

AVIATION AUTHORITY POLICY

700: PLANNING & DEVELOPMENT

Effective: 04/05/12

SUSTAINABILITY

Revised:

P770: Sustainability Management

PURPOSE: To establish a policy regarding sustainability management of the Authority's assets.

LEGAL CONSIDERATION: Pursuant to Sections 4(2) and 6(1)(c) of the Hillsborough County Aviation Authority Act, the Authority has exclusive jurisdiction, control, supervision and management over all the publicly owned or controlled airports in Hillsborough County.

POLICY: The Authority is committed to providing efficient aviation services while striving to balance sustainable development in business planning and practices, thus contributing to the sustainability of Tampa International, Peter O. Knight, Tampa Executive and Plant City Airports.

The Authority will strive to achieve the following:

A. Sustainable Development

Preserve natural resources and incorporate energy saving and resource preserving features in all design and development. The Authority and its tenants will endeavor to achieve a balance of energy efficiency, water conservation, and other natural resource preservation, taking into consideration the initial costs and the on-going operation and maintenance costs.

B. Sustainable Operations

Study, identify and implement programs that conserve energy and water, prevent pollution and reduce waste, leading to sustainable operations.
