ability to exercise sound judgment and decision-making, particularly in high-pressure situations.
- A customer-centric mindset with a passion for delivering outstanding passenger experiences and a commitment to continuous improvement.
- Financial analysis skills to manage budgets, assess cost-saving opportunities, and make data-driven decisions.
- Ability to manage and respond to crises and emergencies efficiently, ensuring the safety and satisfaction of passengers and employees.
- Understanding of the global aviation landscape and the ability to consider international factors in decision-making, especially for international airports.
- Ability to adapt to evolving industry trends, regulations, and customer preferences.
- Commitment to the organizational mission and guiding principles, with a focus on continuous improvement.
- Exceptional verbal, graphic, and written communication skills to convey messages clearly and persuasively.
- Ability to process complex information quickly and distill it into compelling and actionable messages.
- Outstanding interpersonal skills characterized by credibility, good judgment, honesty, and integrity in all interactions.
- Ability to manage change with flexibility and grace, demonstrating initiative to solve problems as they arise.
- Skill in anticipating, prioritizing, and managing tasks while respecting diversity and fostering an inclusive environment.

- Demonstrated effectiveness in people management and employee development, promoting growth and performance.
- Capacity to command respect and manage partnerships effectively, valuing honesty, accountability, and integrity.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Commercial Parking and Ground Transportation the Commercial Parking and Ground Transportation Manager is responsible for the day-to-day operations of the public parking, rental car, and ground transportation operations. The position assists in creating and enforcing policies and procedures as defined by agreements, the Ground Transportation Operations Manual, and Authority policies, standard procedures, and operating directives. The position also assists in preparing reports related to the parking revenue control system, parking trends, capacity and usage.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Manages and monitors the day-to-day functions of the parking operation with a focus on capacity management, rental car operation, and ground transportation operations, and serves as the Commercial Parking and Ground Transportation first point of contact.
- Team lead representing the team in meetings during the planning, implementation, and monitoring of selected construction and maintenance projects to minimize customer service and operational impacts.
- Assists with parking capacity analyses, consistently monitors parking capacities, and redirects customers to open parking spaces as needed using available tools.
- Drafts and revises emergency procedures and collaborates with other departments to be the team lead for emergency planning and selected response.
- Conducts monthly inspections of rental car company operation and assigned space to ensure compliance with agreement terms and conditions, safety, and aesthetics.
- Assists in overseeing the agreements for parking, rental cars, Transportation Network Companies and other ground transportation modes, with a particular focus on compliance and standards.
- Performs semi-annual audits of the parking operator to ensure compliance with the Parking Facilities Management Services Contract.
- Provides input regarding the annual parking fiscal year operating budget and assists with monitoring the parking expense budget.

- Regularly inspects the parking facilities to ensure they are maintained in a clean and safe condition, and that customer service standards are being met . -Makes recommendations for operational improvements and efficiencies.
- Acts as support for expense reports, Parking and Revenue Control System (PARCS), AVI, and other parking and ground transportation related reports.
- Collaborates with other Authority departments, in particular Operations, Maintenance, and Planning and Development, as needed and maintains excellent working relationships.
- Assists with revisions to policies, procedures, rules and regulations.
- Works closely with Enterprise Risk Management regarding damage claims and/or personal injury reports.
- Assists with customer service inquiries and/or complaints related to commercial parking and ground transportation.
- Reviews parking refund requests to ensure requests are resolved and meet response guidelines.
- Resolves internal requests, questions, and complaints frequently requiring analysis of situations to determine the best use of resources and proposing corrective actions.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

COMMERCIAL PARKING SYSTEMS MANAGER

GENERAL DESCRIPTION

Under the general direction of the Director of Commercial Parking and Ground Transportation, the Commercial Parking Systems Manager is responsible for overseeing the daily operations of the Authority's online booking system while providing essential support to the overall management of parking operations. This position engages in a diverse range of responsibilities, including active participation in all facets of the online booking system, ensuring its continuous enhancement, and leading initiatives for process improvements. This role will analyze industry best practices and emerging trends, develop strategic initiatives to optimize the booking system, and generate insightful reports that inform business decisions.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Benchmarks other online booking systems and analyze system data to identify opportunities for enhancements.
- Recommends and evaluates enhancements for both the front-end and back-end of the online booking system.
- Develops strategic initiatives, including loyalty programs, premium offerings, and revenue-enhancing opportunities.
- Acts as the primary point of contact for customers, addressing complaints, concerns and feedback related to parking products and the online booking system.
- Monitors and utilizes user feedback to track, report, and recommend actions to improve customer service.
- Collaborates with other departments to design, implement and review marketing and communication initiatives to ensure alignment on desired objectives
- Investigates and responds to customer requests for online booking system refunds.
- Ensures compliance and adherence to terms and conditions, making recommendations for improvement.
- Responsible for the day-to-day administration of the online booking system and insights into the parking operation and capacities
- Develops, manages, forecasts, and analyzes parking budgets.
- Assists with monthly financial reporting, including presentations and reports for executive management.

- Interprets various sources of data and converts findings into reports, dashboards, ideas, and actionable intelligence.
- Generates daily reports that facilitate decision-making and provide actionable intelligence.
- Provides analysis, data, and insights related to audits and business reviews.
- Serves as the subject matter expert for the online booking system and its performance.
- Collaborates with the Research Department on focus groups, surveys, and other customer feedback initiatives.
- Evaluates and reports on e-commerce industry best practices, with a focus on relevant airport e-commerce opportunities.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.

CONCESSIONS COMPLIANCE MANAGER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Airport Concessions, the Concessions Compliance Manager will support the Concessions program and related assignments. The Concessions Compliance Manager is responsible for assisting in creating and enforcing contractual requirements, assessing Concessionaires' and Service Providers' compliance as specified in Lease and Concessions contracts and the Concessions Handbook, policies and procedures as defined by the Tenant Work Permit process, and Authority policies, standard procedures, and operating directives. The Concessions Compliance Manager ensures all related concession operations are well staffed, clean, and safe at all times and that Concessionaires are in compliance with their agreements.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Manages and monitors the day-to-day concessions program operation, including the online ordering program, and is the Concessionaires first point of contact.
- Assists in managing the agreements for concessions, the Concessions Receiving and Distribution Center Management, and vending, with a particular focus on compliance and standards.
- Offers support in preparing the annual fiscal year operating budget.
- Makes recommendations for operational improvements and efficiencies.
- Works with the Concessionaires, leaders, outside agencies, other Airport tenants, and internal teams for inspections of all concession locations and support facilities; inspects for cleanliness, safety hazards, preventative maintenance.
- Creates, produces, obtains, and maintains compliance reports.
- Recommends enhancements to Performance Audits, Security and Operational violations and hours of operations.
- Collaborates with other Authority departments, to maintain excellent relationships throughout the Authority.
- Assists with customer service inquiries and/or complaints related to airport concessions.
- Assists with refund requests for the online ordering program to ensure requests are resolved.
- Resolves internal requests, questions, and complaints, frequently requiring analysis of situations to determine the best use of resources and proposing corrective actions.

- Provides support for the administration of the Concessions Recognition Program.
- Maintains, updates, and distributes department resources such as Concessionaire Handbooks, contact lists, menus, and performance plans.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.

CONTROLLER

GENERAL DESCRIPTION

Under the general direction of the Director of Finance, the Controller is responsible for managing the general ledger and accounting methodologies that facilitate the preparation of monthly, quarterly, and annual financial packages. This role oversees the completion of the Authority's financial package preparation and directs the monthly, quarterly, and year-end closing activities of accounts payable. Additionally, this position leads and supervises the accounting function for the Authority, including accounts payable, general ledger management, and audit management, while ensuring the integrity of financial controls and compliance with established procedures.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Directs the monthly, quarterly, and year-end closing activities of accounts payable to ensure timely and accurate financial reporting.
- Oversees the financial system general ledger, evaluating its effectiveness and recommending enhancements to senior management.
- Play a critical leadership role in testing and implementing upgrades to the financial management system, providing necessary training to staff.
- Ensures the integrity of financial controls over the Authority's books and records, ensuring compliance with established procedures.
- Manages the external financial audit process, serving as the primary contact for the audit team and ensuring smooth communication.
- Ensures accurate and timely flow of information to auditors, coordinating data requests and responding to inquiries effectively.
- Prepares assigned schedules and notes for financial statements, ensuring all information is accurate and complete.
- Manages and reviews the Authority's bank reconciliations prepared by staff to ensure accuracy and timeliness.
- Prepares and presents financial reports and analyses to senior management, offering insights and recommendations for decision-making.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.

- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree in Accounting, Finance or related field
- Six (6) years experience in accounting, finance or related field.
- Three (3) years supervisory experience.
- Or equivalent combination of education, training, and experience.
- Certified Public Accountant.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of accounting principles and Generally Accepted Accounting Principles (GAAP) to guide financial reporting and practices.

- Knowledge of professional and departmental standards for conducting comprehensive auditing programs, ensuring adherence to best practices.
- Knowledge of local, state, and federal laws, ordinances, and regulations related to the fiscal management of government agencies, ensuring compliance in all accounting practices.
- Ability to analyze transactions and financial reports, making appropriate corrections to entries as necessary to maintain accuracy.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.

CYBER SECURITY ENGINEER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Information Security Office, the Cyber Security Engineer provides support to management in areas of technical expertise with respect to industry standards and frameworks for IT systems, OT systems, and cloud technologies. This position is a part of a centralized team of systems administrators, systems engineers, application developers, and security analysts that create a standard set of requirements, technical designs, and recommended configurations necessary to design, implement and deploy security capabilities in partnership with a variety of internal and external partners. The Cyber Security Engineer works alongside the Information System Security Manager to maintain the accreditation on Applications, Enclaves, and Platform Information Systems.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Plans and designs security solutions and capabilities that enable the organization to identify, detect, protect, respond, and recover from cyber threats and vulnerabilities.
- Defines and develops security requirements using risk assessments, threat modeling, testing, and analysis of existing systems.
- Designs action plans for policy creation and governance, system hardening, monitoring, incident response, disaster recovery, and emerging cybersecurity threats.
- Utilizes a variety of security information and event management (SEIM), data loss prevention (DLP), intrusion prevention systems (IPS), and other tools in designs.
- Assists with technical direction in designing and implementing security solutions for corporate technical infrastructure and business applications.
- Leads technical engineering services to support and update existing security systems and works to automate processes related to security implementations, monitoring, and enforcement.
- Evaluates and implements security devices such as firewalls, Intrusion Detection System (IDS), IPS, threat correlation tools, vulnerability scanning tools, encryption capabilities, endpoint controls, and cloud technologies, develops test plan and implements rigorous testing prior to the rollout of new systems into the production environment.

- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Resilience:** Maintains performance and self-control under pressure or adversity. Views challenges as learning opportunities. Maintains confidence and clarity despite unforeseen circumstances.
- **Organizational Ownership:** Being accountable for the results of your actions. Effectively leading a team of collaborators. Proactively solving problems, improving processes without being asked, taking on challenging projects, and creating and implementing innovative solutions.
- **Decisiveness:** Thinking outside the box, taking appropriate risks when getting things done with available resources, and developing new ways to solve problems and achieve results.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

DIRECTOR OF AIR SERVICE DEVELOPMENT

GENERAL DESCRIPTION

Under the general direction of the Chief Commercial Officer, the Director of Air Service Development is responsible for directing strategic and tactical plans aimed at increasing flight operations to existing domestic and international markets while attracting new airlines and destinations. This role provides essential leadership by leveraging real-time business analytics and consumer data to inform both short-term and long-term strategies that enhance the airport's overall business objectives. The Director collaborates with various stakeholders to develop initiatives that drive growth and improve passenger services, ensuring that the airport remains competitive in the aviation industry. Additionally, this position plays a critical role in evaluating market trends and operational needs to align air service development efforts with the airport's strategic vision.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Directs the implementation and execution of strategies to attract airlines to the market and increase domestic and international flight operations.
- Manages the overall relationship between the Authority and airline commercial planning organizations.
- Serves as internal consultant supporting ongoing analysis related to commercial aviation topics.
- Provides strategic recommendations to Authority senior leadership.
- Responsible for regular reporting on traffic trends, both globally and domestically, to inform stakeholders (including the Authority's board) of current market performance.
- Develops and presents business case presentations to airline executives to promote air service opportunities.
- Plans and tracks all Air Service Development virtual and in-person meetings to ensure effective engagement with airline partners.
- Represents the Authority at airline and industry meetings, trade shows, and conferences related to air service development. Speaking roles may be required at industry events.
- Regularly engages with and provides analysis to key community partners including Destination Marketing Organizations, Economic Development Councils and Chambers of Commerce.
- Leads the implementation of Authority's Air Service Incentive Program (ASIP) to encourage airline participation, route expansion and entry of new airlines at TPA.

- Oversees the preparation of budget requests and business plans, managing the approved departmental budget effectively.
- Develops and maintains data sources to provide insightful analysis for both internal and external stakeholders.
- Develops and manages Customer Relationship Management (CRM) systems to enhance engagement and communication with airline partners and stakeholders.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Organizational Focus:** Applying a broad understanding of the industry, possibilities for the organization, and financial acumen; focusing on what the organization needs to do to succeed today and in the future; demonstrating and understanding longer-term trends when setting priorities; focusing on the sustainability of the organization.
- **Cultural IQ:** Fully understands and is able to apply our Cultural IQ philosophy. Consistently considers the cultural alignment of all decisions made; Intentionally seeks ways to reinforce our cultural beliefs through day-to-day operations; Contributes to achieving our key initiatives.
- **Developing Organizational Talent:** Thinking about the evolving needs of the organization and encouraging skill and individual development in light of this; fostering and promoting long-term learning to improve organizational and individual capability; focusing on developing skills and capabilities the organization will require in the future.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelors Degree in Business Administration, Economics, Marketing, Aviation Management, or related field.
- Eight (8) years experience in air service development or airline network planning or related field.
- Four (4) years supervisory experience.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Masters Degree in Business Administration.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of data tracking and analysis methods, with proficiency in word processing, spreadsheet, database, and presentation software.
- Knowledge of demographic, psychographic, and travel propensity data analysis,
- Knowledge of Customer Relationship Management (CRM) applications.
- Comprehensive knowledge of key airline network planning concepts, methodologies and strategies
- Knowledge of domestic and international airline passenger and air cargo operations, including network decision-making processes.
- Knowledge of airport business operations fundamentals and related federal regulations governing airport functions.
- Ability to function at a high level while engaging with airline executives and community organizations (including CEO and Board level).
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Frequent standing & walking

DIRECTOR OF AIRPORT CONCESSIONS

GENERAL DESCRIPTION

Under the general direction of the Vice President of Concessions and Commercial Parking, the Director of Airport Concessions is responsible for managing and overseeing the Authority's Concessions Program, which includes food and beverage, retail, advertising, passenger services, and vending across all airport terminals and properties. This position develops strategic plans to enhance the concessions program, generates budgets, forecasts, and preform, and evaluates all airport concession agreements to drive non-aviation revenues while prioritizing the Authority's ACDBE program goals. This role will monitor the financial performance and customer service standards of concession vendors, ensuring compliance with Authority guidelines, while also leading a team dedicated to delivering high-quality passenger experiences and maximizing airport revenue.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Oversees the Airport's Concessions program, managing all aspects including food and beverage, retail, advertising, sponsorships, vending, and passenger services to maximize revenue generation.
- Develops and manages the annual budget, forecasts, space planning, and design, as well as financial management analysis, merchandising, and product promotions.
- Identifies and promotes the optimal use of airport properties and spaces to enhance revenue potential and improve passenger experience.
- Directs the negotiation and oversight of all airport concession agreements in coordination with the Procurement and Legal departments to ensure compliance and effectiveness.
- Prepares and presents comprehensive reports on concessions performance, including insights and analysis of sales and revenue trends to various audiences.
- Supports long-term strategic plans for airport terminal facilities concessions.
- Conducts studies to evaluate new opportunities and assess the financial viability of capital projects supporting concession programs.
- Monitors customer service performance within the concessions program, conducting regular store walk-throughs to ensure compliance with signage, appearance, and cleanliness standards.
- Approves advertising copy, operational hours, and tenant improvements while ensuring contract compliance and overseeing necessary security inspections.

- Works closely with internal stakeholders on key projects, including the Master Plan, construction initiatives, and contract audits to align efforts and resources.
- Administers the third-party logistics management contract to optimize operations for concessionaires and the Authority.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Organizational Focus:** Applying a broad understanding of the industry, possibilities for the organization, and financial acumen; focusing on what the organization needs to do to succeed today and in the future; demonstrating and understanding longer-term trends when setting priorities; focusing on the sustainability of the organization.
- **Cultural IQ:** Fully understands and is able to apply our Cultural IQ philosophy. Consistently considers the cultural alignment of all decisions made; Intentionally seeks ways to reinforce our cultural beliefs through day-to-day operations; Contributes to achieving our key initiatives.
- **Developing Organizational Talent:** Thinking about the evolving needs of the organization and encouraging skill and individual development in light of this; fostering and promoting long-term learning to improve organizational and individual capability; focusing on developing skills and capabilities the organization will require in the future.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate**.**

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

DIRECTOR OF AIRPORT OPERATIONS AND EMERGENCY MANAGEMENT

GENERAL DESCRIPTION

Under the general direction of the Vice President of Operations, the Director of Airport Operations and Emergency Management is responsible for overseeing airfield operations, the Authority's Wildlife Program, and emergency management. This role involves directing airside operations' day-to-day safety, security, and efficiency while establishing strategic direction for preparing, mitigating, responding to, and recovering from incidents or emergencies. The Director collaborates with various stakeholders, including federal and state agencies, to ensure compliance with regulations and enhance the overall operational effectiveness of the airport. Additionally, this position involves leadership responsibilities, including staff development, and fostering a culture of safety and collaboration within the organization.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Ensures compliance with all applicable federal and state regulations while enforcing the Authority's operational policies, procedures, rules, regulations, and operating directives.
- Monitors airport operations to deliver safe and efficient services to all airport users.
- Serves as a key member of the Airport's incident management team during emergency responses, providing leadership and making critical decisions to resolve public unrest and manage equipment mobilization.
- Develops and implements changes and enhancements to operational procedures to continuously improve airport operations.
- Recommends improvements or expansions to policies, procedures, and facilities that enhance safety, resilience, and the customer service experience for passengers and airlines.
- Manages the budgets and resources effectively to support airport operations and emergency management initiatives.
- Acts as a liaison and principal representative of the Authority to the FAA, TSA, State of Florida, FDLE, Hillsborough County, and City of Tampa officials, facilitating communication and collaboration.
- Oversees all roles in the Emergency Operations Center (EOC) before, during, and after events, facilitating timely and comprehensive situation updates and damage assessments during emergencies.

- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

DIRECTOR OF AIRPORT PROPERTIES AND AIRLINE AFFAIRS

GENERAL DESCRIPTION

Under the general direction of the Vice President of Real Estate, the Director of Airport Properties and Airline Affairs represents the Authority as the facility owner and is responsible for the strategic planning, business management, and lease negotiations for the aviation properties portfolio at the Airport, including the Main Terminal, Airsides, and airfield out buildings throughout the Airport Properties. This role provides technical expertise in contract negotiation and drafting and will provide advice regarding all business and contract-related compliance activities affecting the Airport Properties. This position serves as the primary liaison between the Authority and its Airport Properties.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Serves as the primary liaison between the Authority, airlines, and Airport Properties tenants to facilitate effective communication and collaboration.
- Facilitates discussions among the Authority, airlines, and support companies to establish performance standards that enhance operational efficiency and passenger growth.
- Engages with aviation and non-aviation customers to address their contractual and facility needs, ensuring satisfaction and compliance.
- Collaborates with the Air Service Development department to attract new air service opportunities to the Authority.
- Leads discussions on facility and operational enhancements, supported by thorough financial analysis to ensure viability.
- Manages and oversees the support processes for airlines, addressing operational issues and enhancing airport operations.
- Negotiates resolutions to disputes between airport staff and tenants regarding the use and development of airport properties.
- Oversees capital requests from the Airline Fuel Committee and ensures compliance with business regulations.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.

- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

DIRECTOR OF COMMERCIAL REAL ESTATE

GENERAL DESCRIPTION

Under the general direction of the Vice President of Real Estate, the Director of Commercial Real Estate is responsible for the management and development of Real Estate for the Authority. The Director of Commercial Real Estate implements the Authority's real estate development strategy, provides advice regarding all real estate activities within the airport system, conducts negotiations, and monitors other potential areas that might present risk for each transaction and/or venture. This role develops, implements and manages a robust real estate program in alignment with current market opportunities, the Authority's Master Plans, and will strive to creatively maximize the use of available Authority land at Tampa International and General Aviation Airports. This role also provides the technical expertise in compliance with FAA, State of Florida, County and City standards.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Responsible for the overall success of the Commercial Real Estate Development Department for the Authority, including aeronautical, commercial, and industrial projects, and represents the organization, both internally and externally, by supporting the strategic direction and priorities, objectives, vision, mission and values of the Authority.
- Directs and conducts solicitations, negotiations and preparation of favorable lease agreements and contracts. Assists in the strategy, development and preparation for the conduct of negotiations as well as assisting in formulating policies which are applicable to this role.
- Identifies and builds strategic networks, community relationships and partnerships that could fit the Authority's real estate development strategy.
- Independently develop and analyze highly detailed pro formas, internal rate of return analyses, what if scenarios, and other financial analysis tools for identifying and evaluating development opportunities
- Prepare term sheets, structure and negotiate leases, ground leases, public-private partnerships, or other development agreements
- Ensure end-to-end project delivery including budgeting, procurement, contractor/vendor oversight, schedule adherence and project close out.
- Represents the Commercial Real Estate units interests at the Authority's Capital Development Committee Meetings

- Provides direction and mitigation strategies regarding real estate ventures and negotiations, while ensuring legal compliance with Federal, State, and local regulations.
- Manages the real estate budget by facilitating realistic forecasting, maintaining effective budgetary controls, constructing contingency plans to stay within budgetary constraints, reducing expenses and/or developing revenue generating opportunities.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with Authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable in-person attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

DIRECTOR OF COMMUNICATIONS

GENERAL DESCRIPTION

Under the general direction of the Vice President of Marketing, Communications and Strategy, the Director of Communications is responsible for overseeing the creation and execution of all communication materials for the Authority. This role involves acting as the primary spokesperson, managing media relations, and defending the organization against misinformation. The Director of Communications develops comprehensive communication strategies, anticipates messaging needs, and supervises the writing of press releases, communications plans, and other essential content. Additionally, the position plays a critical role in emergency and breaking news responses, ensuring timely and accurate information dissemination. By fostering strong relationships with internal and external stakeholders, the Director supports the overarching objectives of the Authority while monitoring industry trends and media coverage.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Serves as the primary spokesperson and media contact for the Authority, responding to media requests in a timely manner.
- Vets and schedules all media interview requests with the CEO and members of the Executive Team.
- Proactively seeks placement of stories about Tampa International Airport and the Authority in national, local, and industry publications while defending the organization against misinformation or inaccurate reporting.
- Edits and approves all written materials distributed by the department to ensure clarity and consistency, including press releases, online news stories and newsletter content.
- Anticipates internal and external messaging needs; research, write, and edit executive and stakeholder communications.
- Monitors social media and news coverage of the Authority and the industry, identifying trends and opportunities to promote airport initiatives or preemptively respond to issues.
- Drafts and ensures the execution of weekly and monthly communications plans aligned with the Authority's objectives.
- Maintains an updated Crisis Communications Plan and Department Policies and Procedures.
- Conducts public and internal presentations representing the Authority or department effectively.

- Serves as the Communications liaison for other Authority departments to foster collaboration and alignment.
- Develops communication strategies and plans for Authority-wide announcements to ensure consistent messaging across multiple platforms.
- Drafts and directs the annual Employee Town Hall run of show and content and other internal speaking events for the CEO and Executive Team.
- Manages all public records requests from members of the media, ensuring compliance with regulations and timely responses.
- Regular on-call duties in support of responsive communications and stakeholder engagement; emergency/breaking news response, including representing the Communications department in-person and virtually for Emergency Operations Center meetings and briefings; execution of crisis communications plan, stakeholder engagement, media inquiries, and feedback management.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Organizational Focus:** Applying a broad understanding of the industry, possibilities for the organization, and financial acumen; focusing on what the organization needs to do to succeed today and in the future; demonstrating and understanding longer-term trends when setting priorities; focusing on the sustainability of the organization.
- **Cultural IQ:** Fully understands and is able to apply our Cultural IQ philosophy. Consistently considers the cultural alignment of all decisions made; Intentionally seeks ways to reinforce our cultural beliefs through day-to-day operations; Contributes to achieving our key initiatives.
- **Developing Organizational Talent:** Thinking about the evolving needs of the organization and encouraging skill and individual development in light of this; fostering and promoting long-term learning to improve organizational and individual capability; focusing on developing skills and capabilities the organization will require in the future.

The decision to grant reasonable accommodation requests will be made case-by-case.

DIRECTOR OF ENTERPRISE APPLICATION SERVICES

GENERAL DESCRIPTION

Under the general direction of the Vice President of Information Technology, the Director of Enterprise Application Services is responsible for providing leadership, vision, and direction to the Enterprise Applications team, enabling cross-functional productivity among all Authority employees. This role oversees the applications group in optimizing cost, risk, and value throughout the application lifecycle, while also aligning with the Authority's strategic initiatives. The Director develops and executes technology roadmaps that facilitate a transition to the Cloud, drive agile transformation, and enhance user technology adoption.

***Requires availability for emergency call-in*.**

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Defines and manages the application portfolio; prepare roadmaps and long-term strategies for key products.
- Oversees assessments of the technical and business fitness of the Authority’s applications portfolio, including costs and risks.
- Recognizes and advances opportunities for leveraging the Authority's technology investments.
- Contributes to the overall technology strategy, architecture, and process improvements.
- Champions the adoption and maturation of Agile practices within enterprise application teams.
- Manages the enterprise applications budget and provide input for related budget administration.
- Oversees vendor/software selection, evaluation, and implementation, coordinating with Procurement and Legal.
- Maintains an inventory of the software portfolio to track usage and maximize vendor engagement benefits.
- Direct the planning, development, and implementation of core business applications and database management systems.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.

- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Organizational Focus:** Applying a broad understanding of the industry, possibilities for the organization, and financial acumen; focusing on what the organization needs to do to succeed today and in the future; demonstrating and understanding longer-term trends when setting priorities; focusing on the sustainability of the organization.
- **Cultural IQ:** Fully understands and is able to apply our Cultural IQ philosophy. Consistently considers the cultural alignment of all decisions made; Intentionally seeks ways to reinforce our cultural beliefs through day-to-day operations; Contributes to achieving our key initiatives.
- **Developing Organizational Talent:** Thinking about the evolving needs of the organization and encouraging skill and individual development in light of this; fostering and promoting long-term learning to improve organizational and individual capability; focusing on developing skills and capabilities the organization will require in the future.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate**.**

DIRECTOR OF ENTERPRISE RISK MANAGEMENT AND RECORDS COMPLIANCE

GENERAL DESCRIPTION

Under the general direction of the Vice President of Human Resources, Risk and Administration, the Director of Enterprise Risk Management and Records Compliance is responsible for overseeing the Authority's risk management strategies and record management functions. This position ensures that contractors, vendors, and tenants maintain adequate insurance coverage while managing property, automobile, liability, and workers' compensation claims on behalf of the Authority. The Director also implements loss prevention and inspection programs and facilitates safety training and compliance with regulatory standards. This role sets strategic goals for the Authority's records and information management function. This includes directing the retention, storage, and disposal of physical and electronic records while overseeing mailroom operations. The Director acts as a records management subject matter expert, guiding the development and execution of the agency's records management vision through effective strategic planning and program management.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Directs the Authority's records management program, mailroom operations.
- Maintains liaison with state archival officials to establish retention and disposal standards, ensuring compliance with public records laws and overseeing public records requests.
- Acts as a business liaison with other departments to ensure effective information management practices and compliance with relevant policies and regulations.
- Oversees claims-related activities to mitigate the Authority's exposure to risk, including claims and settlements.
- Develops and monitors the budget for the Records Compliance and Risk Management, forecasting needs for staffing, equipment, and supplies.
- Leads the safety training and loss control functions to reduce accidents and promote emergency preparedness to support Airport Safety initiatives.
- Directs the Authority's business continuity efforts, including the development, testing, and updating of contingency plans for critical business functions.
- Oversees facility inspections and the implementation of risk management policies and procedures in line with industry standards.
- Facilitates the research and assessments of internal and external risk factors, providing strategic recommendations for optimizing the Authority's insurance program.

- Supervises annual tabletop exercises for the Enterprise Risk Management department, ensuring readiness for potential risks and emergencies.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.

DIRECTOR OF FINANCE

GENERAL DESCRIPTION

Under the leadership of the Vice President of Finance, the Director of Finance is a highly experienced and results-driven position with expertise in public sector accounting, financial reporting, and compliance with government regulations. This position will oversee financial operations, streamline accounting processes, and ensure fiscal responsibility for the Aviation Authority. This role requires strong leadership and a strategic approach to ensure compliance with local, state, and federal financial regulations and responsible for overseeing the day-to-day management of the general ledger, ensuring accurate and timely recording of financial transactions. This Director oversees the preparation of budgets, financial planning, financial reporting, and provides strategic financial leadership to ensure efficient use of Authority funds. The Director collaborates with senior management, stakeholders, and external auditors to ensure fiscal responsibility, transparency, and accountability.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Reviews and provides feedback on the Capital Budget submissions from the Authority's Development Committee.
- Oversees the preparation and maintenance of the general ledger, ensuring all transactions are accurately recorded in accordance with GAAP.
- Ensures the integrity of financial data, reviewing journal entries, account reconciliations, and other reports for accuracy and completeness.
- Continuously evaluates and enhances the general ledger and reconciliation processes for efficiency, accuracy, and timeliness.
- Understands and maintains the Authority's 30-year financial model.
- Supports Authority's financial analytics initiatives, including project evaluation calculations, return on investment, and business unit financial modeling
- Performs budgeting, business planning, and actual calculations of rates and charges to the signatory airlines; determines and establishes airline rates, fees, and charges for all airlines.
- Oversees the preparation of financial statements, budgets, and reports in accordance with Generally Accepted Accounting Principles (GAAP) and Governmental Accounting Standards Board (GASB) standards.
- Ensures timely and accurate financial reporting to stakeholders, including government officials, auditors, and the public.

- Conducts financial analysis to identify trends, risks, and opportunities for cost-saving or efficiency improvements.
- Designs and implements robust internal controls over the general ledger and bank reconciliation processes to ensure accuracy and compliance with regulations.
- Reviews and monitors the internal control processes to prevent errors and fraud, ensuring that best practices are followed.
- Collaborates with auditors to ensure compliance with applicable standards and regulations.
- Ensures compliance with local, state, and federal regulations.
- Manages the Authority's cash flow and ensures sufficient liquidity to meet operational and capital planning needs.
- Oversees investments and debt management, ensuring compliance with relevant Bond Resolutions and laws.
- Assists with the preparation of the official statement and feasibility studies during bond or other debt issues.
- Verifies debt service transfer amounts with the master trustee on all revenue and PFC-backed bond issues.
- Directs payments of interest to trustees, fees to underwriters and letter of credit providers under the line of credit or other debt-related programs.
- Acts as a liaison between accounting and other departments, ensuring clear communication and collaboration on financial matters.
- Ensures that the accounting department operates efficiently, adhering to deadlines and regulatory requirements.
- Fosters a positive, collaborative environment and encourage professional development and career growth.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

DIRECTOR OF ITS ENTERPRISE OPERATIONS & CLIENT SERVICES

GENERAL DESCRIPTION

Under the general direction of the Vice President of Information Technology, the Director of ITS Enterprise Operations & Client Services is responsible for providing leadership, vision, and direction to the Information Technology (IT) Operations and customer support team, enabling cross-functional productivity among all Authority employees. This role oversees the day-to-day operations of the network infrastructure and customer support groups, including staffing, budgeting, and other essential leadership functions. The Director's primary responsibility is to ensure the effective operation of IT Operations and Support services, including Network Administration, Database Management, IT Helpdesk, and Desktop Support, while aligning all IT activities with the Authority's strategic objectives.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Ensure consistency and maintainability of existing network and infrastructure by implementing industry best practices and enforcing standard operating procedures for technology deployment and usage.
- Develops comprehensive IT strategy plans that encompass technical specifications, user requirements, technical design, network infrastructure, security protocols, and equipment requirements.
- Creates and updates IT policies and procedures in alignment with the Authority's organizational goals and objectives.
- Ensures that maintenance and updates to Authority network systems and infrastructure adhere to security standards in collaboration with the Information Security Office.
- Leads the vendor and hardware selection process, including evaluation and implementation, while engaging with Procurement and Legal for contract management and guidance.
- Monitors and analyzes IT operations to identify areas for improvement and implement solutions that enhance service delivery.

DIRECTOR OF PLANT OPERATIONS AND FACILITIES

GENERAL DESCRIPTION

Under the general direction of the Vice President of Maintenance, the Director of Plant Operations and Facilities manages maintenance operations for the Authority to ensure the safe, efficient, and reliable functioning of all airport facilities and systems. This role encompasses a wide range of maintenance responsibilities, including Electrical Distributions, HVAC and Mechanical Systems, Fire Alarm Protection and Building Maintenance, while fostering a culture of safety and innovation. Additionally, the Director develops departmental budgets, identifies necessary projects for upgrades, and promotes employee engagement and development to achieve operational excellence.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- **Leadership and Mentorship: Accountable for fostering a supportive environment for direct reports by providing individualized training tailored to job responsibilities, and actively engaging in mentorship programs that promote professional growth and career advancement.**
- **Performance Management: Conducts comprehensive evaluations of direct reports' work performance through transparent and constructive performance check-ins and appraisals. Implements necessary corrective actions or disciplinary measures when required, ensuring alignment with organizational goals and standards.**
- **Professional Standards Compliance: Ensures that all direct reports adhere to authority standards regarding personal appearance and conduct, cultivating a professional work environment that reflects the organization's values and commitment to excellence.**
- **Equipment and Resource Oversight: Oversees the maintenance, accountability, and optimal utilization of all equipment used by direct reports. Promotes adherence to established guidelines and operational efficiency while acting as a resource for all employees and construction subcontractors to minimize incidents and exposures.**
- **Budget Development and Management: Develops, manages, and strategically allocates the department's operations budget. Regularly assesses financial performance against budgetary goals and identifies areas for cost-saving initiatives without compromising service quality.**

- **Strategic Project Identification: Identifies, prioritizes, and advocates for necessary projects related to facility, equipment, and system replacements, ensuring alignment with the airport's long-term strategic goals and operational needs.**
- **Operational Excellence: Ensures the efficient operation and maintenance of all equipment and systems, implementing best practices and continuous improvement initiatives to enhance performance and service delivery.**
- **Leadership Support: Acts as the Vice President of Maintenance as needed, providing leadership continuity and strategic direction in their absence, while representing the maintenance department in executive-level discussions.**
- **Safety and Compliance Advocacy: Upholds and promotes all safety protocols and regulations within the maintenance department. Ensures that all team members are trained in the proper use of personal protective equipment (PPE) and are proactive in reporting potential hazards to maintain a safe working environment.**
- **Cultural Intelligence Development: Champions a culture of diversity, inclusion, and respect within the maintenance team. Fosters an environment that values different perspectives, encouraging collaboration and innovation among a diverse workforce.**
- **Team and Talent Development: Identifies and nurtures high-potential talent within the department through targeted development programs, succession planning, and career pathway initiatives, ensuring a robust pipeline of skilled professionals ready to meet future organizational needs.**
- **Regular and Reliable Attendance: Maintains regular and reliable attendance as a fundamental requirement of the position, demonstrating commitment and accountability to the team and organization.**

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

DIRECTOR OF AIRFIELD, GROUNDS AND SYSTEMS MAINTENANCE

GENERAL DESCRIPTION

Under the general direction of the Vice President of Maintenance, the Director of Airfield, Grounds and Systems Maintenance manages maintenance operations for the Authority to ensure the safe, efficient, and reliable functioning of all airport facilities and systems. This role encompasses a wide range of maintenance responsibilities, including aircraft boarding bridges, baggage handling, and fleet management, while fostering a culture of safety and innovation. Additionally, the Director develops departmental budgets, identifies necessary projects for upgrades, and promotes employee engagement and development to achieve operational excellence.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- **Leadership and Mentorship: Accountable for fostering a supportive environment for direct reports by providing individualized training tailored to job responsibilities, and actively engaging in mentorship programs that promote professional growth and career advancement.**
- **Performance Management: Conducts comprehensive evaluations of direct reports' work performance through transparent and constructive performance check-ins and appraisals. Implements necessary corrective actions or disciplinary measures when required, ensuring alignment with organizational goals and standards.**
- **Professional Standards Compliance: Ensures that all direct reports adhere to authority standards regarding personal appearance and conduct, cultivating a professional work environment that reflects the organization's values and commitment to excellence.**
- **Equipment and Resource Oversight: Oversees the maintenance, accountability, and optimal utilization of all equipment used by direct reports. Promotes adherence to established guidelines and operational efficiency while acting as a resource for all employees and construction subcontractors to minimize incidents and exposures.**
- **Budget Development and Management: Develops, manages, and strategically allocates the department's operations budget. Regularly assesses financial performance against budgetary goals and identifies areas for cost-saving initiatives without compromising service quality.**

- **Strategic Project Identification: Identifies, prioritizes, and advocates for necessary projects related to facility, equipment, and system replacements, ensuring alignment with the airport's long-term strategic goals and operational needs.**
- **Operational Excellence: Ensures the efficient operation and maintenance of all equipment and systems, implementing best practices and continuous improvement initiatives to enhance performance and service delivery.**
- **Leadership Role Support: Acts as the Vice President of Maintenance as needed, providing leadership continuity and strategic direction in their absence, while representing the maintenance department in executive-level discussions.**
- **Safety and Compliance Advocacy: Upholds and promotes all safety protocols and regulations within the maintenance department. Ensures that all team members are trained in the proper use of personal protective equipment (PPE) and are proactive in reporting potential hazards to maintain a safe working environment.**
- **Cultural Intelligence Development: Champions a culture of diversity, inclusion, and respect within the maintenance team. Fosters an environment that values different perspectives, encouraging collaboration and innovation among a diverse workforce.**
- **Team and Talent Development: Identifies and nurtures high-potential talent within the department through targeted development programs, succession planning, and career pathway initiatives, ensuring a robust pipeline of skilled professionals ready to meet future organizational needs.**
- **Regular and Reliable Attendance: Maintains regular and reliable attendance as a fundamental requirement of the position, demonstrating commitment and accountability to the team and organization.**

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Organizational Focus:** Applying a broad understanding of the industry, possibilities for the organization, and financial acumen; focusing on what the organization needs to do to succeed today and in the future; demonstrating and understanding longer-term trends when setting priorities; focusing on the sustainability of the organization.
- **Cultural IQ:** Fully understands and is able to apply our Cultural IQ philosophy. Consistently considers the cultural alignment of all decisions made; Intentionally seeks ways to reinforce our cultural beliefs through day-to-day operations; Contributes to achieving our key initiatives.
- **Developing Organizational Talent:** Thinking about the evolving needs of the organization and encouraging skill and individual development in light of this; fostering and promoting long-term learning to improve organizational and individual capability; focusing on developing skills and capabilities the organization will require in the future.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate**.**

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). DIRECTOR OF TERMINAL OPERATIONS AND GUEST EXPERIENCE

GENERAL DESCRIPTION

Under the general direction of the Vice President of Operations, the Director of Terminal Operations and Guest Experience oversees all operational flows at Tampa International Airport, ensuring both the terminal and airside operations run smoothly. This position monitors construction activities, vendor operations, ground transportation, and airline services while maintaining real-time communication with leadership and relevant stakeholders. Additionally, the Director acts as the airport's primary point of contact during off-hours, ensuring that TSA and CBP operations are efficient and that any issues affecting guest experience are promptly addressed.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Oversees all operational flows within the terminal and airside operations, ensuring safety and efficiency at Tampa International Airport.
- Conducts daily construction coordination meetings with contractors to facilitate effective communication and activity management.
- Ensures airport amenities and services meet customer experience standards, including operating hours and contractual obligations.
- Observes and reports on terminal activities daily, addressing and resolving situations that may negatively impact guest experience or the airport's reputation.
- Walks the terminal multiple times daily to verify optimal operational performance in the terminal and airside areas.
- Oversees TSA and CBP operations, ensuring stakeholder coordination and promptly addressing operational issues.
- Supports customer service initiatives, including volunteer programs, employee recognition, lost and found, and specialized programs for travelers with hidden disabilities.
- Identifies and manages irregular operations, providing assistance during delays, cancellations, and other incidents affecting terminal services.
- Monitors terminal roadways and curb zones to mitigate traffic control issues and enhance overall flow for passengers and vehicles.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.

- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

ENTERPRISE ASSET MANAGER

GENERAL DESCRIPTION

Under the general direction of the Director of Plant Operations and Facilities, the Enterprise Asset Manager is responsible for the strategic planning, management, and optimization of the airport's assets to ensure operational efficiency, safety, and compliance with regulatory standards. This role involves working closely with various departments to develop asset management strategies, implement best practices, and ensure the long-term sustainability of airport assets. The Enterprise Asset Manager plays a crucial role in enhancing the airport's operational performance and ensuring a seamless experience for passengers. The Enterprise Asset Manager shall utilize the computerized Enterprise Asset Management System (EAMS) to identify resources, analyze reports for operational assessments, streamline maintenance processes according to strategic plans, allocate appropriate resources, and ensure the completion of financial objectives for preventive and corrective maintenance is significant to the work.

SUPERVISES OTHERS:

FLSA STATUS:

ESSENTIAL FUNCTIONS

- Maintain a comprehensive inventory of all airport assets, including buildings, infrastructure, equipment, and vehicles.
- Partner with asset owners to verify that asset records are up-to-date and reflect accurate condition assessments.
- Oversee the lifecycle of assets, including acquisition, maintenance, and disposal.
- Develop and implement asset replacement and refurbishment plans based on lifecycle analysis.
- Participate in long-term strategic planning for airport development and Capital Improvement projects.
- Lead regular inspections and assessments of assets to evaluate their condition, performance, and compliance with safety standards.
- Utilize inspection findings to inform maintenance schedules and capital improvement projects.
- Develop and manage preventive maintenance programs to ensure optimal performance and longevity of assets.
- Coordinate with maintenance teams to schedule and prioritize maintenance activities.

- Prepare and manage the asset management budget, including maintenance and capital expenditure planning.
- Analyze financial performance related to asset management and identify cost-saving opportunities.
- Utilize asset management software and analytics tools to track performance metrics and generate reports for airport leadership.
- Analyze data to identify trends, inefficiencies, and opportunities for improvement in asset management practices.
- Work closely with airport operations, finance, maintenance, planning and development, IT and other departments to align asset management strategies with operational needs.
- Engage with external stakeholders, including contractors and regulatory agencies, as necessary.
- Provide training and support to staff involved in asset management and maintenance operations.
- Promote best practices in asset management throughout the organization.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's degree in Asset Management, Engineering, Business Administration, or related field.
- Six (6) years experience in asset management, facilities management or related field.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Previous experience in an airport or transportation environment leading asset management teams aligned with supporting the sustainable growth of asset management within the organization.
- Institute of Asset Management (IAM) certification, Certified Asset Management Professional (CAMP), or Project Management Professional (PMP) certification.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of asset management principles and practices, including asset acquisitions, retirements, and transfers.
- Knowledge and understanding of maintenance practices procedures, and techniques related to airport facilities, equipment, and systems.
- Knowledge of relevant regulations, standards, and codes governing airport maintenance operations, safety, and security.
- Knowledge of project management methodologies, including planning, scheduling, budgeting, and resource allocation.
- Strong analytical and problem-solving skills.
- Skills in using asset management software and data analysis tools.
- Ability to produce reports, showcasing the effectiveness and efficiency of asset management processes.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.

GENERAL DESCRIPTION

Under the general direction of a Fleet Supervisor, the Fleet Technician II performs inspections, maintenance, and both minor and major repairs on a variety of vehicles and equipment, including automotive, construction, agricultural, and small engine-powered equipment. This position guides subordinate mechanics, acting as a Lead Worker, and managing the operations of a small repair shop or garage when applicable. Additionally, the Fleet Technician II is responsible for completing maintenance reports and records and providing support to other trades based on operational needs.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Troubleshoots and diagnoses issues for various types of vehicles and equipment to determine necessary repairs.
- Performs minor and major repairs on vehicles and equipment, including disassembling, replacing, and overhauling various systems.
- Fabricates custom parts from metal and other materials as needed to support repair and maintenance activities.
- Offers technical assistance and guidance to mechanics to enhance their skills and support their work.
- Utilizes computer interfaces and diagnostic tools, including generic code scanners, to troubleshoot vehicle systems and obtain trouble codes.
- Conducts regular inspections of equipment and vehicles to identify maintenance needs and ensure optimal performance.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Collaboration:** Able to bring people together to leverage their skills, talents, and knowledge to achieve a common purpose; Creates synergy, resulting in a combined effort with greater results than those achieved by individuals.
- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Goal Orientation:** Being persistent and showing perseverance in achieving concrete and tangible results out of personal responsibility; getting optimum results from situations; being ready to take action and showing tenacity in case of obstacles or resistance.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Procedures, and Standards.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- High School Diploma or equivalent.
- Three (3) years experience repairing and maintaining mechanical equipment, such as automobiles, trucks, or lawn maintenance equipment.
- Emergency Vehicle Technician (EVT) Certification.
- Automotive Service Excellence (ASE) Certification, including A or T Series Brakes and Suspension.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of the principles, practices, methods, tools, materials, and equipment used in the maintenance and repair of mechanical systems, vehicles, and electronic systems.
- Knowledge of relevant codes, rules, regulations, and requirements pertaining to fleet maintenance and operations.
- Knowledge of occupational hazards and applicable safety regulations, standards, and equipment to ensure a safe working environment.
- Ability to communicate effectively orally and in writing.

- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Continuous standing & walking.
- Sitting up to 6 hours per day.
- Frequent lifting up to 50 lbs or more.
- Continuous bending, stooping, pushing, pulling, dragging.
- Reaching overhead, kneeling, crawling & climbing up to 6 hours per day.
- Typing up to 6 hours per day.
- Occasional exposure to extreme weather and noxious fumes.
- Continuous exposure to chemicals.
- Frequent exposure to insects.
- Navigate very frequently heights and confined areas.
- Continuous use of light truck.
- Continuous use of heavy equipment.
- Very frequent use of power tools.

The Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made on a case-by-case basis.

GA CAPITAL PROJECTS MANAGER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of GA Capital Projects, Business & Admin, the GA Capital Projects Manager is responsible for planning, organizing, directing, and executing the Capital Improvement Program (CIP) for the Authority's General Aviation airports. This role focuses primarily on overseeing facility rehabilitation projects, including the development of project management plans, budgets, and schedules while managing construction progress. The manager is involved in establishing all design elements as well as with evaluating project status to ensure deadlines are met and may recommend strategies such as resource reallocation or workflow adjustments to keep projects on track.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Develops and establishes design elements, including architectural, mechanical, and electrical specifications within project scopes.
- Reviews contract bids and inspect work performed by contractors to ensure compliance with specifications and contract integrity.
- Addresses any contract inadequacies by bringing them to management's attention and following up on corrective actions.
- Procures materials and supplies necessary for the timely completion of projects and maintenance activities.
- Prepares and maintains technical specifications for the acquisition of equipment and systems required for projects.
- Monitors construction progress and evaluates project status to ensure deadlines are met and objectives are achieved.
- Conducts regular safety assessments and quality inspections to enhance the safety and effectiveness of construction processes.
- Maintains accurate documentation of project activities, budgets, and timelines for auditing and reporting purposes.
- Participates in project meetings to provide updates, address concerns, and adjust project plans as necessary.

- Adheres to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee’s department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor’s degree in construction management, Engineering, Architecture, or related field.
- Four (4) years experience in airport operations management and maintenance, or related field.
- Two (2) years supervisory experience.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Bachelor's Degree in Construction Management, Engineering, Architecture, or a related field.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of FAA compliance requirements and FDOT rules and regulations affecting airport operations and maintenance.
- Knowledge of general aviation operations, safety standards, and industry best practices.
- Knowledge of emergency management principles and practices, including the development and implementation of emergency response plans.
- Knowledge of maintenance management processes, including budgeting, resource allocation, and performance monitoring.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Continuous standing, walking & sitting
- Occasional lifting up to 50 lbs
- Frequent bending, stooping, pushing, pulling & dragging
- Frequent reaching over head, kneeling, crawling & climbing
- Frequent typing
- Frequent exposure to extreme weather
- Occasional exposure to noxious fumes, chemicals, insects, and excessive noise
- Navigate occasionally heights and confined areas

GA OPERATIONS MANAGER

GENERAL DESCRIPTION

Under the direction of the Senior Manager, Operations and Maintenance, the General Aviation Operations Manager plays a crucial role in ensuring the safe and compliant operation of all airfield activities in accordance with FAA, FDOT, and other regulatory bodies. This multifaceted position involves overseeing self-inspection programs, coordinating construction and maintenance efforts, and engaging with governmental agencies to foster collaboration within the airport community. In addition to ensuring adherence to safety regulations, this role actively participates in incident and accident investigations, conducts specialized inquiries, and reviews proposed airport grant-in-aid initiatives.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Conduct thorough inspections of runways, taxiways, ramps, and associated areas to ensure compliance with FAA, FDOT, and City and State regulatory standards, maintaining the safety of aircraft operations.
- Lead terminal ramp safety inspections, Foreign Object Debris (FOD) inspections, and other critical assessments to uphold high safety standards across the airfield.
- Collaborate with the Maintenance Operations Manager to coordinate daily airfield activities, including maintenance work, construction projects, and the movement of aircraft and vehicles.
- Drive the implementation and enforcement of the general aviation compliance program through established policies and procedures aligned with industry best practices.
- Monitor airport tenants and leased areas to proactively identify and address potential violations of Airport Rules and Regulations.
- Ensure strict compliance with Federal and State airport certification regulations to maintain the airport's status as a safe and reliable aviation hub.
- Serve as the primary representative for General Aviation in airport projects, effectively communicating departmental perspectives and operational goals.
- Prepare and present reports on safety inspections, compliance issues, and tenant management to relevant stakeholders and authorities.
- Collaborate with governmental agencies and other stakeholders to ensure compliance with regulatory requirements and facilitate effective communication.

- Participate in incident investigations and assessments, providing insights and recommendations for operational improvements.
- Monitor and analyze airfield operations data to identify trends and areas for improvement, making informed decisions to enhance safety and efficiency.
- Coordinate with external vendors and contractors to ensure all work performed meets regulatory standards and operational expectations.
- Support the development of strategic initiatives that promote the growth and safety of General Aviation operations within the airport.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions, admitting mistakes and learning from them, and assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). GUEST EXPERIENCE REPRESENTATIVE

GENERAL DESCRIPTION

Under the general direction of the Guest Experience Supervisor, the Guest Experience Representative (GER) plays a vital role in providing exceptional customer service in a community-facing environment at Tampa International Airport. This position assists guests, passengers, and tenants by offering wayfinding, educational support, and information about airport facilities and services. The GER also conducts airport tours, monitors safety systems, and actively engages with the public at various events, ensuring a positive experience for all airport users while promoting the Authority's mission and values.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Provides direction and assistance to incoming international passengers in the Federal Inspection Station, formulating detailed reports on significant observations for the Aviation Authority staff.
- Follows up on reported operational issues, ensuring timely resolutions and that problems have been corrected effectively.
- Offers information and assistance to airport guests regarding facility usage, available services, local attractions, and flight information.
- Conducts educational walking and bus tours of the airport terminal and airfield for schools, groups, and community organizations, enhancing public knowledge and engagement.
- Monitors escalators, elevators, shuttle cars, and the monorail system for accidents and outages, reporting incidents immediately and taking appropriate action when necessary.
- Responds to emergency situations, taking operational direction from leadership as needed to ensure public safety and effective crisis management.
- Provides VIP tours as necessary, ensuring a personalized and exceptional experience for high-profile guests.
- Represents the Authority at school fairs, festivals, and community events, maintaining a booth or display to provide literature and promotional items.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Job Knowledge:** Has adequate knowledge of the fundamentals of the job.
- **Work Quality:** Adequate completion of work that is neat and accurate; rarely needs correction.

- Or equivalent combination of education, training, and experience.
- Green Industries Best Management Practices Certificate required within six (6) months of hire.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- FNGLA Certified Horticulture Professional (FCHP).
- Certified Landscape Maintenance Technician (FCLMT).

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of interior landscaping design principles, including plant selection, arrangement, and care techniques to create visually appealing and sustainable environments.
- Knowledge of greenhouse operations, including propagation, irrigation systems, temperature control, and pest management to ensure plant health and vitality.
- Knowledge of plant biology, growth patterns, nutrient requirements, and common issues such as diseases and pests, along with effective problem-solving skills.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Continuous standing and walking.
- Frequent lifting up to 50 lbs or more.

- Very frequent bending and stooping.
- Continuous pushing, pulling & dragging.
- Very frequent reaching over-head, kneeling, crawling & climbing.
- Occasional typing.
- Continuous exposure to chemicals & insects.
- Occasional exposure to excessive noise.
- Occasional use of car/light truck.
- Occasional use of power tools.

The Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made on a case-by-case basis.

HORTICULTURE TECHNICIAN II

GENERAL DESCRIPTION

Under the general direction of a Grounds Supervisor, the Horticulture Technician II manages and maintains the interior greenery, creating a welcoming and aesthetically pleasing environment for passengers and visitors. The Horticulture Technician II is responsible for the design, installation, and management of interior landscaping in the Main Terminal and Airsides, including employee training and scheduling. This position also involves collaboration with other departments for events, material estimation for landscaping tasks, and acting as the main contact for setup requests, all aimed at improving the airport's ambiance and addressing operational issues.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Guides team in designing, installing, and managing interior landscaping displays throughout the Main Terminal and Airsides to create an inviting atmosphere.
- Schedules and trains employees involved in interior landscaping and greenhouse operations to ensure high-quality performance.
- Sources and implements floral and plant arrangements that enhance the aesthetic appeal of the airport's interior spaces.
- Estimates materials and determines operational needs for various interior landscaping tasks to ensure timely execution.
- Serves as the primary point of contact for coordinating landscaping and floral setup requests with other airport departments and stakeholders, ensuring seamless operations.
- Conducts routine inspections of interior landscaping to assess plant health and overall appearance, making recommendations for improvements as needed.
- Manages inventory of plants, materials, and supplies necessary for ongoing landscaping projects and maintenance.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities, as necessary.

COMPETENCIES

- **Collaboration:** Able to bring people together to leverage their skills, talents, and knowledge to achieve a common purpose; Creates synergy, resulting in a combined effort with greater results than those achieved by individuals.
- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Goal Orientation:** Being persistent and showing perseverance in achieving concrete and tangible results out of personal responsibility; getting optimum results from situations; being ready to take action and showing tenacity in case of obstacles or resistance.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations

HUMAN RESOURCES BUSINESS PARTNER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Employee Relations & Talent Acquisition, the Human Resources Business Partner performs general work in key functional areas of Human Resources (HR). This role involves supporting the HR department by processing documents, maintaining personnel records, and responding to employee inquiries while ensuring a high level of customer service. The HR Business Partner is responsible for supporting the full-cycle recruiting process, coordinating employee engagement events, and participating in the development and implementation of HR policies and procedures. Additionally, the position involves data management tasks such as creating reports from the HRIS and ensuring data integrity within the applicant tracking system.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Provides support to the HR department by processing documents, handling records requests, and maintaining personnel records.
- Triages incoming HR requests, addressing employee questions, and escalating complex issues to the appropriate HR subject matter expert.
- Completes cross-training across all HR disciplines to offer functional overflow support during high-volume periods in benefits, recruiting, and employee relations.
- Participates in the revision, development, and implementation of HR policies, procedures, and forms across all functional areas.
- Assists with employee engagement events to foster a positive workplace culture and enhance employee satisfaction.
- Supports full-cycle recruiting efforts, including job advertising, attending job fairs, facilitating candidate interviews, screening applications, coordinating pre-employment testing, and conducting onboarding for new hires.
- Ensures the accuracy and completeness of data in the applicant tracking system to support recruitment efforts.
- Assists in gathering data for compensation analysis to support equitable pay practices.
- Prepares and revises job classifications to accurately reflect position responsibilities and requirements.
- Assists with wellness initiatives and coordinates related events to promote employee well-being.

- Assists in the coordination and planning of open enrollment, wellness initiatives, and related events.
- Prepares, updates, and maintains documentation related to employee benefits and leave management.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Technical Focus:** Maintaining up-to-date knowledge within one's field of expertise; Applying technical skills and knowledge.
- **Problem Solving:** Having the ability to identify problems and issues of varying complexities and to find effective solutions with few guidelines.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.

- Schedules and performs preventative maintenance on HVAC systems to enhance operational efficiency and extend equipment lifespan.
- Prepares necessary drawings and sketches for installation and repair projects to assist maintenance personnel.
- Operates and utilizes refrigeration gauges, volt/ohm meters, vacuum pumps, recovery systems, and welding equipment safely and effectively.
- Collaborates with the HVAC Supervisor to estimate materials and equipment needs for upcoming projects.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Adaptability:** Maintaining effectiveness in reaching set goals by adapting to changed circumstances, tasks, responsibilities, and people; adjusting one's own behavior in light of changing conditions.
- **Communication:** Shaping communication to the needs of the audience; conveying ideas and opinions clearly to others; listening attentively to others; using appropriate grammar and vocabulary.
- **Task Management:** Listens and checks before acting; tries to understand the people and data before making a judgment; follows established processes.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Procedures, and Standards.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- High School Diploma or equivalent.
- Three (3) years experience in the maintenance, repair and installation of HVAC Systems.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Certified HVAC Technician.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of HVAC equipment, chiller plants, building automation systems, cooling towers, and fire protection piping.
- Knowledge of codes, rules, regulations, and requirements relevant to safety and operational standards in HVAC systems.
- Knowledge of occupational hazards and safety regulations to ensure a safe working environment for all staff.
- Ability to communicate effectively orally and in writing.

- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Standing and walking up to 6 hours per shift.
- Occasional sitting.
- Lifting up to 50 lbs or more.
- Frequent bending, stooping, pushing, pulling, dragging & reaching overhead.
- Occasional kneeling & crawling.
- Climbing up to 6 hours per shift.
- Occasional Typing.
- Occasional exposure to extreme weather, noxious fumes, chemicals & Insects.
- Navigate very frequently heights and confined areas.
- Frequent exposure to excessive noise.
- Very frequent use of car/light truck.
- Occasional use of heavy equipment.
- Frequent use of power tools.

The Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made on a case-by-case basis.

HVAC TECHNICIAN III

GENERAL DESCRIPTION

Under the general direction of the HVAC Supervisor, the HVAC Technician III oversees both skilled and unskilled trades and maintenance personnel engaged in the installation, troubleshooting, and repair of HVAC systems and related equipment within buildings and facilities. This position involves working with chiller plant operations, automated building control systems, and mechanical components. The HVAC Technician III is responsible for prioritizing work to address critical issues, providing on-the-job training to junior technicians, and oversee contractors during project inspections.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Leads and coordinates the maintenance, repair, and construction of HVAC systems and related equipment within buildings and facilities.
- Plans, schedules, assigns, and reviews work for team members, ensuring efficient workflow and task completion.
- Monitors and inspects work activities to ensure compliance with plans, specifications, codes, and safety standards.
- Plans job layouts and estimates materials, determining necessary equipment and tools for HVAC maintenance tasks.
- Creates drawings or sketches as required to assist maintenance personnel in performing work assignments.
- Schedules and oversees preventive maintenance activities to enhance operational effectiveness and extend the lifecycle of HVAC assets.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Collaboration:** Able to bring people together to leverage their skills, talents, and knowledge to achieve a common purpose; Creates synergy, resulting in a combined effort with greater results than those achieved by individuals.
- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Goal Orientation:** Being persistent and showing perseverance in achieving concrete and tangible results out of personal responsibility; getting optimum results from situations; being ready to take action and showing tenacity in case of obstacles or resistance.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Procedures, and Standards.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- High School Diploma or equivalent.
- Four (4) years experience in the installation, maintenance, and repair of HVAC systems.
- Or equivalent combination of education, training, and experience.
- Certified HVAC Technician.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of HVAC equipment, chiller plants, building automation systems, cooling towers, and fire protection piping.
- Knowledge of codes, rules, regulations, and requirements relevant to safety and operational standards in HVAC systems.
- Knowledge of occupational hazards and safety regulations to ensure a safe working environment for all staff.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority courteously and professionally.

PHYSICAL ABILITIES

- Standing and walking up to 6 hours per shift.
- Occasional sitting.
- Lifting up to 50 lbs or more.
- Frequent bending, stooping, pushing, pulling, dragging & reaching overhead.
- Occasional kneeling & crawling.

INFORMATION SECURITY ANALYST II

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of the Information Security Office, the Information Security Analyst II is responsible for supporting key vulnerability management and security information event management functions. This role involves identifying, analyzing, and remediating potential environmental threats, requiring a solid understanding of current and emerging vulnerabilities and threats in the security industry, as well as key business and technological processes. The Information Security Analyst II performs essential client-facing managed security services activities.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Incident Response: Assisting in the detection and response to security incidents by following established protocols to mitigate risks and restore security.
- Vulnerability Assessment: Performing routine vulnerability scans and assessments to identify potential weaknesses in the organization's systems and networks.
- Security Audits: Participating in internal and external security audits to ensure compliance with security policies and regulatory requirements.
- Documentation and Reporting: Maintaining detailed documentation of security incidents, findings from audits, and vulnerability assessments, and generating reports for management.
- User Education and Awareness: Assisting in developing and delivering security awareness training for employees to promote best practices in information security.
- Policy Implementation: Helping to implement and enforce security policies, procedures, and guidelines within the organization.
- Must be able to participate in an on-call rotation or be on-call.
- Research and Analysis: Staying up-to-date with the latest security threats, vulnerabilities, and technology trends to inform security practices.
- Collaboration: Working closely with other IT and security team members to enhance the organization's overall security posture.
- Technical Support: Providing support for security tools and technologies, including firewalls, intrusion detection systems, and antivirus software.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Technical Focus:** Maintaining up-to-date knowledge within one's field of expertise; Applying technical skills and knowledge.
- **Problem Solving:** Having the ability to identify problems and issues of varying complexities and to find effective solutions with few guidelines.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Procedures, and Standards.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Associate's Degree, or equivalent experience
- One (1) years of security knowledge and technical experience in a diverse range of IT systems – specifically with PCI compliance, logging solutions, vulnerability management solutions, Microsoft enterprise technologies, Cisco enterprise technologies, and Redhat Linux technologies, PCI compliance, logging solutions, vulnerability management solutions.
- At least one technical certification obtained in the last three years from the following organizations: Cisco, Microsoft, or CompTIA. Or equivalent combination of education, training, and experience.
- ~~Or equivalent combination of education, training, and experience.~~
- Must possess a valid Florida Driver License.
- Must have the ability to pass a background check.

PREFERRED QUALIFICATIONS

- A Certified Information Systems Security Professional (CISSP) certification.

Knowledge

- Fundamentals of Information Security: Understanding core concepts such as confidentiality, integrity, availability, and the principles of risk management.
- Network Security: Basic knowledge of network protocols, firewalls, VPNs, and intrusion detection/prevention systems (IDS/IPS).
- Operating Systems: Familiarity with various operating systems, especially Windows and Linux, including their security features.
- Security Frameworks and Standards: Awareness of standards and frameworks like NIST, ISO 27001, and PCI DSS.
- Threat Landscape: Understanding common threats, vulnerabilities, and attack vectors (e.g., malware, phishing, social engineering).
- Incident Response: Basic principles of incident detection, response, and reporting.
- Compliance and Regulatory Requirements: Knowledge of relevant laws and regulations affecting information security, such as GDPR, HIPAA, etc.

Skills

- Analytical Skills: Ability to analyze security incidents and identify patterns or anomalies in data.
- Technical Proficiency: Familiarity with security tools (e.g., SIEM, antivirus, vulnerability scanners) and basic scripting or programming skills (e.g., Python, Bash).
- Communication Skills: Clear verbal and written communication skills to convey security concepts and incidents to non-technical stakeholders.
- Problem-Solving Skills: Ability to troubleshoot and resolve security issues efficiently.
- Attention to Detail: Meticulousness in analyzing logs and reports to identify potential security threats.

Abilities

- Team Collaboration: Ability to work effectively in a team environment, collaborating with IT and security professionals.
- Continuous Learning: Willingness to stay updated on the latest security trends, threats, and technologies.
- Time Management: Ability to prioritize tasks and manage multiple assignments under tight deadlines.
- Ethical Judgment: Understanding the importance of ethical behavior in handling sensitive information and security matters.
- Adaptability: Ability to adapt to new tools, technologies, and processes in a rapidly changing field.

PHYSICAL ABILITIES

- Occasional standing & walking
- Sitting up to 6 hours per day
- Continuous typing

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

ITS CLOUD ARCHITECT

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Enterprise Service Delivery, the ITS Cloud Architect is responsible for designing, implementing, and maintaining cloud and hybrid infrastructure solutions. This role focuses on developing and executing cloud strategies, managing workloads in the cloud, and supporting a hybrid environment that includes both on-premise and cloud workloads. Additionally, the ITS Cloud Architect assists with on-premise responsibilities, including the installation and configuration of systems and troubleshooting hardware and software issues. This position addresses complex technical challenges with minimal supervision.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Develops and implements cloud strategies for clients, including migration plans, cost optimization strategies, and security best practices.
- Designs, deploys, and manages workloads in public cloud environments such as AWS, Azure, or Google Cloud Platform to meet organizational needs.
- Configures and manages hybrid cloud environments, ensuring seamless integration of on-premise infrastructure and cloud-based resources.
- Ensures the reliability, scalability, and security of cloud-based systems and applications, implementing necessary safeguards.
- Monitors infrastructure performance and troubleshoots issues proactively to maintain optimal system functionality.
- Implements automation tools and scripts to streamline cloud deployment and management processes, enhancing operational efficiency.
- Assists with the troubleshooting, maintenance, and repair of operating systems and applications, providing timely support to users.
- Assists with backup and recovery processes to ensure data integrity and business continuity.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Resilience:** Maintains performance and self-control under pressure or adversity. Views challenges as learning opportunities. Maintains confidence and clarity despite unforeseen circumstances.
- **Organizational Ownership:** Being accountable for the results of your actions. Effectively leading a team of collaborators. Proactively solving problems, improving processes without being asked, taking on challenging projects, and creating and implementing innovative solutions.
- **Decisiveness:** Thinking outside the box, taking appropriate risks when getting things done with available resources, and developing new ways to solve problems and achieve results.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). - Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor Degree in Computer Science, Computer Information Systems, Business Administration, Mathematics, or a related field.
- Five (5) years of information technology experience in advanced support of cloud platforms and solutions, hybrid workloads, servers, systems, software, peripherals and storage technology.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Microsoft Certified Solutions Expert (MCSE): Cloud Platform and Infrastructure, CompTIA Network+, CompTIA Cloud+, CompTIA Security+.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge public cloud platforms such as AWS, Azure, or Google Cloud Platform.
- Knowledge of server virtualization technologies, and backup and restore technologies
- Knowledge of server clustering and high availability server environments.

- Knowledge of administration of Linux-based systems.
- Knowledge of vulnerability identification and remediation techniques and applications to maintain system security.
- Knowledge of datacenter configuration, and storage system technologies, including iSCSI, Fiber Channel, DAS, and NAS, to enhance data management capabilities.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Standing, walking & sitting up to 6 hours per day
- Frequent lifting up to 50 lbs
- Frequent bending, stooping, pushing, pulling, dragging, climbing, reaching over-head, kneeling & crawling
- Continuous typing
- Occasional use of car/light truck
- Occasional use of power tools

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

ITS DESKTOP TECHNICIAN

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Client & Field Services, the ITS Desktop Technician is responsible for delivering technical support for hardware, software, and peripheral devices within the Authority. This position involves resolving work problems and tasks related to the Service Desk, desktop support, printers, mobile devices, applications, and network support, typically under limited supervision from more senior Information Technology (ITS) staff. The Desktop Technician plays a crucial role in ensuring efficient IT operations and user satisfaction by addressing technical issues promptly and effectively. Additionally, this role may involve participating in limited scope IT project work, providing opportunities for professional development within the IT support team.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Installs and configures new hardware and software systems to ensure proper setup and functionality.
- Delivers prompt and efficient technical support to end-users and peers via phone, email, instant messaging, or in person to resolve hardware, software, network connectivity, and system error issues.
- Responds to and resolve technical issues escalated from the Service Desk or other support teams, ensuring effective problem resolution.
- Proactively identifies recurring issues and implements solutions before they escalate into larger problems.
- Escalates complex or unresolved issues to the appropriate IT teams for further investigation and resolution.
- Conducts user training and orientation sessions to promote new technologies, IT best practices, and enhance end-user productivity.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Technical Focus:** Maintaining up-to-date knowledge within one's field of expertise; Applying technical skills and knowledge.
- **Problem Solving:** Having the ability to identify problems and issues of varying complexities and to find effective solutions with few guidelines.
- **Teamwork;** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Associate Degree in Computer Science, Computer Information Systems, Business Administration, Mathematics, or a related field.
- Four (4) years of information technology experience in basic to intermediate user support of desktops, applications, mobile devices, printers, peripherals, and cabling.
- One (1) or more of the following may be required, CompTIA A+, CompTIA Network+, CompTIA Security+, CompTIA Server+, ITIL Foundation, Apple Certified Mac Technician (ACMT), HDI Desktop Support Technician, Cisco Certified Entry Networking Technician (CCENT), Microsoft Certified Solutions Associate (MCSA), or Microsoft Certified Professional.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- One (1) or more of the following; CompTIA A+, CompTIA Network+, CompTIA Security+, CompTIA Server+, ITIL Foundation, Apple Certified Mac Technician (ACMT), HDI Desktop Support Technician, Cisco Certified Entry Networking Technician (CCENT), Microsoft Certified Solutions Associate (MCSA), or Microsoft Certified Professional.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of standard office practices, procedures, policies, personal computers, operating systems, and related software applications.
- Knowledge of Microsoft Office products.
- Ability to communicate effectively orally and in writing.

- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Standing, walking & sitting up to 6 hours per day
- Frequent lifting up to 50 lbs
- Frequent bending, stooping, pushing, pulling, dragging, climbing, reaching over-head, kneeling & crawling

ITS NETWORK ENGINEER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of IT Infrastructure, the ITS Network Engineer is responsible for the installation and configuration of switches, routers, firewalls, and associated components to ensure the smooth operation of all Authority network systems. This role handles basic network-related projects independently, addressing advanced work problems and tasks with minimal supervision. Additionally, the ITS Network Engineer serves as the initial escalation point for unresolved issues from lower support tiers, focusing on areas such as switches, routers, firewalls, controllers, and access points.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Performs basic setup, installation, and configuration of operating systems, including networking hardware and software components.
- Designs, builds, and implements functional network infrastructure, including LAN, WLAN, and WAN to support organizational needs.
- Monitors, diagnoses, and resolves common operating system problems to maintain system performance and reliability.
- Assist with troubleshooting, maintenance, and repair of operating systems and applications, ensuring minimal disruption to users.
- Supports backup and recovery processes to protect data integrity and ensure business continuity.
- Assists in evaluating and recommending various software and hardware solutions to meet user needs and enhance operational effectiveness.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Associate's Degree in Computer Science, Computer Information Systems, Business Administration, Mathematics, or a related field.
- Two (2) years of information technology experience in advanced support of switches, routers, firewalls, controllers, access points, network appliances and monitoring tools.
- CompTIA Network+ or Cisco CCNA.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Cisco CCIE.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of network switching environments, routers, wireless technologies, and Voice over Internet Protocol (VoIP) systems.
- Knowledge of IP schemas and subnetting and design.
- Knowledge of vulnerability identification and remediation techniques to maintain network security and integrity.
- Knowledge of datacenter configuration, and storage system technologies, including iSCSI, Fiber Channel, DAS, and NAS, to enhance data management capabilities.
- Ability to communicate effectively orally and in writing.

ITS PASSENGER PROCESSING SPECIALIST I

GENERAL DESCRIPTION

Under the general direction of the Passenger Processing Manager, the ITS Passenger Processing Specialist I is an entry-level position that performs technical IT work on various passenger processing applications and innovation projects, managing the complexities of the Common Use and Passenger Processing environment. The ITS Passenger Processing Specialist I provides support for desktop, peripheral, and mobile devices, as well as common-use hardware and software, including E-Gates and self-service kiosks.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Provides operational and technical support to clients regarding various equipment and passenger processing systems.
- Assists with ongoing maintenance and deployment of new hardware and software throughout the device life cycle.
- Provides on-site service support, installation, and configuration for all relevant devices, including E-Gates and kiosks.
- Acts as an escalation point for the Tier 2 group concerning application or hardware-related inquiries, including Microsoft Office, Windows OS, and Citrix-based solutions.
- Performs imaging of desktop and laptop computers.
- Prepares workstations by setting up and configuring laptops and desktops for end-users.
- Interfaces with hardware vendors to facilitate necessary repairs and installations for equipment.
- Answers Service Desk phone calls to assist clients during non-supported hours, providing essential technical support.
- Supports and maintain user account information, including rights, security settings, and systems group assignments as needed.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Technical Focus:** Maintaining up-to-date knowledge within one's field of expertise; Applying technical skills and knowledge.
- **Problem Solving:** Having the ability to identify problems and issues of varying complexities and to find effective solutions with few guidelines.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

ITS SUPPORT SPECIALIST

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Client & Field Services, the ITS Support Specialist provides technical support for hardware and software services to the Authority. This position is tasked with supporting the resolution of basic incidents and requests under close supervision in one or more of the following areas: service desk support, desktop and peripheral support, mobile device support, application support, airline common use hardware and software support, and network support.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Serves as the first point of contact for internal users over the phone, email, or in-person.
- Provides prompt technical support to end-users and peers via phone, email, instant messaging, or in person while handling all communications efficiently and professionally.
- Provides timely and accurate resolutions, including troubleshooting hardware and software issues, network connectivity problems, and system errors.
- Documents all support interactions and resolutions in the ITS ticketing system, ensuring thorough and accurate record-keeping.
- Escalates unresolved issues to the appropriate ITS teams for further investigation and resolution.
- Collaborates with ITS colleagues to identify recurring issues and implement proactive solutions to prevent future incidents.
- Documents learned knowledge and resolved issues by writing and maintaining knowledge base articles to support knowledge sharing and continuous improvement within the team.
- Executes tasks and work assignments with a demonstrated ability to focus on priority tasks.
- Delivers occasional department presentations to various audiences.
- Provides backup and support to other ITS teams as needed.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The Authority reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Technical Focus:** Maintaining up-to-date knowledge within one's field of expertise; Applying technical skills and knowledge.
- **Problem Solving:** Having the ability to identify problems and issues of varying complexities and to find effective solutions with few guidelines.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes lead and positively influences others**.**

At times takes lead and positively influences others**.**

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Associate's Degree in Computer Science, Computer Information Systems, Business Administration, Mathematics, or a related field.
- Two (2) years of information technology experience in basic to intermediate support of servers, systems, software, peripherals and storage technology.
- CompTIA A+ Certification.
- CompTIA Network+ Certification, Advanced Microsoft Certified Professional.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of server virtualization technologies, and backup and restore technologies
- Knowledge of server clustering and high availability server environments.
- Knowledge of administration of Linux-based systems.
- Knowledge of vulnerability identification and remediation techniques and applications to maintain system security.
- Knowledge of datacenter configuration, and storage system technologies, including iSCSI, Fiber Channel, DAS, and NAS, to enhance data management capabilities.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.

- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Standing, walking & sitting up to 6 hours per day
- Frequent lifting up to 50 lbs
- Frequent bending, stooping, pushing, pulling, dragging, climbing, reaching over-head, kneeling & crawling
- Continuous typing
- Occasional use of car/light truck
- Occasional use of power tools

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

JUNIOR INFORMATION SECURITY ANALYST

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Information Security Office, the Junior Information Security Analyst is responsible for supporting key vulnerability management and security information event management functions. This role involves identifying, analyzing, and remediating potential environmental threats, requiring a solid understanding of current and emerging vulnerabilities and threats in the security industry, as well as key business and technological processes. The Junior Information Security Analyst performs essential client-facing managed security services activities.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Assist in establishing a mature and optimized Security Operations Center discipline to support managed security services.
- Identifies and remediates infrastructure and application vulnerabilities discovered during continuous scanning and regular penetration testing exercises and assist with risk prioritization.
- Analyzes and responds to security threats from various sources, including Firewall (FW), Antivirus (AV), Endpoint Detection and Response (EDR), Network Detection and Response (NDR), Email Security, and Cloud Security.
- Provides timely responses to clients with thorough and concise analysis and recommended actions regarding security threats.
- Conducts scanning and monitoring activities to provide in-depth visibility into potential known and unknown vulnerabilities and threats.
- Utilizes analytics tools to identify potential vulnerabilities and threats to the organization's environment.
- Detects, responds to, mitigates, and reports on cyber threats or incidents that may impact the organization's environment.
- Acts as an internal information security consultant to business and technology units, advising on risks, threats, and control practices related to Security Operations Center (SOC) assurance and response.
- Assists in the tuning of security consoles to optimize the performance and accuracy of alerts and monitoring.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Technical Focus:** Maintaining up-to-date knowledge within one's field of expertise; Applying technical skills and knowledge.
- **Problem Solving:** Having the ability to identify problems and issues of varying complexities and to find effective solutions with few guidelines.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Associate's Degree.
- Three (3) years of security knowledge and technical experience in a diverse range of IT systems – specifically with PCI compliance, logging solutions, vulnerability management solutions, Microsoft enterprise technologies, Cisco enterprise technologies, and Redhat Linux technologies, PCI compliance, logging solutions, vulnerability management solutions.
- At least one technical certification obtained in the last three years from the following organizations: Cisco, Microsoft, or CompTIA. Or equivalent combination of education, training, and experience.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- A Certified Information Systems Security Professional (CISSP) certification.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of the roles and responsibilities within a Security Operations Center (SOC), Vulnerability Management, Security Information Event Management, Threat Hunting, or Threat Intelligence teams, demonstrating a desire for long-term growth in these areas.
- Ability to analyze security issues and develop effective solutions to complex problems.
- Ability to manage multiple tasks efficiently and prioritize work in a fast-paced environment.
- Skill with Vulnerability Management technologies to identify and remediate security risks.
- Skill with Security Information Event Management (SIEM) technologies to monitor and analyze security events.
- Skill with TCP/IP networking concepts, understanding how data flows across networks.
- Knowledge of routing and access control devices to secure network infrastructure.
- Skill with various operating systems, including Linux, Windows, iOS, and network operating systems, to support diverse environments.
- Skill with Endpoint and Network Detection and Response technologies to detect and respond to threats.
- Knowledge of cloud security configuration best practices to ensure secure cloud environments.
- Ability to conduct research on emerging threats and vulnerabilities to enhance the organization's security posture.
- Skill in documenting incidents, findings, and responses to ensure clear communication and reporting.
- Ability to work independently and as part of a team, contributing to a collaborative security environment.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Occasional standing & walking
- Sitting up to 6 hours per day
- Continuous typing

LEAD CREDENTIALS SPECIALIST

GENERAL DESCRIPTION

Under the general direction of the Credentialing & Access Control Compliance Manager, the Lead Credentials Specialist completes various complex administrative duties relating to credentialing all Authority personnel and vendors/tenant. This role manages confidential correspondence while supporting the Credentialing and Access Control Compliance Manager. The Lead Credentials Specialist provides technical oversight to the Airport Credentials Specialist and serve as a knowledge resource to the team.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Performs various complex administrative and confidential functions and duties supporting the Credentialing and Access Control Compliance Manager.
- Assist in adjudicating all ID media applicants' Criminal History Records Check (CHRC) issued from the Federal Bureau of Investigations (FBI) to ensure the applicant's CHRC does not contain disqualifying information.
- Assist Aviation Authority staff and Tenant requests for Customer Border Protection approval to the Federal Inspection Services area of TPA.
- Exercises technical oversight and acts as the team lead of their respective area.
- Schedules, coordinates, and prepares meetings, meeting materials/handouts, appointments and conferences for the purposes of airport credentialing.
- Reviews and distributes detailed incoming and outgoing mail, electronic mail, correspondence, and statements for the department managers.
- Answers all questions relating to the badging and credentialing process, which includes handling sensitive security information, personally identifiable information and confidential records or information.
- Researches and responds to requests for information and assistance and determines priority status and refers to department manager, senior department manager, or other professional staff, as needed.
- Maintains accurate records of credentialing activities and ensure compliance with relevant regulations and policies.
- Assists in the development and implementation of credentialing procedures and best practices to enhance operational efficiency.

- Conducts periodic audits of credentialing records to ensure accuracy and compliance with established standards.
- Provides training and guidance to staff on credentialing policies and procedures to ensure understanding and compliance.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Collaboration:** Able to bring people together to leverage their skills, talents, and knowledge to achieve a common purpose; Creates synergy, resulting in a combined effort with greater results than those achieved by individuals.
- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Goal Orientation:** Being persistent and showing perseverance in achieving concrete and tangible results out of personal responsibility; getting optimum results from situations; being ready to take action and showing tenacity in case of obstacles or resistance.
- **Dependability:** Being trustworthy, punctual, and reliable, consistently fulfilling commitments and responsibilities, and being counted on to deliver quality work on time, demonstrating a consistent and predictable performance level across tasks and situations**.**

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- High School diploma or equivalent.
- Four (4) years experience in airport operations, airport security, or related field.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Associate's Degree in Aviation, Airport Operations, Business Administration, or a related field.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of a security access control office of medium to large size secured facility.

- Knowledge of federal, state, and local regulations pertaining to the security access control area(s) of a public government facility or public transportation facility with sterile areas.
- Knowledge of aviation worker credentialing, security training, and access control processes.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Frequent standing & walking
- Continuous sitting
- Lifting up to 20 lbs

LEAD IT PROJECT MANAGER

GENERAL DESCRIPTION

Under the general direction of the Vice President of Information Technology, the Lead IT Project Manager is responsible for leading and coordinating technical professional resources involved in the analysis, development, coordination, implementation, and documentation of new or existing information systems. This role is critical in ensuring that effective systems controls are established to support business operations and enhance overall efficiency. The Lead IT Project Manager oversees complex project timelines, resource allocation, and budgets while facilitating effective communication among stakeholders to ensure that project objectives are met and aligned with organizational goals.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Prepares comprehensive project plans and schedules, coordinating requirements, tasks, work assignments, and resources to ensure project integrity.
- Oversees the formulation of project objectives and system development requirements to align with organizational goals.
- Participates directly in project development as needed, contributing technical expertise and leadership.
- Provides technical guidance and assistance to project staff to ensure the successful execution of projects.
- Monitors activities performed by project staff, ensuring that all products and documentation meet departmental standards.
- Analyzes methods of obtaining and presenting information, reviewing and evaluating alternative sources to enhance project outcomes.
- Prepares detailed specifications for information systems to guide development and implementation processes.
- Analyzes the impact of information systems on organizational structure, management techniques, and user relationships.
- Develops plans for testing and implementing systems, monitoring these processes to ensure desired results are achieved.
- Facilitates work processes for staff, including projects, tasks, and resources, utilizing various methodologies such as Waterfall, Agile, and SCRUM.

- Identifies and manages project risks, implementing mitigation strategies to minimize impact on timelines and deliverables.
- Lead post-project evaluations and lessons learned sessions to improve future project planning and execution practices.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Resilience:** Maintains performance and self-control under pressure or adversity. Views challenges as learning opportunities. Maintains confidence and clarity despite unforeseen circumstances.
- **Organizational Ownership:** Being accountable for the results of your actions. Effectively leading a team of collaborators. Proactively solving problems, improving processes without being asked, taking on challenging projects, and creating and implementing innovative solutions.
- **Decisiveness:** Thinking outside the box, taking appropriate risks when getting things done with available resources, and developing new ways to solve problems and achieve results.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree in Computer Science, Business Management or directly related field.
- Five (5) years of experience in information technology roles leading strategic initiatives, managing technology projects, or similar experience.
- Project Management Professional (PMP) certification.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- E-Business Suite sofware and technology related project management experience.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of strong leadership principles, team-building techniques, employee engagement strategies, and consensus-building.
- Knowledge of program, product, and project management (PM) methodologies, including Agile and waterfall approaches.
- Knowledge of project planning tools and software, demonstrating evidence of practical application in managing projects.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

LEAD ITS NETWORK ENGINEER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of IT Infrastructure, the Lead ITS Network Engineer is responsible for overseeing and directing the IT resources involved in the installation and configuration of switches, routers, firewalls, and associated components, ensuring optimal performance and reliability of all Authority network systems. This leadership role serves as the primary authority for the planning, design, maintenance, and comprehensive monitoring of the network infrastructure, driving initiatives that align with organizational goals and industry best practices. The Lead ITS Network Engineer will independently lead high-impact network projects, fostering collaboration and innovation within the team.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Offers expert guidance and advanced technical support for networking hardware and software services across the Authority, influencing the direction of network technologies and practices.
- Designs, builds, and implements comprehensive network infrastructure solutions, including LAN, WLAN, and WAN, to meet the evolving needs of the organization while ensuring scalability and resilience.
- Establishes and maintains protocols for the continuous availability of all data network services, leading proactive performance monitoring initiatives and swiftly addressing issues to minimize downtime.
- Mentors, trains, and develops the network operations team, fostering an environment of knowledge sharing and best practices in installation, configuration, and maintenance to elevate team capabilities and performance**.**
- Oversees the troubleshooting, maintenance, and repair of the network infrastructure, ensuring high levels of reliability and performance while implementing best practices for incident response.
- Proactively investigates and addresses network capacity-related issues, leading initiatives to optimize resource utilization and enhance overall network efficiency and performance.

- Conducts comprehensive evaluations of various network infrastructure solutions, providing strategic recommendations to meet organizational needs and enhance operational effectiveness while also assessing the potential impact of emerging technologies.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Resilience:** Maintains performance and self-control under pressure or adversity. Views challenges as learning opportunities. Maintains confidence and clarity despite unforeseen circumstances.

LEAD ITS SYSTEMS ENGINEER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Enterprise Services Delivery, the Lead ITS Systems Engineer is responsible for overseeing the strategic design, implementation, and continuous improvement of advanced systems, server hardware, and software solutions. This position provides expert-level technical guidance for mission-critical server and system services, proactively identifying and resolving complex issues that impact the organization's infrastructure. The Lead ITS Systems Engineer plays a vital role in developing and mentoring technical teams, serving as the primary escalation point for intricate challenges and ensuring swift, effective resolutions. Furthermore, this role engages with senior leadership and cross-functional teams to define and implement best practices, enhancing operational efficiency and aligning technology initiatives with broader organizational goals.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Provides strategic oversight and expert-level technical guidance for advanced server hardware and software services across the Authority, ensuring optimal performance, reliability, and alignment with organizational goals.
- Champions the design, implementation, and continuous improvement of operating systems and associated hardware and software components, establishing best practices and frameworks for system architecture.
- Develops and enforces policies for user directory management and permissions on server platforms, ensuring organized, secure access that complies with regulatory and organizational standards.
- Proactively monitors, diagnoses, and resolves complex operating system challenges, leveraging innovative troubleshooting methodologies to enhance system performance and reliability.
- Directs and mentors teams in troubleshooting, maintaining, and repairing operating systems and applications, ensuring minimal disruption and an exceptional user experience across the organization.
- Leads the development and implementation of comprehensive backup and recovery strategies to protect organizational data, ensuring business continuity and resilience against disruptions.

- Conducts thorough evaluations and makes strategic recommendations for advanced software and hardware solutions to address user needs, drive operational efficiency, and support the organization's long-term technological vision.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

OPERATIONS PROJECTS MANAGER

GENERAL DESCRIPTION

Under the general direction of the Vice President of Operations, the Operations Projects Manager is responsible for leading the development, implementation, and continuous improvement of operational standards across airfield and terminal environments. This role ensures regulatory compliance, enhances operational efficiency, and drives forward-thinking initiatives that elevate the overall passenger experience. The position bridges compliance with innovation, working closely with Airfield, Terminal, Guest Experience, the Airport Operations Center, Safety, and the Security Operations teams to deliver safe, secure, efficient, and customer-centric airport operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Compiles monthly, annual and special reports for strategic plans, special operation plans, KPIs (tracking metrics), organizational flight plans, and department driven initiatives.
- Identifies areas for improvement in departmental processes and recommending solutions to enhance efficiency and effectiveness.
- Standardizes and maintains up-to-date standard operating procedures (SOPs or Operational Guides), manuals, and compliance documentation across the Operations Department.
- Ensures all Job Qualification Requirements (JQR) training curriculum, materials, and records are consistent throughout the department.
- Intensifies operational improvement initiatives leveraging technology, data analytics, and industry best practices.
- Provides Continuity of Operations (CONOPS) and Operational Readiness, Activation, and Transition (ORAT) programs following major construction projects, new equipment installation, and new software integration.
- Develops and lead training courses within Operations.
- Ensures records, reports, operations standards and procedures are updated and accurate.
- Collaborates with the Airport Police and Security Operations team for TSA security requirements specific to Operations and CFR Part 1542, and other applicable federal, state, and local policies.
- Leads operational improvement initiatives leveraging technology, data analytics, and industry best practices.
- Researches, pilots, and implements innovative solutions to enhance operational efficiency and resiliency.

- Facilitates cross-functional workshops to drive problem-solving and collaborative innovation.
- Represents the Operations Department for technical committees, research initiatives, development projects, and cross-functional working groups.
- Conducts audits of airfield inspections, records, and training materials.
- Liaise with regulatory agencies during inspections, audits, and incident investigations; follow up on findings and corrective action plans.
- Supports sustainability initiatives related to airport operations (e.g., energy-efficient systems, green operations policies).
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

POLICE OFFICER

GENERAL DESCRIPTION

Under the general direction of a Police Sergeant, the Police Officer performs law enforcement duties to protect Authority property, facilities, personnel, and the general public at Tampa International Airport. This role involves enforcing Authority regulations as well as federal, state, and local laws. The Police Officer addresses a range of incidents, including disturbances, traffic accidents, and emergencies, offering assistance and documenting related reports. This role demands a deep commitment to public safety, exceptional communication skills, and the capacity to maintain composure under pressure, all while ensuring adherence to legal and operational protocols..

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: NON-EXEMPT

ESSENTIAL FUNCTIONS

- Enforces Authority regulations, federal, state and local laws.
- Pursuit, apprehension, and arrest of law violators or suspected law violators to ensure public safety.
- Enforces traffic laws and arrests or issues summons to traffic law violators; reports unsafe road conditions; and investigates traffic accidents on Authority premises.
- Responds to calls and conducts investigations into issues, disturbances, traffic incidents, criminal activities, emergencies, and other occurrences; provides necessary assistance and prepares associated reports.
- Conducts patrols in designated areas of Tampa International Airport to identify and monitor potential criminal activity and interrogate any suspicious persons.
- Ensures the operational readiness of the patrol vehicle, firearms, and other law enforcement equipment through diligent maintenance and regular inspections.
- Provides information and assistance to the public.
- Completes written reports and required forms in accordance with standard operating procedures and directives in a timely manner.
- Testifies in court to provide an accurate account of investigation reports and findings.
- Impounds abandoned or illegally parked vehicles, and vehicles used in the commission of crimes.

- Administers Cardiopulmonary Resuscitation (CPR) and first aid as required and maintains certification currency.
- Transports prisoners to detention or medical facilities.
- Operates communications equipment.
- Prepares and preserves evidence in accordance with directives to maintain chain of custody.
- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Participates in regular training and professional development to stay current with law enforcement practices and safety protocols.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Technical Focus:** Maintaining up-to-date knowledge within one's field of expertise; Applying technical skills and knowledge.
- **Problem Solving:** Having the ability to identify problems and issues of varying complexities and to find effective solutions with few guidelines.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes lead and positively influences others.

PROGRAM MANAGER

GENERAL DESCRIPTION

Reporting to the Senior Manager of Technology Program Management Office, the Program Manager is responsible for leading and orchestrating complex programs and projects within the enterprise application landscape. This role is critical in driving the successful analysis, development, implementation, and continuous improvement of new and existing enterprise information systems that underpin core business operations.

The Program Manager will work closely with teams, business stakeholders, and vendors to translate strategic objectives into actionable plans. They will oversee program roadmaps, manage intricate timelines, allocate and manage resources effectively across multiple projects, and control program budgets.

This position requires a strong understanding of program management principles and proven expertise in managing complex initiatives. The Program Manager will facilitate clear and consistent communication among all stakeholders, proactively identify and mitigate program risks and dependencies, and drive programs to successful completion in alignment with organizational goals and the vision of the ITS team.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Develop and manage comprehensive program roadmaps and execution plans for enterprise application initiatives, coordinating requirements, budgets, tasks, cross-functional dependencies, and resources to ensure program integrity and strategic alignment.

- Drive the definition of program objectives and system requirements for enterprise applications, ensuring they align with overall IT strategy and organizational goals.
- Provide leadership throughout the program lifecycle, actively participating in planning, problem-solving, and decision-making as needed.
- Offer guidance and support to project teams involved in enterprise application development and implementation to ensure successful execution and adherence to standards.
- Monitor and assess the activities and deliverables produced by program teams, ensuring all products and documentation meet departmental and enterprise standards.
- Analyze and evaluate alternative solutions and approaches for enterprise application development and integration, recommending optimal strategies to enhance program outcomes.
- Oversee the preparation and review of detailed specifications and documentation for enterprise information systems to guide development and implementation processes effectively.
- Analyze the operational impact of new or modified enterprise applications on existing systems, infrastructure, business processes, and user experiences.
- Develop and monitor comprehensive testing and deployment plans for enterprise applications, ensuring successful implementation and desired business results are achieved.
- Facilitate program management methodologies (e.g., Waterfall, Agile, Hybrid, Scrum) to optimize workflows, manage backlogs, and ensure efficient execution by teams.
- Identify, assess, and manage program risks and dependencies across interconnected enterprise application projects and programs, implementing proactive mitigation strategies to minimize impact on delivery and timelines.
- Lead post-implementation reviews and lessons learned sessions to capture insights on challenges, successes, and areas for improvement in future enterprise application programs.
- Organizational and ITS Strategic Plan program alignment.
- Manage vendors and contract milestone compliance.
- Develop and Implement Change Management strategy for program and projects.
- Evaluating and driving IT strategy and roadmap.
- Data entry and use of Program Portfolio Management System (PPMS)
- Drive Key Performance Indicators and Metrics for Program health.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

The Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status,

non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

PROJECTS AND GRANTS FINANCE MANAGER

GENERAL DESCRIPTION

Under the general direction of the Director of Capital Programs, the Projects and Grants Finance Manager oversees project financial administration and third-party grant funding. Manages a team responsible for financial oversight, project payments, and fixed asset management while closely collaborating with the Florida Department of Transportation and the local office of the Federal Aviation Administration on grant billing and closeouts. These efforts ensure effective administrative oversight and regulatory compliance for project finances.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Takes ownership of the capital projects and fixed assets accounting systems, along with the cash management system, serving as the lead expert and change agent to enhance utilization, as necessary.
- Oversees project tracking and independently communicates any deviations from approved budgets, amendments, and change orders to the Board and Development Committee.
- Ensures administrative oversight and compliance with federal and state grant guidelines, including billings, reconciliations, grant close-outs, and reporting.
- Manages compliance with transaction authorities (K-9, LEO, TSA Baggage, and In-Line Baggage) for audit purposes, including billings, reconciliations, and reporting.
- Collaborates closely with the Office for FDOT and the Orlando FAA Airport District Office regarding third-party project grant funding management.
- Processes and files Passenger Facility Charge (PFC) report and application close-outs, ensuring timely publication of the report on the Authority website.
- Reviews all initial and revised capital budgets from other departments for accuracy and approvals before presenting to the Development Committee.
- Prepares final capital budgets for capital projects that are ready for closeout, ensuring alignment with overall financial strategies.
- Provides guidance related to internal and external funding sources for capital budgets, including analysis of eligible costs for grants, PFCs, and bonds.
- Supplies necessary project cost data to Project Directors to ensure all projects remain within budget constraints.

- Manages and produces the Recognized Net Investment schedule and Schedule 6 in the budget, estimating capital improvement project expenditures and funding sources for future years, included in the annual budget publication.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee’s department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor’s Degree in Finance, Accounting, Business/Public Administration or related field.
- Four (4) years experience within a government agency.
- Two (2) years supervisory experience.
- Or an equivalent combination of education, training and experience.
- Must possess a current Florida Driver License.

PREFERRED QUALIFICATIONS

- Previous experience in aviation sector.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of airport capital budget cycles and the regulations governing federal and state grant programs related to airport operations and facilities.
- Knowledge of Capital Improvement Programs, including various funding sources, project payments, and fixed assets management practices.
- Skill in leadership and team management, fostering a collaborative and productive work environment among financial teams.
- Skill in effective presentation, capable of conveying complex financial information to diverse audiences.
- Ability to manage workloads efficiently within a rapidly changing work environment, adapting to new challenges and priorities.
- Ability to produce and manage critical financial reports.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to communicate effectively orally and in writing.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PUBLIC SAFETY ADMINISTRATION MANAGER

GENERAL DESCRIPTION

Under the general direction of a Police Captain, the Public Safety Administration (PSA) Manager oversees the Administration Unit, Evidence Unit, and Accreditation and Compliance of the Police Department. This position is responsible for providing administrative, financial, and support services to ensure the operational efficiency of the department. The manager develops and revises policies and procedures, prepares budget documents, and conducts technical analyses of data, all while supervising and mentoring subordinate staff. Additionally, the role involves coordinating with internal and external agencies to ensure compliance with regulations and effective communication, as well as managing public records requests and special projects related to records management.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Prepares budget documents, monitors allocated funds' status, and controls expenses.
- Conducts technical analysis and evaluations of data using financial and police reports.
- Responds to requests for statistical information from databases and formulates and edits monthly reports.
- Coordinates with other units within own organization and external agencies/departments to ensure efficient flow of communications and service; interprets, explains, and ensures compliance with program requirements, regulations, and procedures, including coordinator/administrator for the Authority with Florida Department of Law Enforcement (FDLE) Uniform Crime Reporting, Florida Incident-Based Reporting (FIBRS), and Use of Force reporting.
- Acts as department Records Custodian and oversees public records requests, sealing/expungement, and records retention in compliance with state records laws.
- Participates and represents the department in meetings concerning records management, administrative staff duties, computer software upgrades, technical workgroup meetings, and other meetings as directed.
- Acts as the subject matter expert for the department by managing the preparation of Florida Contraband and Forfeiture reports for FDLE and the Department of the Treasury while also serving as the liaison to the FDLE Evidence Section on submission protocols and evidence processing.
- Manages special projects involving records and reports assigned. Prepares descriptive reports utilizing detailed charts and diagrams.

- Prepares detailed executive summary reports and staff proposals.
- Oversees the Evidence Unit, ensuring effective management of evidence intake, processing, and destruction functions.
- Manages and reconciles Federal seizure, State seizure, and local evidence accounts with the finance department on a reoccurring basis.
- Administrative oversight and auditing of all public records and State Attorney records requests related to digital evidence, body-worn cameras, and photographic evidence.
- Actively participates in meetings to represent the Department and discuss matters related to the Evidence Unit and its processes.
- Maintains general oversight of the Accreditation and Compliance Manager, ensuring adherence to accreditation standards.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee’s department or the HCAA Emergency Operations Center (EOC). SECURITY PROJECTS AND ACCESS CONTROL COMPLIANCE MANAGER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Security Compliance, the Security Projects and Access Control Compliance Manager is responsible for coordinating and leading projects to ensure adherence to all Airport Security Program requirements, TSA regulations, and Security Directives. This role involves monitoring, tracking, and coordinating access control requirements and permissions for all airport employees, contractors, vendors, and tenants, as well as maintaining and updating access levels for existing and new personnel. The duties of this position are mandated by the Transportation Security Administration (TSA) and are critical for national security at airports. Additional responsibilities include conducting performance reviews, advancing security initiatives, providing on-call 24/7 Access Control Support, and regularly assessing and enhancing the overall security program to identify opportunities for improvement.

Requires availability for emergency call-in.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Reviews and addresses administrative and operational issues related to TSA security mandates, ensuring compliance and operational integrity.
- Manages, coordinates, and directs security-related projects and initiatives across the Authority, including those involving Fixed Based Operators and General Aviation airports.
- Acts as an “on-call” Airport Security Coordinator, providing 24/7 availability to the TSA and responding to urgent security needs.
- Creates, compiles, prepares, and disseminates various reports for airport tenants, airline managers, contractors, staff, FAA, and law enforcement agencies.

- Oversees the financial performance of the Airport Credentialing Office, ensuring effective resource allocation and budget adherence.
- Conducts audits of all tenants' security procedures and records, ensuring compliance with background checks, security training requirements, and credential statuses.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Decision Making:** Apply logic and practical thinking to decision making; Gather necessary input to take action based on one's best thinking given the time available; draw correct and reasonable conclusions based on data and information.
- **Developing Others:** Displays a genuine intent to foster the long-term learning or development of others through coaching, managing performance, and mentoring.
- **Delegating:** Giving authority and power to individuals to make decisions and take actions related to their role.
- **Initiative:** The ability to proactively identify opportunities or problems, take appropriate action without being prompted, and work independently to achieve goals, improve outcomes, or contribute new ideas.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree in Aviation, Airport Operations, Business Administration, or related field.
- Five (5) years experience in airport operations, airport security, or related field.
- Two (2) years supervisory experience
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Current Airport Security Coordinator designation with at least one (1) year of ASC experience.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of security policies, procedures, and guides.

- Knowledge of a security access control office of medium to large size secured facility.
- Knowledge of federal, state, and local regulations pertaining to the security access control area(s) of a public government facility or public transportation facility with sterile areas.
- Knowledge of current cybersecurity trends and best practices.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

SENIOR ACCOUNTANT-TREASURY

GENERAL DESCRIPTION

Under the general direction of the Director of Finance, the Senior Accountant-Treasury is responsible for managing capital expenditure cash flows and seeking opportunities to optimize investment returns on available funds. This role involves performing monthly Master Plan reconciliations, supporting the development of the internal project Funding Source Application, and preparing multi-year cash flow projections for all funds of the Authority. The Senior Accountant-Treasury also assists in managing the Authority's debt portfolio, ensuring compliance with debt covenants and disclosure requirements, while monitoring daily cash flows, bank balances, and fund balances.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Performs monthly Master Plan Reconciliations - Actuals and Commitments.
- Prepares multi-year cash flow projections for all Authority funds and makes recommendations regarding the length and timing of investment maturities.
- Monitors and reconciles daily cash flows, bank balances, and fund balances to ensure accurate financial reporting.
- Summarizes monthly project expenditures by funding source to provide insights into financial performance.
- Maintains current information on treasury portfolio holdings and actively monitors securities to ensure alignment with investment strategies.
- Performs complex governmental inter-fund accounting journal entries to reconcile project funds and maintain financial integrity.
- Reports on investment fund activity and performance, providing detailed analyses to inform decision-making.
- Executes investment trades by completing transactions and communicating effectively with brokers and safekeeping banks.
- Assists in preparing and reviewing official statements and feasibility studies during bond or other debt issuance processes.
- Initiates first-of-the-month operating and debt service fund transfers to ensure liquidity and operational efficiency.

- Projects cash liquidity needs to ensure that daily disbursements and construction obligations are met without disruption.
- Provide support and guidance to junior staff members, fostering their development and enhancing team capabilities.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Self-Management:** Manages own time, priorities, and resources to achieve goals.
- **Technical Focus:** Maintaining up-to-date knowledge within one's field of expertise; Applying technical skills and knowledge.
- **Problem Solving:** Having the ability to identify problems and issues of varying complexities and to find effective solutions with few guidelines.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree in Accounting, Finance, or related field.
- Three (3) years of professional accounting experience in aviation or municipal financial analysis, budgeting, treasury or investments.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of accounting principles and Generally Accepted Accounting Principles (GAAP) to guide financial reporting and practices.
- Knowledge of local, state, and federal laws, ordinances, and regulations related to the fiscal management of government agencies, ensuring compliance in all accounting practices.
- Knowledge of financial forecasting and budgeting processes to support effective financial planning.

- Knowledge of investment and cash management principles to optimize the organization's financial resources.
- Ability to analyze accounting and fiscal data, identifying trends and discrepancies to support informed decision-making.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

SENIOR AUDITOR

GENERAL DESCRIPTION

Under the general direction of the Audit Manager, the Senior Auditor plays a crucial role in assisting the Authority in achieving its mission by delivering risk-based and objective assurance, advice, and insights. This position involves conducting professional assurance and consulting engagements, encompassing all planning phases, fieldwork, and reporting. The Senior Auditor is responsible for developing audit objectives, programs, and the appropriate scope and procedures necessary to fulfill the annual audit plan. As a key member of the Internal Audit team, the auditor collaborates with various departments and commercial entities to identify risks, provide valuable recommendations, and drive positive organizational change.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Plans and executes assurance and consulting engagements, focusing on departmental processes, gross receipts from concessionaires, and expenditures of contractors and vendors.
- Assigns tasks and oversees the work of staff and intern-level auditors involved in various audit engagements.
- Obtains and reviews evidence to ensure that engagement conclusions are well-documented and supported by thorough analysis.
- Identifies and communicates issues raised during audits, offering relevant recommendations to mitigate risks and enhance business processes.
- Prepares and reviews engagement reports and analyses for completeness and compliance with objectives, professional auditing standards, and departmental procedures.
- Represents the Internal Audit department in external meetings and conferences, sharing insights and maintaining professional relationships.
- Assists in the development and implementation of internal audit strategies and objectives.
- Provides mentorship and guidance to junior auditors, fostering their professional growth and development.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). SENIOR BUSINESS ANALYST

GENERAL DESCRIPTION

Under the general direction of the Vice President of Real Estate, the Senior Business Analyst is responsible for translating the terms and conditions of revenue contracts into a framework that populates the lease management and billing database to generate accurate invoices. The analyst performs advanced technical duties, focusing on the analysis and development of improved managerial policies, practices, and procedures. Additionally, this position entails providing expert guidance and coordination to various departments and agencies by evaluating organizational structures and existing programs and identifying areas for corrective action and operational improvement.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Manages the billing rule function for the Real Estate Department by translating revenue contract terms and conditions into an invoicing framework.
- Supports revenue contract managers in ensuring compliance with contractual obligations and maintaining up-to-date billing information.
- Independently track contract expiration dates, renewals, and amendments, facilitating regular reporting meetings to ensure adherence to board-approved terms.
- Collaborates with the billing team to ensure effective communication regarding contract changes and updates.
- Serves as the primary contact for changes or software updates related to the lease management database and other departmental tools.
- Organizes and utilizes complex contract terms to coordinate the department's annual revenue budget forecast.
- Functions as project coordinator for major management system review projects, including work measurement studies and operational audits.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions, admitting mistakes and learning from them, and assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.

SENIOR BUSINESS SYSTEMS ANALYST I

GENERAL DESCRIPTION

Under the general direction of a Business Systems Analysis Manager, the Senior Business Systems Analyst I is a leadership role responsible for providing both functional and technical support to end users regarding enhancements, issues, and projects related to HCAA applications. The Senior Business Systems Analyst I will also be tasked with responding to, documenting, and resolving service tickets in a timely manner according to established service level agreements (SLA). This position involves performing root cause analysis, developing checklists for common enhancements and issues, and recommending procedures and controls. Supporting multiple applications and domain areas, including ERP, GIS, interfaces, and Cloud Services, the role may require independent work, collaboration with consulting resources, and mentoring of lower-level business systems analysts.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Drive collaboration between business and delivery teams to prioritize requirements based on business value, technical feasibility, and dependencies.
- Lead and facilitate various techniques to elicit and analyze business requirements, including interviews, workshops, surveys, site visits, and storyboards.
- Proactively shape business requirements by challenging assumptions, proposing innovative alternatives, and aligning them with organizational objectives.
- Thoroughly understand technical options, limitations, costs, and risks, and effectively communicate trade-offs to influence business partners' requirements definitions.
- Translate complex and ambiguous user requirements into clear, detailed, and coherent functional requirements.
- Identify and resolve competing priorities among stakeholder groups by facilitating strategic discussions and decision-making.
- Oversee requirements scoping throughout the delivery process, ensuring alignment with project objectives and business needs.
- Create comprehensive and persuasive artifacts, including business case documentation, scope documentation, and process flows, to support project justification and approval.
- Provide expert guidance and support to delivery teams throughout development, testing, and deployment phases to ensure successful solution implementation.

- Conduct thorough reviews of delivery team outputs to validate requirements interpretation and define comprehensive test cases for quality assurance.
- Conduct in-depth troubleshooting and root cause analysis for complex software issues, collaborating with technical teams for effective solutions.
- Plan and oversee application system upgrades, new releases, and migrations, ensuring minimal disruption to business operations and maximum value realization.
- Collaborate with team members, consultants, and software vendors to identify, prioritize, and resolve critical software defects and drive continuous improvement.
- Design and document innovative functional application solutions and technical integrations/reports to enable new capabilities and support long-term business objectives.
- Oversee the end-to-end lifecycle of complex and high-priority service tickets, ensuring timely resolution, effective communication, and stakeholder satisfaction.
- Champion the Authority Change Management process, promoting best practices and driving continuous improvement across the application lifecycle.
- Analyze new releases of packaged software and provide strategic recommendations on feature enablement and adoption based on business value and alignment with organizational goals.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. - Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree Computer Science or a related field of study.

- Three (3) years of experience in Business Analysis or Systems Analysis and Quality Assurance Testing.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- At least one certification in analytics/business analysis or product ownership such as: IIBA, PMI, CPO, etc. Relevant certifications in domain areas such as Oracle ERP, GISP, etc. At least one certification in testing approaches and frameworks.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of determining explicit and implicit needs and requirements of various stakeholders.
- Ability to quickly learn the objectives, structures, operations, and policies of new business areas.
- Skill in problem resolution, negotiation, and influencing outcomes effectively.
- Skill in effectively engaging both developers and business partners to achieve targeted outcomes.
- Knowledge of translating complex technical information into understandable terms for various stakeholders, both verbally and in writing.
- Skill in creating documentation such as business case documentation and business requirements summaries.
- Skill with agile development methodologies and agile planning tools to drive project success.
- Knowledge of cloud services, including SaaS, PaaS, and IaaS, and their implications for business solutions.
- Skill with product ownership/management and roadmap creation for aligning technology initiatives with business strategy.
- Skill with testing and testing frameworks to ensure solution quality and effectiveness.
- Knowledge of data analytics and SQL to support informed decision-making and reporting.
- Skill in managing multiple priorities and tasks simultaneously in a fast-paced environment.
- Knowledge of industry best practices and emerging trends to inform strategic planning and implementation.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

- Frequent use of car/light truck

The Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

SENIOR HUMAN RESOURCES ANALYST

GENERAL DESCRIPTION

Under the general direction of the Director of Human Resources, the Senior Human Resources Analyst is responsible for managing a variety of Human Resources (HR) programs and initiatives. This role serves as an analytical point-of-contact for all assigned functional areas of HR and assists subject matter experts with ensuring HRIS data integrity, compensation surveys, job requirements, evaluating job positions, report writing, and analyzing data flows for process improvement opportunities. This role requires agility in balancing multiple responsibilities while maintaining organization and attention to detail. Members in this classification perform complex duties and functions with considerable independence.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Collaborates with leadership and HR staff to identify system improvements and enhancements; recommend and implement solutions.
- Performs system maintenance, including assisting in reviewing, testing, and implementing HRMS system upgrades or patches. Collaborates with functional and technical staff to coordinate the application of upgrades or fixes. Maintains HRMS system tables. Documents process and results dictated by authority business rules and procedures.
- Serves as a resource to the HR department regarding HRIS applications and software that organize human resources and personnel records.
- Responsible for creating and analyzing year-end hiring trends, turnover, dashboards, and other relevant data.
- Calculates annual pay raises and other employee recognition items.
- Analyzes and prepares reports on program performance, including website and TV content updates, professional study participation, and benefits analytics and billings, to HR leadership and other stakeholders.
- Prepares and maintains job descriptions for each position, ensuring that descriptions accurately reflect incumbents' work.
- Assists with assessing jobs and their duties to determine classification as exempt or nonexempt and appropriate salary range.
- Benchmarks jobs against survey data and other market intelligence to determine competitive compensation ranges for each position, ensuring internal equity.
- Utilizes spreadsheet and data analysis techniques to assess results and market trends.

- Prepares and presents summary reports of job analysis and compensation analysis information.
- Facilitates annual open enrollment strategies with testing and implementing benefit or rate changes.
- Consults and works collaboratively with IT function to develop and administer plans for HRIS applications.
- Conducts system data audits to ensure the accuracy of data entry and verify system functionality.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Resilience:** Maintains performance and self-control under pressure or adversity. Views challenges as learning opportunities. Maintains confidence and clarity despite unforeseen circumstances.
- **Organizational Ownership:** Being accountable for the results of your actions. Effectively leading a team of collaborators. Proactively solving problems, improving processes without being asked, taking on challenging projects, and creating and implementing innovative solutions.
- **Decisiveness:** Thinking outside the box, taking appropriate risks when getting things done with available resources, and developing new ways to solve problems and achieve results.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree in Human Resources or related field.
- Four (4) years experience in a professional human resources role, including some experience in analytics and administration of an human resources information system.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License

PREFERRED QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- HR certification (e.g., PHR, SPHR, SHRM-CP, SHRM-SCP).

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of human resource laws, regulations, and best practices, ensuring compliance and effective HR management.
- Skill in providing excellent interpersonal and technical support, enhancing employee experience and HR service delivery.
- Skill in organizational and time management, with a proven ability to meet deadlines and manage workload efficiently.
- Skill in Microsoft Office Suite or similar software, facilitating effective communication and reporting.
- Skill in project management with meticulous attention to detail, ensuring successful project execution.
- Skill with HRIS and other relevant software tools, ensuring efficient data management and reporting.
- Skill and ability to foster a positive, inclusive, and engaging workplace culture that promotes employee satisfaction and retention.
- Ability to take initiative and work proactively and independently, driving HR projects and improvements.
- Ability to maintain accurate work-related records and prepare comprehensive reports for stakeholders.
- Ability to collaborate respectfully and effectively in a team environment.
- Ability to analyze data and utilize insights to drive informed decision-making and continuous improvements.
- Ability to be an innovative thinker passionate about creating and implementing new HR strategies that enhance organizational effectiveness.
- Ability and skill to be a collaborative team player with a proactive approach to problem-solving and contribute to a cohesive work environment.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

PHYSICAL ABILITIES

- Frequent standing & walking
- Sitting up to 6 hours per day
- Occasional lifting up to 20 lbs
- Occasional bending, stooping, pushing, pulling & dragging
- Continuous typing
- Occasional driving

SENIOR HUMAN RESOURCES BUSINESS PARTNER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Employee Relations and Talent Acquisition, the Senior Human Resources Business Partner plays a key role in talent acquisition, employee benefits, compliance, and various Human Resources (HR) functions. This role serves as a strategic partner to management, focusing on aligning HR initiatives with business objectives to drive organizational success. This position oversees onboarding and offboarding processes, maintains personnel records, and leverages HRIS systems for data management and reporting. With a focus on fostering a positive workplace culture, this role guides and supports leadership on HR-related issues and best practices.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Ensures the highest level of service is provided to all applicants, candidates, hiring managers, and employees.
- Provides timely responses to inquiries and follow-up regarding the recruitment process.
- Leads the recruitment process, from job postings to candidate selection, ensuring a diverse and qualified talent pool.
- Conducts interviews and collaborates with hiring managers to assess candidates' qualifications.
- Manages employee benefits programs, including health, retirement, and wellness initiatives.
- Provides benefits information during new employee orientation and one-on-one meetings.
- Supports employees during life events, providing guidance on benefits and resources available.
- Ensures adherence to employment laws and regulations.
- Develops and maintains job classifications and position control documentation to meet organizational needs.
- Manages employee onboarding and off-boarding procedures, including exit interviews and final paperwork.
- Administers leave policies, ensuring compliance with applicable laws and internal procedures.
- Regularly review and coordinate updates on HR procedures and policies to reflect best practices.
- Maintains accurate and confidential personnel records, ensuring compliance with data protection regulations.
- Generates and analyzes HR reports to support decision-making and identify trends.
- Utilizes HRIS systems for data management and reporting, ensuring information accuracy and integrity.

- Collaborates with leadership to develop HR strategies that support business goals.
- Provides guidance and coaching to managers on HR-related issues and best practices.
- Triages incoming HR requests, respond to employee questions and escalates more complex issues to the Senior Manager.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

SENIOR IT BUSINESS ANALYST

GENERAL DESCRIPTION

Under the general direction of the Vice President of Information Technology, the Senior IT Business Analyst is responsible for conducting business analysis and documentation of Information Technology (IT) opportunities within the Authority. This role involves reviewing, assessing, and transforming business processes to ensure cost-effective solutions. The Senior IT Business Analyst participates in all phases of the project lifecycle, including analysis, requirements gathering, design, configuration/development, implementation, and delivery of projects. Additionally, this position facilitates support for implemented functionality and serves as a key liaison between IT and the various business units at the Authority, ensuring alignment and effective communication throughout the process.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Researches and prepares business case studies, total cost of ownership (TCO), and return on investment (ROI) analyses to inform decision-making processes.
- Identifies opportunities for business process improvement and efficiencies through technology, system enhancements, and non-system changes.
- Documents the current state and future state of business functions and processes, including business needs, objectives, inputs, activities, outputs, outcomes, and impact.
- Conveys business requirements from customers to technical teams effectively, ensuring that solutions align with and meet the stated business needs.
- Defines the system implementation approach and operational concept, ensuring that requirements and value received are captured, measured, and evaluated.
- Leads the preparation of proposals, including scopes and estimates, for developing or enhancing systems and operational changes, including an overall change management strategy.
- Acts as a liaison between end-users, enterprise and solution architects, consultants, project teams, and other stakeholders as initiatives progress from ideation to implementation.
- Analyzes and documents gaps in current processes, recommending solutions to bridge those gaps and enhance operational efficiency.
- Organizes and conducts workshops and meetings to gather requirements and validate proposed solutions with stakeholders.
- Supports user acceptance testing (UAT) by defining test cases, facilitating testing sessions, and documenting results.

- Provides training and support to end-users on new systems, processes, and tools to ensure successful adoption and utilization.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.

- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Associate's Degree in Information Technology or a related field.
- Four (4) years of experience as a Business Analyst or in a relevant Information Technology role.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Certifications: CBAP (Certified Business Analysis Professional), CCBA (Certification of Competency in Business Analysis), PMI-PBA (Professional in Business Analysis), ITIL (Information Technology Infrastructure Library) Foundation, CSPO (Certified Scrum Product Owner), Certified ScrumMaster (CSM).

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of business processes and technology, with the ability to apply this knowledge to improve operational efficiency and drive business value.
- Knowledge of current Authority-owned platforms and core systems, with the ability to analyze their capabilities and potential for enhancement.
- Knowledge of program, product, and project management (PM) methodologies, including Agile and waterfall approaches.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

SENIOR ITS NETWORK ENGINEER

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of IT Infrastructure, the Senior ITS Network Engineer is responsible for leading the IT resources in the installation and configuration of switches, routers, firewalls, and associated components to ensure the smooth operation of all Authority network systems. This position serves as the primary point of contact for planning, designing, maintaining, and monitoring all aspects of the network infrastructure. Additionally, the Senior ITS Network Engineer independently performs complex network-related projects and supports the resolution of advanced issues in areas such as switching, routing, and network security, acting as an escalation point for unresolved problems from lower support tiers.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Provides advanced technical support for networking hardware and software services for the Authority.
- Designs, builds, and implements functional network infrastructure, including LAN, WLAN, and WAN to support organizational needs.
- Ensures the continuous availability of all data network services, proactively monitoring performance and addressing issues as they arise.
- Mentors and trains the network operations team in installation, configuration, and maintenance best practices to enhance team skills and capabilities.
- Troubleshoots, maintains, and repairs the network infrastructure to ensure reliability and performance.
- Investigates and remediates network capacity-related issues to optimize resource utilization and improve overall network efficiency.
- Evaluates and recommends various network infrastructure solutions to meet organizational needs and enhance operational effectiveness.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.

- Continuous typing
- Occasional use of car/light truck
- Occasional use of power tools

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

SENIOR ITS SYSTEM ADMINISTRATOR

GENERAL DESCRIPTION

Under the general direction of the Senior Manager of Enterprise Service Delivery, the Senior ITS System Administrator is responsible for performing advanced professional information technology tasks, including the installation and configuration of systems, server hardware, and software, as well as maintaining and repairing complex system-related issues. This position is expected to lead Information Technology (IT) technical work on server and system-related projects of greater scope and complexity while supporting the resolution of advanced work problems with minimal supervision.

This position requires flexibility to work rotating shifts, including days, evenings, overnights, weekends, and holidays, to meet the demands of our 24/7 operations.

Requires availability for emergency call-in.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Performs advanced setup, installation, and configuration of operating systems, including both hardware and software components.
- Oversees backup and recovery processes to protect data integrity and ensure business continuity in critical situations.
- Leads the evaluation and recommendation of various software and hardware solutions to meet user needs and enhance overall operational efficiency.
- Creates and manages user directories and files on server platforms to ensure organized, secure, and efficient access.
- Monitors, diagnoses, and resolves operating system problems to maintain high system performance and reliability.
- Assists with troubleshooting, maintenance, and repair of operating systems and applications to minimize user disruption.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crises, or issues.
- **Influence Others:** Influences others to be excited and committed to furthering the organization's objectives; Ability to gain other's support for ideas, proposals, and solutions.
- **Critical thinking:** Able to analyze a situation from different points of view; consider current and future impacts of decisions; objectively evaluate an issue to form a decision.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others**.**

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's degree in Information Systems, Computer Science, Management Information Systems, Computer Engineering, or a related field.
- Three (3) years of information technology experience in advanced support of servers, systems, software, peripherals, and storage technology.
- CompTIA A+, CompTIA Network+ or Microsoft Certified Professional.
- Or equivalent combination of education, training, and experience.
- Must possess a valid Florida Driver License.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of Microsoft Windows Server environments, server virtualization technologies, and backup and restore technologies and products.
- Knowledge of server clustering and high availability server environments.
- Knowledge of administration of Linux-based systems.

SENIOR MANAGER OF ACCOUNTING

GENERAL DESCRIPTION

Under the general direction of the Vice President of Finance, the Senior Manager of Accounting is responsible for managing the general ledger and accounting methodologies that facilitate the preparation of monthly, quarterly, and annual financial packages. This role oversees the completion of the Authority's financial package preparation and directs the monthly, quarterly, and year-end closing activities of accounts payable. Additionally, the Senior Manager leads and supervises all accounting functions for the Authority, including accounts payable, general ledger management, and financial reporting, while ensuring the integrity of financial controls and compliance with established procedures.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Directs the monthly, quarterly, and year-end closing activities of accounts payable to ensure timely and accurate financial reporting.
- Oversees the financial system general ledger, evaluating its effectiveness and recommending enhancements to senior management.
- Play a critical leadership role in testing and implementing upgrades to the financial management system, providing necessary training to staff.
- Ensures the integrity of financial controls over the Authority's books and records, ensuring compliance with established procedures.
- Manages the external financial audit process, serving as the primary contact for the audit team and ensuring smooth communication.
- Ensures accurate and timely flow of information to auditors, coordinating data requests and responding to inquiries effectively.
- Prepares assigned schedules and notes for financial statements, ensuring all information is accurate and complete.
- Manages and reviews the Authority's bank reconciliations prepared by staff to ensure accuracy and timeliness.
- Prepares and presents financial reports and analyses to senior management, offering insights and recommendations for decision-making.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.

- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Driving Results:** Ability to inspire and motivate their staff to achieve goals by fostering a positive work environment that encourages enthusiasm, engagement, and high performance. Creates a sense of purpose and excitement around team's output.
- **Decisiveness:** Thinking outside the box; taking appropriate risk when getting things done with resources available resulting in actionable output.
- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crisis, or issues.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate**.**

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee's department or the HCAA Emergency Operations Center (EOC). Such assignments may be before, during, or after the emergency/disaster.
- Complies with all HCAA Policies, Standard Procedures, Rules and Regulations, and Operating Directives.

QUALIFICATIONS (EDUCATION, EXPERIENCE, LICENSES & CERTIFICATIONS)

- Bachelor's Degree in Accounting, Finance or related field
- Six (6) years related experience.
- Three (3) years supervisory experience.
- Or equivalent combination of education, training, and experience.
- Certified Public Accountant.
- Must possess a valid Florida Driver License.

PREFERRED QUALIFICATIONS

- Master's degree in accounting, finance, or related field.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of accounting principles and Generally Accepted Accounting Principles (GAAP) to guide financial reporting and practices.
- Knowledge of professional and departmental standards for conducting comprehensive auditing programs, ensuring adherence to best practices.
- Knowledge of local, state, and federal laws, ordinances, and regulations related to the fiscal management of government agencies, ensuring compliance in all accounting practices.
- Ability to analyze transactions and financial reports, making appropriate corrections to entries as necessary to maintain accuracy.
- Ability to establish clear direction, motivate teams, and foster a work culture focused on ongoing learning and performance goals.
- Ability to communicate effectively orally and in writing.
- Ability to establish and maintain effective working relationships with others within and outside the Authority.
- Ability to handle restricted, sensitive, and confidential information.
- Ability to provide outstanding customer service, serve the public, and represent the Authority with courtesy and professionalism.

SENIOR MANAGER OF CONSTRUCTION

GENERAL DESCRIPTION

Under the general direction of the Director of Construction, the Senior Manager of Construction is responsible for directing and supervising Authority construction staff, architects, engineers, and support personnel overseeing and inspecting the construction of facilities for the Authority's airport system. The Senior Manager ensures that all construction projects are proceeding in accordance with the requirements of the project plans and specifications and in accordance with the goals and objectives of the Authority. This position oversees the communication between Authority Staff, contractors, designers, inspectors, and the Authority's Consulting Engineer on all construction projects.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Professionally represent the Authority as the primary interface with contractors and designers.
- With the assistance of the Construction Project Managers, ensures that regular construction progress meetings are conducted between contractors, designers and inspectors to review procedures, progress, scheduling and changes to the work.
- Monitors the contractor's implementation and maintenance of a Safety Program. Reviews all proposed changes to the construction contracts and assures proper application and interpretation of the Contract Documents.
- Provides oversight of the successful resolution and correction of Notices of Non-Compliance and oversees the preparation of the monthly status of construction report by the construction project manager.
- Facilitates meetings with all parties to help defuse issues. This includes contractors, fellow construction staff, tenants, airlines, and other Authority departments. Strong professional-level people skills required.
- Reviews the schedules submitted by the contractor to ensure compliance with the contract and monitors each contractor's monthly submittals of schedules to ensure they remain within the parameters established by the contract.
- Acts as the representative of the Authority at the site of all construction work.
- Oversees Construction Project Managers' scheduling and conducting of progress meetings.
- Monitors the Architect/Engineer in determining that factory inspection and testing for items fabricated outside project limits is performed.

- Adhere to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Develop and maintain relationships with the contractor, architect, engineer to ensure the highest level of quality and customer service is delivered.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.

SENIOR MANAGER OF EMPLOYEE RELATIONS & TALENT ACQUISITION

GENERAL DESCRIPTION

Under the general direction of the Director of Human Resources, the Senior Manager of Employee Relations and Talent Acquisition plays a pivotal role in shaping and enhancing the organization's employee relations and talent acquisition strategies. This senior leadership position encompasses managing and implementing Human Resources (HR) policies, overseeing recruitment efforts, providing guidance on labor relations, ensuring alignment with organizational goals and compliance with regulations. The role involves leading a dedicated team in developing annual recruitment strategies, conducting investigations, and advising on HR policies while managing the HR department's budget. Additionally, the Senior Manager will facilitate effective onboarding and offboarding processes, oversee compliance reporting, and engage in collective bargaining negotiations, making them a key player in fostering a positive work environment and workforce development.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Lead and manage comprehensive HR programs, including recruitment, labor relations, personnel records, and employee recognition initiatives.
- Participate actively in labor agreement negotiations to ensure fair and equitable outcomes.
- Supervise and mentor a dedicated team responsible for talent acquisition, overseeing onboarding and offboarding processes.
- Develop and implement an annual recruitment strategy that aligns with Succession Planning objectives, providing regular progress updates.
- Manage the HR department's budget in accordance with the Authority's fiscal plan, ensuring effective position control and reporting.
- Provide expert guidance on the implications of laws, regulations, Authority policies, and collective bargaining agreements.
- Assist management in the development and revision of HR policies, procedures, and programs that support organizational objectives.
- Conduct or oversee timely investigations related to employee and labor relations, document findings, and provide actionable recommendations.
- Advise managers and staff on policy interpretation, recruitment strategies, compensation, conflict resolution, and union grievances.

- Seek legal counsel for complex cases, including drafting responses for legal review, particularly for EEOC claims.
- Manage contracts and agreements for temporary labor, negotiating terms, tracking expenditures, and serving as the primary contact.
- Act as a liaison for Unemployment Compensation, fostering effective working relationships internally and externally.
- Ensure hiring practices comply with Authority standards, state and federal regulations, and employment laws.
- Oversee the entire hiring process, including conducting background checks and I-9 verification to ensure compliance.
- Compile accurate reports for internal and external compliance requests, including completion of the Authority's EEO-4 report and Affirmative Action Plan (AAP).
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Empowerment:** Shares and instills in others a sense of responsibility to enhance their commitment and ownership; Encourages ownership and responsibility through team building and development, which results in individuals solving problems on their own through creativity and innovation.
- **Decisiveness:** Thinking outside the box; taking appropriate risks when getting things done with resources available, resulting in actionable output.
- **Driving Innovation:** Develops fresh ideas and new approaches that provide solutions to all types of workplace challenges. Develops new ways to solve problems and achieve results. Reward unique ideas and solutions that result in success.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate.

The Hillsborough County Aviation Authority-Tampa International Airport provides equal employment opportunity to all persons, regardless of age, race, religion, color, national origin, sex, political affiliations, marital status, non-disqualifying physical or mental disability, sexual orientation, membership, or non-membership in an employee organization, or based on personal favoritism or other non-merit factors.

The Hillsborough County Aviation Authority-Tampa International Airport welcomes and encourages applications from minorities, veterans, and persons with physical and mental disabilities, and will reasonably accommodate the needs of those persons in the application, testing and hiring process. The decision to grant reasonable accommodation requests will be made case-by-case.

SENIOR MANAGER OF ENVIRONMENTAL SERVICES

GENERAL DESCRIPTION

Under the direction of the Director of Planning, Senior Manager of Environmental Services leads the Environmental Compliance Program for the Authority's airport system. The goal of the Environmental Compliance Program is to reduce existing and future environmental liabilities, reduce compliance costs associated with regulatory permits and reporting requirements, and cost-effectively manage compliance responsibilities with a focus on pollution prevention. This position manages the activities of the Authority's environmental consultants and contractors as it relates to the day-to-day operation and maintenance of airport facilities. This position represents the Authority before regulatory agencies and is responsible for environmental-related communications with environmental regulators, consultants, stakeholders, and contractors. This position serves as a liaison for the airport system's stakeholders to provide recommendations on design compatibility and interpretation of environmental regulations.

SUPERVISES OTHERS: NO

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Administers the environmental section's operation and maintenance (O&M) budget, monitors the status of funds and determines staffing requirements.
- Serves as the Contract Manager for the Authority's continuing general environmental consultant contract.
- Manages the Stormwater Pollution Prevention Plans (SWPPPs), Spill Prevention, Control & Countermeasure (SPCC) plans, and best management practices associated with the ARFF fire drill pit; this includes ongoing SWPPP permitting and hosting annual SWPPP/SPCC training for Authority staff, tenants and interested parties.
- Coordinates with Authority departments on the management and disposal of Authority-generated potentially/hazardous waste; this includes ongoing hazmat permitting and managing a quarterly hazardous waste disposal program.
- Manages the O&M of the ARFF fire drill pit, 29 petroleum storage systems and 20 oil-water separators; this includes ongoing permitting and serving as the procurement professional to procure and implement outsourced repair and maintenance contracts on these facilities.
- Manages water resource permitting for well water, irrigation water, and reclaimed water including regulatory data reporting and meter accuracy testing.
- Coordinates outsourced aquatic maintenance of wetland mitigation sites at TPA and VDF.

- Manages pollution remediation obligations of contaminated Authority property; this incorporates many disciplines including drilling, testing, source removal, preparing and professionally certifying reports, implementing institutional/engineering controls, surveying, title work, legal noticing; coordination/negotiation with attorneys, consultants, contractors, tenants, former tenants, government agencies, easementholders, and others.
- Manages TPA's Soil and Groundwater Use Regulations; confirms new buildings are connected to municipal water supply; and soil disturbance plans are reviewed against delineated areas so that advisory language can be provided to Contract/Project Managers, Tenant Work Permit Coordinator, or other parties.
- Participates in any projects on Authority property that involve environmental regulatory matters, environmental audits, environmental permits, pollution remediation, petroleum storage systems, potentially/hazardous waste, asbestos and lead.
- Coordinates with Risk Management to secure the annual scheduled insurance policy for Authority petroleum storage systems, determines environmental risks for upcoming projects, and performs research on historical commercial general liability policies with respect to legacy pollution conditions.
- Participates in establishing and reviewing standard contract/lease language.
- Coordinates environmental audits for property that is owned by the Authority and property that is considered for acquisition or divestiture; this includes audits related to tenant or maintenance service provider lease agreements or contracts, and baseline sampling audits.
- Coordinates with Operations on spill tracking, provides regulatory reporting, and participates in the procurement of pollution remediation actions.
- Coordinates with the Tenant Work Permit Coordinator to review and comment on tenant work permits involving petroleum storage systems, asbestos and lead paint abatement, hazardous waste disposal, environmental permits, notices of violation, and pollution remediation correspondence.
- Serves as subject matter expert on general airport history, and historical research for legal matters including pollution conditions attributed to the past use of firefighting foam, petroleum, and hazardous materials.
- Manages the Authority-wide PFAS transition plan that addresses a wide variety of public health-related topics associated with emerging contaminants including per- and polyfluoroalkyl substances.
- Serves as a Project Director, when necessary to support P&D's design section.
- Manages the 1.5M P&D department O&M budget, 200k environmental services section budget and 400k pollution remediation obligation budget; and has responsibility in the workflow of the Authority's continuing general environmental consultant and the outside environmental attorney providing special legal services.
- Provides Authorized Signatory responsibility for badging and credentialling of approximately 200 badgeholders including Authority P&D employees, outside consultants and contractors.Adheres to all safety protocols and regulations while performing tasks to ensure a safe working environment, including proper use of personal protective equipment (PPE) and reporting potential hazards.
- Regular and reliable attendance is required as an essential function of the position.

***This list is not intended to be all-inclusive, and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary*.**

COMPETENCIES

- **Resilience:** Maintains performance and self-control under pressure or adversity. Views challenges as learning opportunities. Maintains confidence and clarity despite unforeseen circumstances.
- **Organizational Ownership:** Being accountable for the results of your actions. Effectively leading a team of collaborators. Proactively solving problems, improving processes without being asked, taking on challenging projects, and creating and implementing innovative solutions.
- **Decisiveness:** Thinking outside the box, taking appropriate risks when getting things done with available resources, and developing new ways to solve problems and achieve results.
- **Teamwork:** The ability to function effectively within a team, contributing positively to collaborative efforts and achieving shared goals by demonstrating communication, collaboration, active listening, conflict resolution, and adaptability to different perspectives while respecting the roles and contributions of others. At times takes the lead and positively influences others.

REQUIRED FOR ALL HCAA JOBS

SENIOR MANAGER OF INTERNAL AUDIT

GENERAL DESCRIPTION

Under the general direction of the Vice President of Internal Audit, the Senior Manager of Internal Audit is responsible for overseeing and directing audit activities related to complex financial and program operations within various departments, agencies, and external organizations that have contractual relationships with the Authority. This role involves managing a team of auditors, ensuring compliance with established procedures, and evaluating the effectiveness of internal controls. This position will formulate the annual audit plan, establish audit objectives, and provide guidance on documentation and analysis methods to support findings and recommendations. This position maintains a high level of integrity and transparency of the Authority's operations through rigorous auditing practices and effective leadership.

SUPERVISES OTHERS: YES

FLSA STATUS: EXEMPT

ESSENTIAL FUNCTIONS

- Oversees planning, coordination, and performance of assurance and consulting engagements of auditors from beginning to end.
- Reviews auditor workpapers ad reports to ensure conformance with professional standards and Department specifications.
- Responsible for highly complex areas of an engagement while providing support to subordinates in their performance of less-complex areas.
- Communicates engagement progress, technical problems, and potential issues identified to supervisor and senior leadership stakeholders.
- Formulates and assists in developing the annual audit plan, determining specific audit focus and direction in alignment with organizational objectives.
- Oversees the execution of audit activities, ensuring compliance with professional standards and monitoring the progress of audit assignments.
- Provides guidance on proper documentation techniques, data gathering, and analysis methods to support audit findings and recommendations.
- Reviews and evaluates completed audit work for accuracy, adequacy, and compliance with established standards, ensuring that sufficient supporting documentation is present.
- Leads the internal and external assessment efforts for the Department by coordinating the assessments, communicating results of the assessments, and ensuring the Department takes any corrective action needed to ensure compliance with standards.

- Manages the Department templates, including the execution and communication of revisions to templates.
- Conducts audits of highly technical or complex areas to assess the effectiveness of management controls and compliance with relevant policies and regulations.
- Prepares comprehensive reports on audit findings for presentation to senior management, highlighting critical issues and recommendations for improvement.
- Collaborates with other departments and stakeholders to address audit findings and implement necessary changes for operational enhancement.
- Participates in periodic project status meetings with staff to discuss progress, challenges, and resource requirements related to audit activities.
- Ensures regular communication with management regarding audit progress, technical issues, and any concerns that may arise during the audit process.
- Assists Vice President with completion of the annual risk assessment, annual audit plan, and preparation for Audit Committee Meeting.
- Accountable for the well-being and support of their direct reports, providing individual training for their job responsibilities and offering mentorship.
- Evaluates the work performance of direct reports; engages in transparent performance check-ins and appraisals and takes necessary corrective action or disciplinary measures when required.
- Ensures that direct reports comply with authority standards regarding personal appearance, fostering a professional work environment.
- Oversees the maintenance and accountability of all direct reports' equipment, ensuring adherence to established guidelines and promoting operational efficiency.
- Regular and reliable attendance is required as an essential function of the position.

This list is not intended to be all inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

COMPETENCIES

- **Driving Results:** Ability to inspire and motivate their staff to achieve goals by fostering a positive work environment that encourages enthusiasm, engagement, and high performance. Creates a sense of purpose and excitement around team's output.
- **Decisiveness:** Thinking outside the box; taking appropriate risk when getting things done with resources available resulting in actionable output.
- **Accountability:** Taking responsibility for one's actions and decisions; Admitting mistakes and learning from them; Assuming responsibility for dealing with problems, crisis, or issues.
- **Sound Judgement:** The ability to make sound and timely decisions by analyzing and understanding situations and information clearly by carefully examining the details. Exhibits a sense of urgency where appropriate**.**

REQUIRED FOR ALL HCAA JOBS

- In the event of an emergency or disaster that impacts the Hillsborough County Aviation Authority (HCAA), an employee may be required to respond promptly to duties and responsibilities as assigned by the employee’s department or the HCAA Emergency Operations Center (EOC).
